The Magic of Dialogue Daniel Yankelovich, 2001-09-05 In this groundbreaking work famed social scientist and world famous public opinion expert Daniel Yankelovich reinvents the ancient art of dialogue Successful managers have always known how to make decisions and mobilize coworkers But as our businesses continue to expand conversations and discussions just aren't enough to bring people and their different agendas together anymore Dialogue when properly practiced will align people with a shared vision and help them realize their full potential as individuals and as a team Drawing on decades of research and using real life examples *The Magic of Dialogue* outlines specific strategies for maneuvering in a wide range of situations and teaches managers leaders business people and other professionals how to succeed in the new global economy where more players participate in decision making than ever before Dialogue as a Means of Collective Communication Bela H. Banathy, Patrick M. Rowe, 2013-03-13 In *Overcoming America* America Overcoming Stephen Rowe shows how the moral disease and political paralysis that plague America are symptomatic of the fact that America herself has been overtaken by the modern values which she exported to the rest of the world He points to a way out of this current and potentially fatal malaise join other societies which are also struggling to move beyond the modern and consciously reappropriate those elements of tradition which have to do with cultivation of the mature human being To avoid fundamentalism Rowe discusses how this reappropriation must be undertaken in dialogue with those who also have come to recognize the unsustainable quality of the modern life and who

have been able to live beyond the nihilistic wish to tear it down This book supports the call for an emerging global ethic and spirituality providing resources of articulation and interpretation that allow for an ongoing dialogue between traditional and modern values both worthy and problematic in their own ways through which reliable policy and healthy living become possible *Educational Paths to Mathematics* Uwe Gellert,Joaquim Giménez Rodríguez,Corinne Hahn,Sonia Kafoussi,2015-05-18 This book offers fresh insight and understanding of the many ways in which children youth and adults may find their paths to mathematics The chapters of the volume offer and analyse promising new ways into mathematics The focus is on spaces and modalities of learning dialogue and inquiry embodiment and aesthetic experience information and communication technology and on the use of mathematics in public communication The chapters present new mathematical activities and conceptions enriching the repertoire of mathematics education practices Critical commentaries discuss the innovative potential of the new approaches to the teaching and learning of mathematics As a consequence the commentaries point to requirements and open issues in the field of research in mathematics education The volume is remarkably international Teachers and researchers from 14 countries authored 21 chapters and 7 commentaries The reader is invited to reflect on the particular effect of presenting avenues to mathematics contrived in diverse national settings in which the praxis of mathematics education might look different compared to what happens in the reader's place The book starts a series of sourcebooks edited by CIEAEM the Commission Internationale pour l'Etude et l'Amélioration de l'Enseignement des Mathématiques International Commission for the Study and Improvement of Mathematics Education **Coexisting with Large Carnivores** Tim Clark,Murray Rutherford,Denise Casey,2013-04-10 As in the rest of the United States grizzly bears wolves and mountain lions in and around Yellowstone National Park were eliminated or reduced decades ago to very low numbers In recent years however populations have begun to recover leading to encounters between animals and people and more significantly to conflicts among people about what to do with these often controversial neighbors *Coexisting with Large Carnivores* presents a close up look at the socio political context of large carnivores and their management in western Wyoming south of Yellowstone National Park including the southern part of what is commonly recognized as the Greater Yellowstone Ecosystem The book brings together researchers and others who have studied and worked in the region to help untangle some of the highly charged issues associated with large carnivores their interactions with humans and the politics that arise from those interactions This volume argues that coexistence will be achieved only by a thorough understanding of the human populations involved their values attitudes beliefs and the institutions through which carnivores and humans are managed *Coexisting with Large Carnivores* offers important insights into this complex dynamic issue and provides a unique overview of issues and strategies for managers researchers government officials ranchers and everyone else concerned about the management and conservation of large carnivores and the people who live nearby **Combating Hatred** Terrance L.
