Simuț,2011 The book describes the fundamental tenets of Catholic Radicalism defined as an understanding of Christianity from a perspective which dismisses the traditional supernatural image of God The essentials of Catholic Radicalism are extracted from the works of Vito Mancuso a lay Italian theologian whose intention is to rebuild Christian theology starting from the natural and physical reality of this world Mancuso insists that he is a Catholic theologian despite his conviction that God should be seen today in atheistic terms which help us understand the world from a rational perspective The use of reason in theology is compulsory for Mancuso in order for theology to make sense in the skeptical society of our times which is characterized by a powerful lay consciousness **'American Book Publishing Record' Cumulative** R. Graham Greene's Catholic Imagination Mark Bosco,2005-02-17 Much has been written about Graham Greene s relationship to his Catholic faith and its privileged place within his texts His early books are usually described as Catholic Novels understood as a genre that not only uses Catholic belief to frame the issues of modernity but also offers Catholicism s vision and doctrine as a remedy to the present crisis in Western civilization Greene s later work by contrast is generally regarded as falling into political and detective genres In this book Mark Bosco argues that this is a false dichotomy created by a narrowly prescriptive understanding of the Catholic genre and obscures the impact of Greene s developing religious imagination on his literary art The Mosaic of Christian Belief Roger E. Olson,2016-04-01 In this second edition of Roger E Olson s classic work he thematically traces the contours of Christian belief down through the ages revealing a pattern of both unity and diversity He finds a consensus of teaching that is both unitive and able to incorporate a faithful diversity when not forced into the molds of false either or alternatives **Light** ,1883 *The Athenaeum* ,1914 Sunningwell Francis Warre Cornish,1900 **History of Italian Philosophy** Eugenio Garin,2008-01-01 This book is a treasure house of Italian philosophy Narrating and explaining the history of Italian philosophers from the Middle Ages to the twentieth century the author identifies the specificity peculiarity originality and novelty of Italian philosophical thought in the men and women of the Renaissance The vast intellectual output of the Renaissance can be traced back to a single philosophical stream beginning in Florence and fed by numerous converging human factors This work offers historians and philosophers a vast survey and penetrating analysis of an intellectual tradition which has heretofore remained virtually unknown to the
