# Magical Thinking Poems

**Edward Hirsch**

## Magical Thinking Poems:

*Magical Thinking* Joseph Duemer, 2001 Psychologists characterize thinking as a form of thought in which wishes and desires shape the reality we perceive. Such thinking is usually dismissed as delusional. But most human beings think magically most of the time and have done so throughout history. It is the kind of thinking that has produced cathedrals and symphonies, depravity and genocide. Joseph Duemer's poems attempt to shape his magical thinking into understandable forms. His poetry is an argument with science and religion which seek to establish themselves as systems that organize experience into stable meanings.

Your Therapist Says It's Magical Thinking Sadie McCarney, 2023-04-18 Sadie McCarney's *Your Therapist Says It's Magical Thinking* is a buoyant second collection that playfully navigates the turbulent waters of life with mental illness and neurodivergence. In much of the book, history and science are treated the way they are often viewed by a brain in mental turmoil: places and events get switched around, facts get rewritten, and the fantastical reigns supreme. Through poems ranging from didactic to the horrible, self-care advice received by the poet when she was struggling most to historical fiction patients in an asylum in 1800s England to the quirky and unexpectedly fantastical, a rainbow carpool unicorn, a young child's timeline reversing each morning, and an everything bagel that includes competing theories of time, McCarney digs deep into the muck of her own lived experience. She resurfaces with, if not gold, at least an old-time capsule and a few treasured hunks of bone.

*Your Therapist Says It's Magical Thinking* highlights the sometimes dubious but always jubilant inner workings of a mentally unwell brain at play, especially within the context of a larger society that frequently seeks to tamp down this weird and rare form of magic.

**Magical Thinking** Xavier Pastrano, 2023 In *Magical Thinking*, poet Xavier Pastrano delivers a collection of poetry that explores and celebrates what it means to be multifaceted. He takes a candid look into the various roles and experiences of his life, roles and experiences that are unique to him yet also relatable to readers of various backgrounds and demographics.

Back cover *How Poems Think* Reginald Gibbons, 2015-09-23 Reginald Gibbons collects here a lifetime's worth of thoughts on composing and translating poetry. Not a manifesto or a general theory of the lyric, rather, the book explores how a poem thinks, that is, what results from the circumstances of a poet's native language, choice of words, and topics; the mentality that the poet shares with other writers; and the range of poetic possibilities and limitations in a given language. Through exemplary case studies taken from his own experience in writing poetry as well as in translating poetry from languages ranging from Sophocles's and Pindar's ancient Greek to their contemporary French, Italian, Portuguese, Russian, and Spanish successors, Gibbons traces the curious persistence of classical modes and images into the twenty-first century. He shows how the very language used in composing a poem, be it ancient Greek, Renaissance English, or contemporary Russian, both limits and enables how a poet thinks and what the poet can say. Even in describing difficult poetic concepts and operations, Gibbons writes in a clear, companionable style, entirely accessible not just to practicing poets but also to general readers interested in poetry and to writers of various stripes interested in the way our native language can

often circumscribe what and how we think poetically and affect how we compose poetry and prose This book joins other titles by this award winning writer on the Press's list      *The Best American Poetry 2020* David Lehman, Paisley Rekdal, 2020-09-08
