Lost Leviathan:

Leviathans of Jupiter Ben Bova, 2011-02-01 In Ben Bova's novel JUPITER physicist Grant Archer led an expedition into Jupiter's hostile planetwide ocean attempting to study the unusual and massive creatures that call the planet their home. Unprepared for the hostile environment and crushing pressures Grant's team faced certain death as their ship malfunctioned and slowly sank to the planet's depths. However, one of Jupiter's native creatures, a city-sized leviathan, saved the doomed ship. This creature's act convinced Grant that the huge creatures were intelligent, but he lacked scientific proof. Now several years later, Grant prepares a new expedition to prove once and for all that the huge creatures are intelligent. The new team faces dangers from both the hostile environment and from humans who will do anything to make sure the mission is a failure, even if it means murdering the entire crew. One of Library Journal's Best SF/Fantasy Books of 2011

The Making of International Environmental Treaties Gerry Nagtzaam, 2009 Gerry Nagtzaam contends that in recent decades neoliberal institutionalist scholarship on global environmental regimes has burgeoned as has constructivist scholarship on the key role played by norms in international politics. In this innovative volume, the author sets these interest and norm-based approaches against each other in order to test their ability to illustrate why and how different environmental norms take hold in some regimes and not others. The book explores why some global environmental treaties seek to preserve and protect some parts of nature from human utilization, some seek to conserve certain parts of nature for human development, whilst others allow the reckless exploitation of nature without accounting for the consequences. It tracks the fate of these three underlying environmental norms: preservation, conservation, and exploitation, using case studies on whaling, mining in Antarctica, and tropical timber. The book illustrates how international political battles to shape environmental regimes inevitably result in clashes between these competing environmental norms. This unique study will prove a fascinating read for both academics and practitioners in the fields of international environmental politics and international environmental law.

Leviathan's Blood Ben Peek, 2016-05-31 At the end of The Godless Mireea lay in ruins, the dead of the city had risen as ghosts, and the keepers Fo and Bau had been slain by Zaifyr. The Mireeans have now fled to the city of Yeflam, with the immortal Zaifyr in chains, to barter for their safety. With the threat of war arriving at the Floating Cities, Zaifyr's trial will become the center of political games. However, Zaifyr is intent on using his trial to begin a new war, a motive that many fear is an echo of the dangerous man he once was. Ayae, a young girl cursed with the gift of fire, sees a chance to learn more of her powers here in the floating city, but she is weighed down by her new responsibilities regarding the safety of the Mireean people. Across the far ocean, exiled Baron Bueralan and cartographer Orlan have arrived in the city of Ooila with some chilling cargo: the soul of a dead man. As the two men are accepted into the city's court, they are pulled ever deeper into the Queen's web of lies and deceit. All the while, a rumor begins to spread of a man who has come ashore, whose seemingly innocent presence threatens them all.

Critical and Exegetical Notes and Discourses on the Gospels Andrew Carroll, 1855 Whaling Captains of Color Skip Finley, 2022-02-15 The history of whaling as an industry on this continent has been well told in books including some that have been bestsellers but what hasn't been told is the story of whaling's leaders of color in an era when the only other option was slavery Whaling was one of the first American industries to exhibit diversity A man became a captain not because he was white or well connected but because he knew how to kill a whale Along the way he could learn navigation and reading and writing Whaling presented a tantalizing alternative to mainland life Working with archival records at whaling museums in libraries from private archives and interviews with people whose ancestors were whaling masters Finley culls stories from the lives of over 50 black whaling captains to create a portrait of what life was like for these leaders of color on the high seas Each time a ship spotted a whale a group often including the captain would jump into a small boat row to the whale and attack it at times with the captain delivering the killing blow The first second or third mate and boat steerer

could eventually have opportunities to move into increasingly responsible roles Finley explains how this skills based system propelled captains of color to the helm The book concludes as facts and factions conspire to kill the industry including wars weather bad management poor judgment disease obsolescence and a non renewable natural resource Ironically the end of the Civil War allowed the African Americans who were captains to exit the difficult and dangerous occupation and make room for the Cape Verdean who picked up the mantle literally to the end of the industry **Calendar of State Papers, Domestic Series, of the Reign of William and Mary: 1699-1700** Great Britain.
