Kevin Robins, Frank Webster

Seasons In Hell Understanding Bosnias War:

Seasons in Hell Ed Vulliamy, 1994 The war that has riven Bosnia Herzegovina is the most ferocious carnage to blight Europe since the fall of the Third Reich It has shocked challenged but ultimately baffled the world This account of the war boils down the labyrinth of violence to a horribly simple story the humiliation decimation and betrayal of the Bosnian Muslims by two rival Balkan powers and then by the international community

Memory and Power in Post-War Europe Jan-Werner Müller, 2002-08-29 How has memory collective and individual influenced European politics after the Second World War and after 1989 in particular How has the past been used in domestic struggles for power and how have historical lessons been applied in foreign policy While there is now a burgeoning field of social and cultural memory studies mostly focused on commemorations and monuments this volume is the first to examine the connection between memory and politics directly It investigates how memory is officially recast personally reworked and often violently re instilled after wars and above all the ways memory shapes present power constellations The chapters combine theoretical innovation in their approach to the study of memory with deeply historical empirically based case studies of major European countries The volume concludes with reflections on the ethics of memory and the politics of truth justice and forgetting after 1945 and 1989

The Myth of Global Chaos Yahya M. Sadowski, 2001-09-19 When the Cold War ended in 1989 American hopes for a new world order were quickly disappointed A new wave of violence soon erupted engulfing places from Rwanda and Somalia to Chechnya and Bosnia These new clashes of civilizations fundamentalist jihads and ethnic massacres appeared to be more savage and less rational than the long twilight struggle with the USSR during which Washington's adversary was clearly identified and relatively predictable In an effort to understand these post Cold War conflicts and to advise the government on how to deal with them a new school of foreign policy thought has developed Dubbed chaos theory it argues that the much heralded processes of globalization are actually breeding a reaction of irrational violence Thus the spread of Western cultural icons through new electronic media often shocks and offends moral sensibilities in traditional societies The explosive growth of international commerce has triggered a wave of migration and urbanization that throws together people from different cultures and fertilizes xenophobia Chaos theory has already won converts in the U S military the intelligence community and the foreign service Its influence has been manifest in an array of policies particularly during the U S engagement in Bosnia But chaos theory is mostly wrong In this book the author outlines the growth of chaos theory and its growing influence and then provides a thorough empirical critique Using detailed studies of Bosnia and global comparisons he shows that globalization has not played a decisive role in fueling recent conflicts Indeed journalists impressions notwithstanding there is no evidence that since 1989 warfare has become more savage or even more frequent The advocates of chaos theory are thus urging the U S to invest in preparing for a threat that is largely mythical a strategy that is at least wasteful and potentially dangerous The author argues that the most use

Bosnian Genocide Paul R. Bartrop, 2016-01-18 Providing an indispensable resource for students and policy makers investigating the Bosnian catastrophes of the 1990s this book provides a comprehensive survey of the leaders ideas movements and events pertaining to one of the most devastating conflicts of contemporary times In the three years of the Bosnian War well over 100 000 people lost their lives amid intense carnage This led to unprecedented criminal prosecutions for genocide war crimes and crimes against humanity that are still taking place today

Times of the Technoculture Kevin Robins, Frank Webster, 2003-09-02 *Times of the Technoculture* explores the social and cultural impact of new technologies tracing the origins of the information society from the coming of the

machine with the industrial revolution to the development of mass production techniques in the early twentieth century The authors look at how the military has controlled the development of the information society and consider the centrality of education in government attempts to create a knowledge society Engaging in contemporary debates surrounding the internet Robins and Webster question whether it can really offer us a new world of virtual communities and suggest more radical alternatives to the corporate agenda of contemporary technologies

Representing Genocide Rebecca Jinks, 2016-06-02 This book explores the diverse ways in which Holocaust representations have influenced and structured how other genocides are understood and represented in the West Rebecca Jinks focuses in particular on the canonical 20th century cases of genocide Armenia Cambodia Bosnia and Rwanda Using literature film photography and memorialisation she demonstrates that we can only understand the Holocaust's status as a benchmark for other genocides if we look at the deeper structural resonances which subtly shape many representations of genocide Representing Genocide pursues five thematic areas in turn how genocides are recognised as such by western publics the representation of the origins and perpetrators of genocide how western witnesses represent genocide representations of the aftermath of genocide and western responses to genocide Throughout the book distinguishes between mainstream and other more nuanced and engaged representations of genocide It shows how these mainstream representations the majority largely replicate the representational framework of the Holocaust including the way in which mainstream Holocaust representations resist recognising the rationality instrumentality and normality of genocide preferring instead to present it as an aberrant exceptional event in human society By contrast the more engaged representations often but not always originating from those who experienced genocide tend to revolve around precisely genocide's ordinariness and the structures and situations common to human society which contribute to and become involved in the violence

