

A scenic view of a mountain valley, likely Yosemite, with a prominent rock formation on the left and a valley floor covered in greenery. The sky is a soft, hazy orange and yellow, suggesting sunrise or sunset. A dark, semi-transparent rectangular box is centered over the image, containing the quote in white text.

The meaning of life is

Jessie Dezutter, Suvi-Maria Katariina Saarelainen, Gørill Haugan, 2022-03-28 **Meaning and purpose of life** Nishkam S. Agarwal, 2015-06-11 Meaning and Purpose of Life are perhaps the most thought about if not talked about issues on the planet since human beings have walked on earth This book is another attempt to understand the Meaning and Purpose of Life using the ideas of Vedanta in Indian philosophy and of mainstream economics Starting from first principles Dr Agarwal explores the core concept of Brahman in Vedanta and builds an axiomatic foundation for understanding the meaning and purpose of life using the fundamental ideas of the Prasthanas Traya and in particular of The Bhagavad Gita and The Principal Upanishads

Dr Agarwal adheres to the philosophy of Karma Yoga as his chosen area of interest for the exploration of meaning and purpose which allows him to seek linkages between the concepts of social welfare in Vedanta and economics. Ideas of lokasamgraha in Indian philosophy and of externalities in economics provide a clear common ground between the two apparently disparate disciplines. Throughout the book he emphasizes simple practical approaches for making life more meaningful and happier while relying fundamentally on the basic ideas of Vedanta.

Positive Psychology in Search for Meaning Dmitry Leontiev, 2016-03-17 What are the ways in which we can understand the meaning of the psychology of meaning in people's lives. In the last century mainstream psychology has largely neglected the topic of meaning. More recently the concept has become an academically legitimate one within positive psychology and in some other speciality areas of psychology. This book contains a collection of theoretical, methodological and empirical papers written by the acknowledged experts systematically working on the problems of personal meaning within the positive psychology framework. The authors investigate the possibilities and limitations of a scientific study of personal meaning and new perspectives that this concept brings to the field. This book was originally published as a special issue of The Journal of Positive Psychology.

Finding Meaning in Life, at Midlife and Beyond David Guttman, 2008-09-30 Having been mentored by Viktor E. Frankl, the founder of logotherapy, Emeritus Professor David Guttman authored this book so general readers may understand this approach to finding meaning in life at the point when most of us begin deeply wondering over that question at midlife and beyond. Especially in this day and age of multiple demands on our time and seemingly non-stop obligations, we too often find that it is only when the dust settles after a work day or work week or even after retirement when we begin to wonder: What is the meaning of life? The purpose of this book is a new millennium venture into those questions and their answers using logotherapy written by a sage understudy who recalls Frankl with his logotherapy as the epitome of his theory even at 80 years old, wise and witty, exuding an energy, enthusiasm and youthful spirit that belied his years by decades. Aging does not diminish our power, our energy and our quest for life but reshapes it with new understandings, goals and needs. But says Guttman, we live in a technical and machine-based world now in which there is a danger of losing our souls. Here readers find a new creative perspective on aging and a fresh spiritual outlook. This book will be of interest not only to general readers, especially those at midlife and beyond, but also to their families, friends and students or professionals in the helping professions. This unique work provides knowledge to find meaning in life derived from the fields of philosophy, psychology, religion and gerontology with case illustrations and vignettes to give readers both intellectual pleasure and practical guidance.

Meaning in Life Thaddeus Metz, 2013-11-07 What makes a person's life meaningful? Thaddeus Metz offers a new answer to an ancient question which has recently returned to the philosophical agenda. He proceeds by examining what, if anything, all the conditions that make a life meaningful have in common. The

outcome of this process is a philosophical theory of meaning in life He starts by evaluating existing theories in terms of the classic triad of the good the true and the beautiful He considers whether meaning in life might be about such principles as fulfilling God's purpose obtaining reward in an afterlife for having been virtuous being attracted to what merits attraction leaving the world a better place connecting to organic unity or transcending oneself by connecting to what is extensive He argues that no extant principle satisfactorily accounts for the three fold significance of morality enquiry and creativity and that the most promising theory is a fresh one according to which meaning in life is a matter of intelligence contoured toward fundamental conditions of human existence Searching in Strange Places: Uncovering Life's Meaning beyond the Familiar

Allison,James K.

Beggan,Olivia Efthimiou,2019-06-21 Heroism is a rich elusive phenomenon Any adequate understanding of heroic behavior requires a new type of scholarly imagination one that taps into human artistic sensibilities as much as it does the rigors of scientific inquiry In an important sense we invoke a meta version of the call to heroic imagination by Franco Blau and Zimbardo 2011 who describe such imagination as a mind set and a collection of attitudes p 13 that can steer everyday people

toward heroic achievement This eBook also merges our understanding of heroism with heroic leadership demonstrating that heroic leadership applies the principles of heroism in moving groups toward noble collective goals This eBook represents an effort by a distinguished group of authors to unleash their own creative mindsets attitudes and imaginations in their scholarship on heroism and heroic leadership
