**Forthcoming Books** Rose Arny, 2003-12 *INKED* Jeb Blount, 2020-01-07 Learn powerful closing and sales negotiation tactics that unlock yes and seal the deal Each year sales professionals leave billions of dollars on the table because they are outgunned outmaneuvered and outplayed by savvy buyers who have been schooled in the art and science of negotiation Because today's buyers have more power than ever before more information more at stake and more control over the buying process they almost always enter sales negotiations in a much stronger position than the salespeople on the other side of the table The results are sadly predictable salespeople and their companies end up on the losing end of the deal In this brutal paradigm if you fail to master the skills strategies and tactics to go toe to toe with modern buyers and win at the sales negotiation table your income and long term earning potential will suffer along with your company's growth profits and market valuation In his new book *INKED The Ultimate Guide to Powerful Closing and Sales Negotiation Tactics that Unlock YES and Seal the Deal* Jeb Blount levels the playing field by giving you the strategies tactics techniques skills and human influence frameworks required to become a powerful and effective sales negotiator In his signature straightforward style Jeb pulls no punches He slaps you right in the face with the cold hard truth and lays bare the reasons why you keep getting beaten by buyers who have been trained in how to play you Then he teaches you exactly what you need to know do and say to gain more control and more power over the outcomes of your deals and WIN You'll learn

*Negotiating Strategies* David Rosen, 2016-09-28 This is the most complete catalogue of cutting edge negotiating tactics ever published This blockbuster work is written as a playbook a field guide so lawyers sales professionals and other dealmakers will actively use it as negotiations proceed Use the tactics individually or in combinations Swap them in and out as negotiations proceed for maximum effectiveness to keep your adversary off balance to calm them or to close the deal Negotiations are fluid and the mood can change Sticking to a single approach can lead to deal failure Rosen says a superior negotiator always adjusts as a deal progresses just as a winning coach makes in game adjustments There is no filler here There are no war stories This is not a biography of David Rosen s career It is exactly what the title says an easy to use directory of powerful negotiating tactics Each technique is succinctly explained many with useful examples The descriptions range in length from a single paragraph to a few pages While there are many very sophisticated principles at work in Rosen s catalogue of techniques each is simply explained This is not an academic work It is a tool a device just like a notepad a pen or a calculator for dealmaking pros to reference constantly Rosen gets high marks for his opening discussion of ethics The tactics he compiled here are extremely powerful and readers should use caution in deciding how to apply them Some incorporate powerful psychological principles and are proven to work based on decades of heavy academic research To quote Rosen from the book s Authors Note Some negotiators may find ideas in this book too aggressive but that is a matter of perspective It is not a matter of right versus wrong or ethical versus unethical One may be a principled and hardcore competitive negotiator or an unprincipled unethical collaborative negotiator So a given negotiator s description of a tactic as

too aggressive is really nothing more than his or her marking of the spot on the style continuum beyond which he or she no longer feels comfortable Another negotiator might feel discomfort far short of that first negotiator's comfort spectrum Others still may feel no discomfort even at the extremes Who will benefit from this collection of advanced strategies Lawyers negotiators sales organizations and sales professionals business owners mediators and anyone involved in negotiating dealmaking selling cold calling following up and closing deals What will you learn A small sample of the dozens of tactics motivating others to buy sell or reach other agreement overcoming objections creating or deflating a sense of urgency helping opposing negotiators sell your deal to their own clients overwhelming the opposition and strategic uses of silence and indecision But Rosen takes you far beyond that and far beyond the other generic books on the market He introduces you to deeply researched psychological principles such as Prospect Theory Coase Theorem Asch Conformity principles and concepts like reciprocity scarcity and consistency Each is simply explained in a way that teaches you how to use them to achieve superior outcomes Other books on negotiating don't even address these critical topics Rosen explains them and shows you how they work Buy this guide study it and keep it with you There are so many potent and compelling techniques that you'll never remember them all One thing's for sure however Once you become familiar with Rosen's easy to understand strategies you'll never negotiate without this book again      **How to Say it** Jim Hennig, 2008
