Magic Owen Davies, 2012-01-26 Defining magic is a maddening task. Over the last century numerous philosophers, anthropologists, historians and theologians have attempted to pin down its essential meaning, sometimes analysing it in such complex and abstruse depth that it all but loses its sense altogether. For this reason many people often shy away from providing a detailed definition, assuming it is generally understood as the human control of supernatural forces. Magic continues to pervade the popular imagination and idiom. People feel comfortable with its contemporary multiple meanings, unaware of the controversy, conflict and debate its definition has caused over two and a half millennia. In common usage today magic is uttered in reference to the supernatural, superstition, illusion, trickery, religious miracles, fantasies and as a simple superlative. The literary confection known as magical realism has considerable appeal and many modern scientists have ironically incorporated the word into their vocabulary with their magic acid, magic bullets and magic angles. Since the so-called European Enlightenment magic has often been seen as a marker of primitivism of a benighted earlier stage of human development. Yet across the modern globalized world hundreds of millions continue to resort to magic and also to fear it. Magic provides explanations and remedies for those living in extreme poverty and without access to alternatives. In the industrial West with its state welfare systems religious fundamentalists decry the continued moral threat posed by magic. Under the guise of neo-Paganism its practice has become a religion in itself. Magic continues to be a truly global issue. This Very Short Introduction does not attempt to provide a concluding definition of magic; it is beyond simple definition. Instead it explores the many ways in which magic as an idea and a practice has been understood and employed over the millennia.

Human Sacrifice and the Supernatural in African History Mbogoni, Lawrence E.Y.,2013-11-03 Since time immemorial human beings the world over have sought answers to the vexing questions of their origins sickness death and after death the meaning of natural phenomena such as earthquakes eclipses of the sun and moon birth of twins etc and how to protect themselves from such mysterious events They invented God and gods and the occult sciences witch craft divination and soothsaying in order to seek the protection of supernatural powers while individuals used them to gain power to dominate others and to accumulate wealth Human sacrifice was one way in which they sought to expiate the gods for what

they believed were punishments for their transgressions One example the Ghana Asante Kingdom s very origins are associated with human sacrifice On the eve of war against Denkyira individuals volunteered themselves to be sacrificed in order to guarantee victory Later human sacrifice in Asante was mainly politically motivated as kings and religious leaders offered human sacrifice in remembrance of their ancestral spirits and to seek their protection against their enemies The Asante Kingdom is one of several examples included in this study of human sacrifice and ritual killing on the African continent Case studies include practices in Sierra Leone Tanzania Mainland Zanzibar Uganda and Swaziland Advertisements relating to the occult was a common feature of Drum magazine the popular South African magazine in Southern Eastern and Central Africa in late years of colonial and early years of postcolonial periods indicating a wide belief in these practices among the people in these countries Each case examined is introduced by an expose of folklore that puts in perspective beliefs in the supernatural and how folklore continues to perpetuate them Through careful study of these select cases this book highlights general features of human sacrifice which recur with striking uniformity in all parts of sub Saharan Africa and why they persist until today He draws upon extensive written sources to expose these practices in other cultures including those in Western societies
