**Handbook of Descriptive Linguistic Fieldwork** Shobhana L. Chelliah,Willem J. de Reuse,2010-10-06 The Handbook of Descriptive Linguistic Fieldwork is the most comprehensive reference on linguistic fieldwork on the market bringing together all the reader needs to carry out successful linguistic fieldwork Based on the experiences of two veteran linguistic fieldworkers and advice from more than a twenty active fieldwork researchers this handbook provides an encyclopedic review of current publications on linguistic fieldwork and surveys past and present approaches and solutions to problems in the field and the historical political and social variables correlating with fieldwork in different areas of the world The discussion of the ethical dimensions of fieldwork as well as what constitutes the typical linguistic fieldwork setting or consultant is explored from multiple perspectives relevant to fieldwork on every continent Included is information omitted in most other texts on the subject such as the collection representation management and methods of extracting grammatical

information from discourse and conversational data as well as the relationship between questionnaire based elicitation text based elicitation and philology and the need for combinations of these methods The book is useful before during and after linguistic field trips since it provides extensive practical macro and micro organization and planning fieldwork tips as well as a handy sketch of major typological features for use in linguistic analysis Comprehensive references are provided at the end of each chapter as resources relevant to the reader s particular interests The Edge of Memory Patrick Nunn,2018-08-23 How much of the folk tales of our ancestors is rooted in fact and what can they tell us about the future In today s society it is the written word that holds the authority We are more likely to trust the words found in a history textbook over the version of history retold by a friend after all human memory is unreliable and how can you be sure your friend hasn t embellished the facts But before humans were writing down their knowledge they were passing it on in the form of stories The Edge of Memory celebrates the predecessor of written information the spoken word tales from our ancestors that have been passed down transmitting knowledge from one generation to the next Among the most extensive and best analysed of these stories are from native Australian cultures These stories conveyed both practical information and recorded history describing a lost landscape often featuring tales of flooding and submergence Folk traditions such as these are increasingly supported by hard science Geologists are starting to corroborate the tales through study of climatic data sediments and land forms the evidence was there in the stories but until recently nobody was listening In this book Patrick Nunn unravels the importance of these tales exploring the science behind folk history from around the world including northwest Europe and India and what it can tell us about environmental phenomena from coastal drowning to volcanic eruptions These stories of real events were handed down the generations over thousands of years and they have broad implications for our understanding of how human societies have developed through the millennia and ultimately how we respond collectively to changes in climate our surroundings and the environment we live in **The Essence of Linguistic Analysis** R.M.W. Dixon,2021-02-01 Many works on linguistic typology deal in some detail with one or more particular grammatical topics without clearly demonstrating how these relate to other categories or construction types The Essence of Linguistic Analysis by R M W Dixon presents a framework which connects individual topics in a cogent and coherent way showing their dependencies and locating each in its place within the overall tapestry of a language A clear distinction is made between semantic roles and syntactic functions And it is held that the basic constituents of a language are lexical elements Grammatical items serve to link together lexical units At every level of analysis the central units are lexical with grammar providing ancillary indicators Edible Gender, Mother-in-law Style, and Other Grammatical Wonders Robert M. W. Dixon,2015 This book builds on R M W Dixon s most influential work on the languages of North Queensland It brings together studies in the fields of phonology syntax language contact and language attrition illustrated with examples of the unusual and theoretically significant features of the languages studied **Past and Present** Jeremy Beckett,1998 This book examines Aboriginal identity in various

*The Anatomy of Avoidance* R. M. W. Dixon, 2025-05-19 Speakers of Dyirbal in North Queensland Australia have an everyday language style which has been well described They also have an avoidance style called Jalnguy which must be used in the presence of certain tabooed kin such as the mother in law Jalnguy has the same grammar and phonology as the everyday style but the vocabularies are entirely different Jalnguy has only about one sixth as many lexemes as the everyday style with various techniques used to create a Jalnguy correspondent for each everyday style word The underlying semantic system of Dyirbal is thus realised at two levels of generality and is revealed through detailed study of the correspondences between them This monograph is the first comprehensive study of this in law avoidance language providing fascinating new insights into register variation and the complexities of kinship in Australian languages
