## Seaweed Gatherers:

*The Kelp-gatherers* John Townsend Trowbridge, 1890      *The Seaweed Gatherers* Jessica Blair, 2010      **Seaweed** Kaori O'Connor, 2017-05-15 Some might be put off by its texture aroma or murky origins but the fact of the matter is seaweed is one of the oldest human foods on earth And prepared the right way it can be absolutely delicious Long a staple in Asian cuisines seaweed has emerged on the global market as one of our new superfoods a natural product that is highly sustainable and extraordinarily nutritious Illuminating seaweed s many benefits through a fascinating history of its culinary past Kaori O Connor tells a unique story that stretches along coastlines the world over O Connor introduces readers to some of the 10 000 kinds of seaweed that grow on our planet demonstrating how seaweed is both one of the world s last great renewable resources and a culinary treasure ready for discovery Many of us think of seaweed as a forage food for the poor but various kinds were often highly prized in ancient times as a delicacy reserved for kings and princes And they ought to be prized there are seaweeds that are twice as nutritious as kale and taste just like bacon superfood indeed Offering recipes that range from the traditional to the contemporary taking us from Asia to Europe to the Americas O Connor shows that sushi is just the beginning of the possibilities for this unique plant      **We Gather Together** Charles C. Eldredge, 2022-01-18 The mutual history of art agriculture and American identity as told through the theme of the harvest The harvest has traditionally been a productive season both on American farms and in its artists studios Before the early nineteenth century the ideal of the Jeffersonian yeoman singly cultivating a subsistence plot for family use dominated the American imagination after World War II the advent of big agribusiness proved less immediately attractive for artists In *We Gather Together* Charles C Eldredge examines the period in between when many Americans were farmers and much of America was farmland Organized in a series of case studies each devoted to a single crop *We Gather Together* initially focuses on familiar commodity crops such as corn wheat and potatoes and then expands to other yields by Native American harvesters and California floriculturists as well as winter ice cutters and coastal seaweed gatherers This novel history of agriculture and art traces parallel developments on land and canvas highlighting breakthroughs in each field Artists such as Winslow Homer Doris Lee and Georgia O Keeffe are joined by innovators in agriculture whether mechanical inventors such as Eli Whitney John Deere and Cyrus McCormick or genetic hybridizers such as Luther Burbank W Atlee Burpee and Theodosia Shepherd Surveying an astonishing amount of material and a wide range of paintings prints and other artworks from the nineteenth century to the mid twentieth century *We Gather Together* gorgeously demonstrates how the use of agricultural metaphors permeated American visual culture The harvest we see here came to signify and dominate politics poetry and popular culture ultimately representing a primary facet of American identity and nationhood      **A Legacy of Art** Carol Lowrey, 2007 For more than a century a Gilded Age mansion on the south side of New York City s Gramercy Park has been home to the National Arts Club NAC its magnificent interior a refuge from hectic city life In this special catalog Lowrey curator of the club s permanent collection documents selected
