## **Magic Eyes Scenes From An Andean Childhood:**

*The Year's Best Fantasy and Horror Seventh Annual Collection*, 1994      **Magic Eyes** Wendy Ewald, 1992 Nonfiction

Latino Latina Studies Photography MAGIC EYES is a collaboration that grew out of Wendy Ewald's experiences in the village of Raquira in the Colombian Andes between 1982 and 1984. The book combines photographs taken by Ewald and her students with stories told by two local women, Maria Vasquez and her daughter Alicia. Together Ewald's students and the Vasquezes present the images and experiences of what Barbara Majuica has called the rich Andean folk culture in which magic and nature are inseparable components of equal value. The magic eyes belong to Alicia, who recounts her story of the evil eye, which she associates with the camera lens. Alicia and her mother powerfully convey the difficult life in the squatter settlements outside of Bogota. Great poverty and violence are seen through eyes taught from early in life to notice the magical; the results are deeply poetical. The New York Times has called MAGIC EYES moving, intimate, and unsparing.      **The Best Part of Me**, 2002 An award-winning photographer asked several children, "What is the best part of you?" and presents their answers in this sometimes funny, sometimes moving, deeply personal book that includes striking black and white photographs taken by the author. Ideal for parents and teachers to use to discuss body image, self-esteem, and diversity with children.      Putting People in the Picture, 2007-01-01 Getting the picture, constructing and deconstructing the picture, finding the picture, viewing the picture, being in the picture, changing the pictures: these are all phrases that apply to the fascinating world of putting people in the picture in visual research within the Social Sciences. *Putting People in the Picture: Visual Methodologies for Social Change* focuses on the ways in which researchers, practitioners, and activists are using such techniques as photo voice, collaborative video, drawings, and other visual and arts-based tools as modes of inquiry, as modes of representation, and as modes of disseminating findings in social research. The various chapters address methodological, analytical, interpretive, aesthetic, technical, and ethical concerns in using visual methodologies in work with young people, teachers, community health care workers, and even the self as researcher. The range of issues addressed in the work is broad and includes work in the areas of HIV/AIDS, schooling, poverty, gender, violence, race, and children's visions for the future. While the studies are situated within a variety of social contexts, the focus is primarily on work in Southern Africa. The book takes up some of the theoretical and practical challenges offered by Visual Sociology, Image-based Research, Media Studies, Rural Development, and Community-based and Participatory Research, and in so doing offers audiences an array of visual approaches to studying and bringing about social change.      *Uncontrollable Bodies* Rodney Sappington, Tyler Stallings, 1994 This collection of original writings and artwork challenges commonly held definitions of the body. Essays by filmmakers, poets, visual and performance artists, sex workers, activists, and cultural critics, autobiography, critical theory, out post.

*Photography and Collaboration* Daniel Palmer, 2020-09-14 *Photography and Collaboration* offers a fresh perspective on existing debates in art photography and on the act of photography in general. Unlike conventional accounts that celebrate

individual photographers and their personal visions this book investigates the idea that authorship in photography is often more complex and multiple than we imagine involving not only various forms of partnership between photographers but also an astonishing array of relationships with photographed subjects and viewers Thematic chapters explore the increasing prevalence of collaborative approaches to photography among a broad range of international artists from conceptual practices in the 1960s to the most recent digital manifestations Positioning contemporary work in a broader historical and theoretical context the book reveals that collaboration is an overlooked but essential dimension of the medium's development and potential **Re:view** ,1993 **In Appropriate Distance** Kelly Klingensmith,2016-06-15 What is the evolving

relationship between words and images in the photographic essay How do the purpose and form of the photographic essay change over time And how are relationships between the contributors subject and readers communicated explicitly and implicitly in both content and form Klingensmith explores these questions in *In Appropriate Distance* as she traces the development of the photographic essay from the 1890s to the 1990s and beyond By examining classic examples such as *How the Other Half Lives* *American Exodus* and *Let Us Now Praise Famous Men* as well as more contemporary projects including work by John Berger Jean Mohr Wendy Ewald and Zana Briski Klingensmith examines the codependence of words and images and the long standing collaboration required of creator and subject in this exploration of the ethics of representation

speculative anthology of writings artists and critics offer a highly persuasive set of argument and pleas for imaginative socially responsible and socially responsive public art Amazon Visual Sociology Douglas Harper,2023-06-09 This new version of the authoritative textbook in the field of visual sociology focuses on the key topics of documentary photography visual ethnography collaborative visual research visual empiricism the study of the visual symbol and teaching sociology visually This updated and expanded edition includes nearly twice as many images and incorporates new in depth case studies drawing upon the author's lifetime of pioneering research and teaching as well as the often neglected experiences of women and people of color The book examines how documentary photography can be useful to sociologists both because of the topics examined by documentarians and as an example of how seeing is socially constructed Harper describes the exclusion of women through much of the history of documentary photography and the distinctiveness of the female eye in recent documentary a phenomenon he calls the gendered lens The author examines how a visual approach allows sociologists to study conventional topics differently while offering new perspectives topics and insights For example photography shows us how perspective itself affects what we see and know how abstractions such as ideal types can be represented visually how

social change can be studied visually and how the study of symbols can lead us to interpret public art architecture and person made landscapes There is an extended study of how images can lead to cooperative research and learning how images can serve as bridges of understanding blurring the lines between researcher and researched The important topic of reflexivity is examined by close study of Harper s own research experiences Finally the author focusses on teaching offering templates for full courses assignments and projects and guides for teachers imagining how to approach visual sociology as a new practice This definitive yet accessible textbook will be indispensable to teachers researchers and professionals with an interest in visual sociology research methods cultural theory and visual anthropology      **Book Review Digest** ,1995
