Science Fiction and Fantasy Book Review Neil Barron, R. Reginald, Robert Reginald, 2009-11

Science Fiction Fantasy Book Review was founded in 1979 to provide comprehensive coverage of all the major and minor books being released in the genre at that time. This was the golden era of SF publishing with a thousand titles old and new hitting the stands and the bookshelves each and every year. From the older classics to the newest speculative fiction this was the period when the best and the brightest shined forth their talents. SF FBR included reviews by writers in the field by amateur critics and by librarians and University professors. Over a thousand books were covered during the single year of publication many of them having been reviewed nowhere else before or since. The January 1980 issue includes a comprehensive index of all the works featured during the preceding year. This reprint will be a welcome addition to the literature of science fiction and fantasy criticism. Neil Barron is a retired bibliographer and literary critic editor of the acclaimed *Anatomy of Wonder* series. Robert Reginald was the publisher for twenty-five years of Borgo Press and has authored over 110 books of his own.
