Magical Musical Tour Kevin J. Donnelly, 2015-10-22 Winner of the Southwest Popular and American Culture Association's 2016 Peter C Rollins Book Award in the category of Film Television The popular music industry has become completely interlinked with the film industry The majority of mainstream films come with ready attached songs that may or may not appear in the film but nevertheless will be used for publicity purposes and appear on a soundtrack album In many cases popular music in films has made for some of the most striking moments in films and the most dramatic aesthetic action in cinema like Ben relaxing in the pool to Simon and Garfunkel's The Sound of Silence in The Graduate 1967 and the Potter's wheel sequence with the Righteous Brothers Unchained Melody in Ghost 1990 Yet to date there have only been patchy attempts to deal with popular music's relationship with film Indeed it is startling that there is so little written on subject that is so popular as a consumer item and thus has a significant cultural profile Magical Musical Tour is the first sustained and focused survey to engage the intersection of the two on both an aesthetic and industrial level The chapters are historically inspired reviews discussing many films and musicians while others will be more concentrated and detailed case studies of single films Including an accompanying website and a timeline giving a useful snapshot around which readers can orient the book Kevin Donnelly explores the history of the intimate bond between film and music from the upheaval that rock n roll caused in the mid 1950s to the more technical aspects regarding tracking and scoring
