Memory and Movies John Seamon, 2015-08-14 How popular films from *Memento* to *Slumdog Millionaire* can help us understand how memory works In the movie *Slumdog Millionaire* the childhood memories of a young game show contestant trigger his correct answers In *Memento* the amnesiac hero uses tattoos as memory aids In *Away from Her* an older woman suffering from dementia no longer remembers who her husband is These are compelling films that tell affecting stories about the human condition But what can these movies teach us about memory In this book John Seamon shows how examining the treatment of memory in popular movies can shed new light on how human memory works After explaining that memory is actually a diverse collection of independent systems Seamon uses examples from movies to offer an accessible nontechnical description of what science knows about memory function and dysfunction In a series of lively encounters with numerous popular films he draws on *Life of Pi* and *Avatar* for example to explain working memory used for short term retention He describes the process of long term memory with examples from such films as *Cast Away* and *Groundhog Day* The Return of Martin Guerre among other movies informs his account of how we recognize people the effect of emotion on autobiographical memory is illustrated by *The Kite Runner* *Titanic* and other films movies including *Born on the Fourth of July* and *Rachel Getting Married* illustrate the complex pain of traumatic memories Seamon shows us that

movies rarely get amnesia right often using strategically timed blows to the protagonist's head as a way to turn memory off and then on again as in *Desperately Seeking Susan*. Finally he uses movies including *On Golden Pond* and *Amour* to describe the memory loss that often accompanies aging while highlighting effective ways to maintain memory function.

Memory and the Brain John P. Aggleton, 2024-12-16

Memory and the Brain explores the fascinating psychology and neuroscience of human memory. Written by a world expert in the field John P. Aggleton, this book covers learning and memory from the very beginning of life to its end with an emphasis on real world applications throughout. Aggleton begins by considering the fallibility of long term memory and explores the many reasons why we forget. He goes on to contrast this with superior memory and examines what if anything is special about individuals with remarkable memory powers and how might we improve our own memory. The significance of sleep, our ability to remember the future, the various brief memory stores and the multiple forms of amnesia are also covered as well as the most common forms of dementia including Alzheimer's disease. The book concludes with an Alphabet of Memory Curiosities which showcases a diverse range of topics from aphantasia to zebrafish, stopping off at topics such as Jennifer Aniston, neurons, bilingualism and neuromyths in education. Drawing on classic studies alongside many discoveries from contemporary research, this book is written for anyone curious about how our memory works and will appeal to students and general readers alike.
