Magnolia Sky:

Magnolia Sky Susan Crandall, 2004 Army Ranger Luke Boudreau commanded a secret mission that went horribly awry. The physical wounds he takes away from the experience are inconsequential compared to his guilt for the loss of a fellow soldier, a man who will never be recognized for his bravery because of the covert nature of their operation. When Luke is recovered enough, he travels to Grover, Mississippi, to pay his respects to a woman who gave her son to the service of his country. He must do so in a way that doesn't reveal the true circumstances of the man's death. He braces himself for a mother's bitter anger, secretly hoping this encounter will begin to deliver him from his torment. However, what he finds in Grover is far from either recrimination or absolution. He is quickly drawn into a family that desperately needs his help: a younger brother bent on self-destruction and a mother with a secret burden of her own. And most shocking of all, he discovers a beautiful widow he didn't know existed, a woman who tempts him to break his own moral code. **Television for Women**

Rachel Moseley, Helen Wheatley, Helen Wood, 2016-11-10 **Television for Women** brings together emerging and established scholars to reconsider the question of television for women. In the context of the 2000s, when the potential meanings of both terms have expanded and changed so significantly, in what ways might the concept of programming addressed explicitly to a group identified by gender still matter? The essays in this collection take the existing scholarship in this field in significant new directions. They expand its reach in terms of territory, looking beyond, for example, the paradigmatic Anglo-American axis and also historical span. Additionally, whilst the influential methodological formation of production, text, and audience is still visible here, the new research in **Television for Women** frequently reconfigures that relationship. The topics included here are far-reaching, from television as material culture at the British exhibition in the first half of the twentieth century, women's roles in television production past and present, to popular 1960s television such as *The Liver Birds* and in the twenty-first century, highly successful programmes including *Orange Is the New Black*, *Call the Midwife*, *One Born Every Minute*, and *Wanted Down Under*. This book presents ground-breaking research on historical and contemporary relationships between women and television around the world and is an ideal resource for students of television media and gender studies.

Romance Fiction Kristin Ramsdell, 2012-03-02 A comprehensive guide that defines the literature and outlines the best-selling genre of all time: romance fiction. More than 2,000 romances are published annually, making it difficult for fans and librarians who advise them to keep pace with new titles, emerging authors, and constant evolution of this dynamic genre. Fortunately, romance expert and librarian Kristin Ramsdell provides a definitive guide to this fiction genre that serves as an indispensable resource for those interested in it, including fans searching for reading material as well as for library staff, scholars, and romance writers themselves. This title updates the last edition of *Romance Fiction: A Guide to the Genre*, published in 1999. While the emphasis is on newer titles, many of the important older classics are retained, keeping the focus of the book on the entire genre instead of only those titles published during the last decade. Specific changes include new