Libricide Rebecca Knuth, 2003-07-30 Where they have burned books they will end in burning human beings declared German poet Heinrich Heine This book identifies the regime sponsored ideologically driven and systemic destruction of books and libraries in the 20th century that often served as a prelude or accompaniment to the massive human tragedies that have characterized a most violent century Using case studies of libricide committed by Nazis Serbs in Bosnia Iraqis in Kuwait Maoists during the Cultural Revolution in China and Chinese Communists in Tibet Knuth argues that the destruction of books and libraries by authoritarian regimes was sparked by the same impulses toward negation that provoked acts of genocide or ethnocide Readers will learn why some people even those not subject to authoritarian regimes consider the destruction of books a positive process Knuth promotes understanding of the reasons behind extremism and patterns of cultural terrorism and concludes that what is at stake with libricide is nothing less than the preservation and continuation of the common cultural heritage of the world Anyone committed to freedom of expression and humanistic values will embrace this passionate and valuable book

Hunting the Tiger Christopher S. Stewart, 2008-01-08 A gripping investigation into the extraordinary career of Serbia s legendary warlord Zeljko Arkan Raznatovic began his life as a petty criminal a juvenile delinquent adrift in the floundering state of Yugoslavia He would eventually become famous throughout Western Europe as the smiling bank robber as a Houdini like fugitive from multiple prisons and even as a state sponsored assassin Stories of motorboat robberies and daylight bank heists would follow him from country to country Yet however impressive his criminal reputation seemed at first it was only the beginning of his path to infamy Following Yugoslavia s chaotic descent into madness in the 1990s Arkan would become not only a gangster but one of Serbian President Slobodan Milosevic s most valued henchmen in the country s civil war He rallied Belgrade s notoriously violent soccer hooligans paired them with inmates from Serbia s prisons among other brutal street thugs and trained them to become his ruthless foot soldiers known as the Tigers During the war the men rampaged through Croatia and Bosnia killing raping burning and looting As they earned a reputation as Serbia s most feared death squad accused of genocide by The Hague tribunal Arkan became one of the region s wealthiest men A national hero he married the country s greatest pop star the so called Madonna of the Balkans in a ceremony that was compared to that of Prince Charles and Princess Diana His fame and good fortune however could not last In 1999 as NATO bombs fell on Belgrade The Hague s International War Crimes Tribunal indicted Arkan for crimes against humanity the United States called for his arrest the world media chased him and mobster rivals wanted him dead His days were numbered and just after the Serbian New Year he was shockingly assassinated in the crowded lobby of a high profile Belgrade hotel In Hunting the Tiger journalist Christopher S Stewart tells the spectacular bloody and often nebulous story of a man who was equal parts James Bond James Dean Billy the Kid and Al Capone In a region still in the throes of sectarian conflict and wracked by the aftermath of decades of violence Stewart gives us an engaging first person look at one man who became a symbol of an intensely combustible and illicit age and who played both villain and hero at a profound historical moment

Paramilitary or irregular units have been involved in practically every case of identity based mass violence in the modern world but detailed analysis of these dynamics is rare Exploring the case of former Yugoslavia the genocides in Rwanda and Darfur and the ongoing violence in Syria Kate Ferguson exposes the relationships between paramilitaries state commands local communities and organized crime She presents these architectures of violence as a way of comprehending how the various structures of command and control fit together into domestic and international webs of support enabling and encouraging irregular and paramilitary violence Visible paramilitary participation in modern mass atrocities has succeeded in masking the continued dominance of the state in a number of violent crises Irregular combatants have participated so significantly in committing atrocity crimes because political elites benefit from using unconventional forces to fulfil ambitions that violate international law and international policy responses are hindered when responsibility for violence is ambiguous Ferguson s inquiry into these overlooked dynamics of mass violence unveils substantial loopholes in current atrocity prevention architecture Until these are addressed state authorities will likely continue to use irregular combatants as perpetrators of atrocity **When Reporters Cross the Line** Stewart Purvis,Jeff Hulbert,2013-09-05

When Reporters Cross the Line tells the true story of moments when the worlds of media propaganda politics espionage and crime collide casting journalism into controversy Its pages feature some of the best known names in British broadcasting including John Simpson Lindsey Hilsum and Charles Wheeler There are men and women who went beyond recognised journalistic conventions Some disregarded the code of their craft in the name of public interest some crossed the line in ways that had truly shocking consequences Many of the details have been kept as closely guarded secrets until now This unique account of modern reporting examines the lengths to which journalists on the front line are prepared to go to get a story or to espouse a cause Journalistic heroes and villains abound but certain of those heroes were flawed and some of the villains were surprisingly principled In the heat of war and political conflict boundaries are ignored and ethics forgotten and not just by opposing armies In this extraordinary book Stewart Purvis and Jeff Hulbert offer unparalleled access to the minds of reporters and to the often disturbing decisions they make when faced with extreme situations In doing so it hammers home some unpalatable truths posing the fundamental question where do you draw the line Modern Genocide Paul R.
