Dubber, 2015-03-10 In this second edition of his well received introductory overview of the Model Penal Code Markus Dubber retains the book s original aim to serve as an accessible companion to the Code Professor Dubber unlocks the Model Penal Code s potential as a key to the study of American criminal law for law students and teachers and for anyone else with an interest in understanding the basic contours of American criminal law While the book s general goal and basic approach remain unchanged its content has been thoroughly revised Citations to primary and secondary materials have been updated and supplemented where appropriate The American Law Institute s ongoing revision of the Code s sentencing and sexual offense provisions has been taken into account Also the comparative analysis found sporadically throughout the original edition has been expanded in places to provide additional context **The Chicago of Fiction** James A. Kaser, 2011-02-01 The importance of Chicago in American culture has made the city s place in the American imagination a crucial topic for literary scholars and cultural historians While databases of bibliographical information on Chicago centered fiction are available they are of little use to scholars researching works written before the 1980s In *The Chicago of Fiction A Resource Guide* James A Kaser provides detailed synopses for more than 1 200 works of fiction significantly set in Chicago and published between 1852 and 1980 The synopses include plot summaries names of major characters and an indication of physical settings An appendix provides bibliographical information for works dating from 1981 well into the 21st century while a biographical section provides basic information about the authors some of whom are obscure and would be difficult to find in other sources Written to assist researchers in locating works of fiction for analysis the plot summaries highlight ways in which the works touch on major aspects of social history and cultural studies i e class ethnicity gender immigrant experience and race The book is also a useful reader advisory tool for librarians and readers who want to identify materials for leisure reading particularly since genre juvenile and young adult fiction as well as literary

fiction are included *No-Body Homicides* Mark Stobbe, 2023-05-05 *No Body Homicides* The Evolution of Investigation and Prosecution examines how police and prosecutors have become more successful in obtaining convictions for homicide when the remains of the victim are unavailable as evidence Based on an examination of over 600 cases in the United States and Canada this book shows the length some killers will go to avoid punishment and the determination of police and prosecutors to bring them to justice For over 300 years murderers in the United States and Canada could avoid prosecution by successfully disposing of the body of their victim *No Body Homicides* provides the reader with a historical overview of prosecutions in which a killer destroyed or hid the body of the victim It explains why prosecutions were once extremely rare and how legal attitudinal and technical changes have made them more common The book also explores how the logic of no body homicide prosecutions differs from body present homicides It allows police and prosecutors to draw on the accumulated experience of hundreds of prosecutions For criminology students it provides fascinating insights into the process of investigating and prosecuting homicides as well as a glimpse into the motivations and practices of killers who are so determined to avoid punishment that they remove the bodies of their victims *No Body Homicides* will be of practical interest to police or prosecutors confronted with a missing person's case that could be sinister It is also written to be appropriate as a supplementary text in an undergraduate criminology class or for an aficionado of True Crime *Engaged to Murder* Loretta Schwartz-Nobel, 1988 Tells the story of a Philadelphia schoolteacher and her two children who were callously murdered apparently as part of an insurance scheme **Murder Mysteries: 350+ Detective Novels & True Crime Stories** Arthur Conan Doyle, Ernest Bramah, Arthur Morrison, Agatha Christie, Wilkie Collins, Thomas W.
