Kabbalah, Magic, and Science David B. Ruderman, 1988 In describing the career of Abraham Yagel a Jewish physician kabbalist and naturalist who lived in northern Italy from 1553 to about 1623 David Ruderman observes the remarkable interplay between early modern scientific thought and religious and occult traditions from a wholly new perspective that of Jewish intellectual life Whether he was writing about astronomical discoveries demons marvelous creatures and prodigies of nature the uses of magic or reincarnation Yagel made a consistent effort to integrate empirical study of nature with kabbalistic and rabbinic learning Yagel s several interests were united in his belief in the interconnectedness of all things a belief shared by many Renaissance thinkers that turns natural phenomena into signatures of the divine unity of all things Ruderman argues that Yagel and his coreligionists were predisposed to this prevalent view because of occult strains in traditional Jewish thought He also suggests that underlying Yagel s passion for integrating and correlating all knowledge was a powerful psychological need to gain cultural respect and acceptance for himself and for his entire community especially in a period of increased anti Semitic agitation in Italy Yagel proposed a bold new agenda for Jewish culture that underscored the religious value of the study of nature reformulated kabbalist traditions in the language of scientific discourse so as to promote them as the highest form of human knowledge and advocated the legitimate role of the magical arts as the ultimate expression of human creativity in Judaism This portrait of Yagel and his intellectual world will well serve all students of late Renaissance and early modern Europe

Kabbalah and Sex Magic Marla Segol, 2021-09-08 In this provocative book Marla Segol explores the development of the kabbalistic cosmology underlying Western sex magic Drawing extensively on Jewish myth and ritual Segol tells the powerful story of the relationship between the divine and the human body in late antique Jewish esotericism in medieval kabbalah and in New Age ritual practice Kabbalah and Sex Magic traces the evolution of a Hebrew microcosm that models the powerful interaction of human and divine bodies at the heart of both kabbalah and some forms of Western sex magic Focusing on Jewish esoteric and medical sources from the fifth to the twelfth century from Byzantium Persia Iberia and southern France Segol argues that in its fully developed medieval form kabbalah operated by ritualizing a mythos of divine creation by means of sexual reproduction She situates in cultural and historical context the emergence of Jewish cosmological models for conceptualizing both human and divine bodies and the interactions between them arguing that all these sources position the body and its senses as the locus of culture and the means of reproducing it Segol explores the rituals acting on these models attending especially to their inherent erotic power and ties these to contemporary Western sex magic showing that such rituals have a continuing life Asking questions about its cosmology

myths and rituals Segol poses even larger questions about the history of kabbalah the changing conceptions of the human relation to the divine and even the nature of religious innovation itself This groundbreaking book will appeal to students and scholars of Jewish studies religion sexuality and magic Kabbalah Magic in 90 Minutes M Muzamal Naveed,2019-11-05

Kabbalah it is very difficult and to some extent even paradoxical doctrine is very different from the concept of thinking of those ideas which are peculiar to thinking of the majority of Europeans On the other hand the inherent Kabbalah mystery incompleteness and symbolic imagery pronounced mysticism plaque were perhaps the most intriguing its qualities that attracted thereto plurality thinkers prone to the occult However the important thing they all saw in Kabbalah refraction characteristic of western occult ideas and propositions that all the great diversity of the phenomena of the universe young and old is a certain unity that all things and phenomena are parts ordered whole that the universe itself and all the hidden relationships between phenomena which at first glance seem to be chaotic and did not related to each other in fact control the mysterious laws that letters and numbers are full of meaning important key to understanding the laws of the universe that inspiration and imagination is much faster and more reliable can lead to the attainment of the ultimate truth than the proverbial common sense that man is both God and the Universe in miniature and finally the most important thing that there is a spiritual path going that people can free themselves from the purely human limitations and therefore to become a superman and understand God Kabbalah of course not the only doctrine setting out these and similar ideas they can be found in the system of the Tarot Despite the fact that the Kabbalists of the past centuries people were purely religious and perform religious commandments and ceremonies this however did not prevent the fact that Kabbalah eventually gained many of the features and properties of magic Abraham Abulafia one of the greatest Kabbalists and mystics of the XIII century was convinced that the Kabbalah a very effective means to achieve the magical purposes and therefore warned fellow of errors slipping into magic However the Kabbalistic doctrine of climbing opportunities from lowest to highest and the reunification of the earthly and the heavenly is a very valuable tool for the mystic the aspirant for bliss in communion with God and for the magician who wants to subjugate all the spiritual and physical strength and sees itself as the Person of God capable to understand the supreme art of magic In this sense of great interest is a special aspect of the teachings the so called practical Kabbalah is based on the belief that with the help of special rituals prayers and internal volitional acts a person can actively intervene in the history of the process eg zoom Messiah for each stimulation from below from the man always corresponds to the arousal from above from God **Magic of the Ordinary** Gershon Winkler,2003-01-10 A spiritual crisis sent Orthodox rabbi Gershon Winkler to remote regions of the Southwest where he studied with Native American healers From them he began to recover the long lost wisdom of what he calls Aboriginal Judaism the religion s tribal roots This book tracks his personal journey and draws from a dazzling mix of sources to detail the surprising connections between two seemingly unrelated religions The Complete Book of Spells, Ceremonies, and Magic Migene González-Wippler,1988 Theory What Is
