sequence program department or unit and university levels is questioned in terms of reliability validity relevance and cost
Media education which has been challenged at a number of schools finds faculty and administrators in the midst of soul
searching about how to clearly articulate its missions and purposes to a broader audience Departments are under increasing
national state and institutional pressure to get assessment procedures carried out quickly but there is an obvious danger in
rushing to implement assessment strategies before establishing what is essential in media education In communication
education in general the what of assessment is often discussed in terms of skills attitudes affect values and knowledge People
assess students to determine what they know think feel value and can do Here it is suggested that one of the places to start
