Transcendental Magic: Its Doctrine and Ritual Éliphas Lévi,2022-01-24 This book is the first treatise on magic by liphas L vi and one of his fundamental works In this book he criticizes magic as a collection of methods and rituals Instead he says magic is a universal power and attribute of a man an eternal religion that existed before Christianity and other religions According to his theory proper magic as an attribute of a human is a combination of psychic force will and imagination He calls the ordinary miracles attributed to unnecessary magic exaggerations Yet the access to the true magic is constricted only to a narrow circle of selected people or Magi Those who go through the initiation to Magi acquire force to alter human wills His works became quickly popular as their publication coincided with the interest in magic and occultism in the second half of the 19th and the beginning of the 20th century It also greatly influenced the magic of the Hermetic Order of the Golden Dawn Also in this text liphas L vi for the first time pointed out that a pentagram or five pointed star with one point down and two points up represents evil while a pentagram with one end up and two points down represent the good
