Blue Rachel Louise Moran, 2024-10-08 A powerful look at the changing cultural understanding of postpartum depression in America New motherhood is often seen as a joyful moment in a woman's life for some women it is also their lowest moment For much of the twentieth century popular and medical voices blamed women who had emotional and mental distress after childbirth for their own suffering By the end of the century though women with postpartum mental illnesses sought to take charge of this narrative In *Blue A History of Postpartum Depression in America* Rachel Louise Moran explores the history of the naming and mainstreaming of postpartum depression Coalitions of maverick psychiatrists psychologists and women who themselves had survived substantial postpartum distress fought to legitimize and normalize women's experiences They argued that postpartum depression is an objective and real illness and fought to avoid it being politicized

alongside other fraught medical and political battles over women's health. Based on insightful oral histories and in depth archival research, *Blue* reveals a secret history of American motherhood, women's political activism, and the rise of postpartum depression advocacy amid an often censorious conservative culture. By breaking new ground with the first book-length history of postpartum mental illness in the twentieth century, Moran brings mothers' battles with postpartum depression out of the shadows and into the light. **Normal Instructor**, 1912 [The Business Chronicle of the Pacific Northwest](#), 1920

[The Golden Book Magazine](#), 1928 [That Pride of Race and Character](#) Caroline E. Light, 2014-07-04 It has ever been the boast of the Jewish people that they support their own poor, declared Kentucky attorney Benjamin Franklin Jonas in 1856. Their reasons are partly founded in religious necessity and partly in that pride of race and character which has supported them through so many ages of trial and vicissitude. In *That Pride of Race and Character*, Caroline E. Light examines the American Jewish tradition of benevolence and charity and explores its southern roots. Light provides a critical analysis of benevolence as it was inflected by regional ideals of race and gender, showing how a southern Jewish benevolent empire emerged in response to the combined pressures of post-Civil War devastation and the simultaneous influx of eastern European immigration. In an effort to combat the voices of anti-Semitism and nativism, established Jewish leaders developed a sophisticated and cutting-edge network of charities in the South to ensure that Jews took care of those considered their own while also proving themselves to be exemplary white citizens. Drawing from confidential case files and institutional records from various southern Jewish charities, the book relates how southern Jewish leaders and their immigrant clients negotiated the complexities of fitting in in a place and time of significant socio-political turbulence. Ultimately, the southern Jewish call to benevolence bore the particular imprint of the region's racial mores and left behind a rich legacy. **Islands Magazine**, 2000-09 **Home Journal**, 1903 *Popular Science*, 1959-03 Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better. [The Congregationalist and Christian World](#), 1905
