Mysteries and Conspiracies Luc Boltanski, 2014-10-10 The detective story focused on inquiries and in its wake the spy novel built around conspiracies developed as genres in the late nineteenth and early twentieth centuries During the same period psychiatry was inventing paranoia sociology was devising new forms of causality to explain the social lives of individuals and groups and political science was shifting the problematics of paranoia from the psychic to the social realm and seeking to explain historical events in terms of conspiracy theories In each instance social reality was cast into doubt We owe the project of organizing and unifying this reality for a particular population and territory to the nation state as it took shape at the end of the nineteenth century Thus the figure of conspiracy became the focal point for suspicions concerning the exercise of power Where does power really lie and who actually holds it The national authorities that are presumed to be responsible for it or other agencies acting in the shadows bankers anarchists secret societies the ruling class Questions of this kind provided the scaffolding for political ontologies that banked on a doubly distributed reality an official but superficial reality and its opposite a deeper hidden threatening reality that was unofficial but much more real Crime fiction and spy fiction paranoia and sociology more or less concomitant inventions had in common a new way of problematizing reality and of working through the contradictions inherent in it The adventures of the conflict between these two realities superficial versus real provide the framework for this highly original book Through an exploration of the work of the great masters of detective stories and spy novels G K Chesterton Arthur Conan Doyle John Le Carr and Graham Greene among others Boltanski shows that these works of fiction and imagination tell us something fundamental about the nature of modern societies and the modern state **Maigret, Simenon and France** Bill Alder, 2012-12-01 Georges Simenon 1903 1989 was a phenomenally successful author of crime fiction His 75 Maigret novels and 28 Maigret short stories were published between 1931 and 1972 to great international acclaim he is the only non anglophone crime writer to have achieved such renown His Maigret stories are regarded by many as having established a new direction in crime fiction emphasizing social and psychological portraiture rather than focussing on a puzzle to be solved or on action This book examines the importance of social class and social
