The Lost Journals of Nikola Tesla Tim Swartz, 2000 Go check your encyclopaedia to

find the answers to the following questions 1 Who invented the radio 2 Who discovered X rays 3 Who invented the vacuum

tube amplifier In fact while you're at it check to see who discovered the fluorescent bulb neon lights speedometer the

automobile ignition system and the basics behind radar electron microscope and the microwave oven Despite what most

history books say all of these inventions were conceived and developed by a man named Nikola Tesla possibly the greatest

mind mankind has ever seen Unfortunately few people today have ever heard of Tesla and his fantastic inventions After all

Tesla was considered an eccentric who talked of death rays that could destroy 10 000 aeroplanes at a distance of 250 miles

claimed to be able to split the Earth in two believed that both voice and image could be transmitted through the air in the

late 1800s and developed a science that could lead to free energy antigravity and possibly weather modification Now for the

first time Nikola Tesla's secret writings have been finally brought together in one fantastic book Much of these notes have

been withheld by the governments of the United States and Russia for fear that their secret Black Project weapons and exotic

science experiments would be discovered But some notes have managed to slip out along with recent writings on projects

based on Tesla science Death rays antigravity aircraft free energy time travel and teleportation are just a few of the

amazing secrets revealed at last **The Lost Journals of Nikola Tesla** Tim R. Swartz, 2012-02 NEWLY REVISED EDITION

HERE NOW IN THIS EXPANDED WORK ARE SOME OF THE MOST BIZARRE EXPERIMENTS CARRIED OUT BY THE

WORLD'S GREATEST ELECTRICAL WIZARD UNDER THE MOST HUSH HUSH OF CIRCUMSTANCES EXPERIMENTS

DEALING WITH TIME TRAVEL ALTERNATIVE AND FREE ENERGY AS WELL AS A POSSIBLE NAZI FLYING SAUCER

CONNECTION Nikola Tesla was the genius credited for creating much of modern electrical technology Yet his contributions

have been largely forgotten An examination of Nikola Tesla's lost papers some of which were confiscated by the U S

government after his death shows that Tesla was interested in and experimented with many concepts that have been

regarded until recently as wild ideas It's no surprise that Tesla was loath to speak of these kinds of interests after all even

now these areas of study still come under fire by the majority of mainstream scientists who refuse to use their imaginations

and intellect and scorn such matters with terms such as voodoo science and unadulterated quackery It is now known that

there have been a number of top secret programs that were devoted to either investigating or shockingly enough actively

using technology based on some of Tesla's more unorthodox ideas Both the United States and Russia have active Particle

Beam and RF radio frequency weaponry that has been in operation since the early 1970s all as a result of Tesla's early 19th

and 20th Century experiments To say that there are other black budget projects involving Tesla based research would vastly underestimate the total amount of research and development being conducted right now by many countries worldwide And these are the projects that we know about Who knows how many deep dark secret projects are being conducted right now with science that could be decades even hundreds of years beyond what civilian science knows about today This work exposes such topics as Reverse Gravity Free Energy Contact With Hidden Dimensions Mysterious Radio Signals From Space Earth Changes Freak Weather Patterns Electric Death Rays UFOs Particle Beam Weapons and much much more
