The Graphic Novel Jan Baetens, 2001 The essays collected in this volume were first presented at the international and interdisciplinary conference on the Graphic Novel hosted by the Institute for Cultural Studies University of Leuven in 2000 The issues discussed by the conference are twofold Firstly that of trauma representation an issue escaping by definition from any imaginable specific field Secondly that of a wide range of topics concerning the concept of visual narrative an issue which can only be studied by comparing as many media and practices as possible The essays of this volume are grouped here in two major parts their focus depending on either a more general topic or on a very specific graphic author The first part of the book Violence and trauma in the Graphic Novel opens with a certain number of reflections on the representation of violence in literary and visual graphic novels and continues with a whole set of close readings of graphic novels by Art Spiegelman Maus I and II and Jacques Tardi whose masterwork *C'est la guerre des tranchées* is still waiting for its complete English translation The second part of the book presents in the first place a survey of the current graphic novel production and insists sharply on the great diversity of the range in the various continental traditions for instance underground comix and feminist comics high art graphic novels critical superheroes fiction whose separation is nowadays increasingly difficult to maintain It continues and ends with a set of theoretical interventions where not only the reciprocal influences of national and international traditions but also those between genres and media are strongly forwarded the emphasis being here mainly on problems concerning ways of looking and positions of spectatorship

On The Border Char Miller,2001-11-29 Over the past 300

years settlement patterns geography and climate have greatly affected the ecology of the south Texas landscape Drawing on a variety of interests and perspectives the contributors to On the Border probe these evolving relationships in and around San Antonio the country s ninth largest city Spanish Mexican and American settlers required open expanses of land for agriculture and ranching displacing indigenous inhabitants The high poverty traditionally felt by many residents combined with San Antonio s environment has contributed to the development of the city s unusually complex public health dilemmas The national drive to preserve historic landmarks and landscapes has been complicated by the blight of homogenous urban sprawl But no issue has been more contentious than that of water particularly in a city entirely dependent on a single aquifer in a region of little rain Managing these environmental concerns is the chief problem facing the city in the new century
