Mainstreaming Gender, Democratizing the State? Shirin Rai, 2007 Mainstreaming Gender Democratizing the State reflects the commitment of the United Nations to promote mechanisms that aim to achieve equality between women and men It identifies institutional mechanisms for the advancement of women including national machineries as one of twelve critical areas of concern National machineries are the primary institutional mechanism entrusted with the implementation of the strategic objectives contained in the goals for equity set by the United Nations The mandate of these national institutions has evolved from promoting women specific projects to ensuring that equality concerns are integrated into all government legislation policy programs and budgetary processes National machineries face serious constraints in fulfilling their mandate including inadequate financial and human resources relatively powerless locations within government structures and insufficient linkage with civil societies This volume illustrates that the ability of UN member states to subscribe to the agenda of equality between women and men has been significantly enhanced by the creation of these national level institutions National machineries for the advancement of women were initially conceived at the World Conference on the International Women s Year held in Mexico City in 1975 and since then have been considered systematically by world conferences on

women in Copenhagen 1980 Nairobi 1985 and Beijing 1995 as well as the sessions of the Commission on the Status of Women The twenty third special session of the General Assembly in Beijing reiterated the significant role that national machineries play in promoting equality between women and men gender mainstreaming and monitoring of the implementation of the Beijing Platform for Action as well as the Convention on the Elimination of All Forms of Discrimination against Women There has been a long standing need for a volume to bring together discussions on theory and practice as well as comparative analysis and in depth case studies of national machineries this book responds to that need

Mainstreaming Gender in Development Fenella Porter, Caroline Sweetman, 2005 Articles discuss how gender mainstreaming has been understood in different organisations provide examples of good work which supports the empowerment of women and look beyond gender mainstreaming to what new possibilities exist for transformation

Mainstreaming Gender in Hong Kong Society Fanny M. Cheung, Eleanor Holroyd, 2009 This volume demonstrates the importance of gender mainstreaming in examining social issues and making decisions that affect women and men In so doing the essays of the book enrich our understanding of the social structures and trends within contemporary Hong Kong society and at the same time restate the need for gender sensitive perspectives in policy making *The Oxford Handbook of Gender and Politics* Georgina Waylen, 2013-04-04 The Oxford Handbook of Gender and Politics brings to political science an accessible and comprehensive overview of the key contributions of gender scholars to the study of politics and it shows how these contributions produce a richer understanding of politics and societies *Handbook of Feminist Governance* Marian Sawer, Lee A. Banaszak, Jacqui True, Johanna Kantola, 2023-02-14 Compiling state of the art research from 58 leading international scholars this dynamic Handbook explores the evolution of feminist analytical and organising principles and their introduction into governance institutions in national regional and global settings **The Oxford Handbook of**

Gender and Conflict Fionnuala Ní Aoláin, Naomi Cahn, Dina Francesca Haynes, Nahla Valji, 2017-12-15 Traditionally much of the work studying war and conflict has focused on men Men commonly appear as soldiers commanders casualties and civilians Women by contrast are invisible as combatants and when seen are typically pictured as victims The field of war and conflict studies is changing more recently scholars of war and conflict have paid increasing notice to men as a gendered category and given sizeable attention to women s multiple roles in conflict and post conflict settings The Oxford Handbook of Gender and Conflict focuses on the multidimensionality of gender in conflict yet it also prioritizes the experience of women given both the changing nature of war and the historical de emphasis on women s experiences Today s wars are not staged encounters involving formal armies but societal wars that operate at all levels from house to village to city Women are necessarily involved at each level Operating from this basic intellectual foundation the editors have arranged the volume into seven core sections the theoretical foundations of the role of gender in violent conflicts the sources for studying contemporary conflict the conflicts themselves the post conflict process institutions and actors the challenges presented by

the evolving nature of war and finally a substantial set of case studies from across the globe Genuinely comprehensive this Handbook will not only serve as an authoritative overview of this massive topic it will set the research agenda for years to come

Mainstreaming Politics Carol Lee Bacchi,Carol Bacchi,Joan Eveline,2010 This book offers an innovative rethinking of policy approaches to gender equality and of the process of social change It brings several new chapters together with a series of previously published articles to reflect on these topics A particular focus is gender mainstreaming a relatively recent development in equality policy in many industrialised and some industrialising countries as well as in large international organisations such as the World Bank the International Monetary Fund and the International Labour Organization The book draws upon poststructuralist organisation and policy theory to argue that it is impossible to script reform initiatives such as gender mainstreaming As an alternative it recommends thinking about such policy developments as fields of contestation shaped by on the ground political deliberations and practices including the discursive practices that produce specific ways of understanding the problem of gender inequality In addition to the new chapters the editors Bacchi and Eveline produce brief introductions for each chapter tracing the development of their ideas over four years Through these commentaries the book provides exciting insights into the complex processes of collaboration and theory generation *Mainstreaming Politics* is a rich resource for both practitioners in the field and for theorists In particular it will appeal to those interested in public policy public administration organisation studies sociology comparative politics and international studies

Embodying Geopolitics Nicola Pratt,2020-10-27 When women took to the streets during the mass protests of the Arab Spring the subject of feminism in the Middle East and North Africa returned to the international spotlight In the subsequent years countless commentators treated the region s gender inequality as a consequence of fundamentally cultural or religious problems In so doing they overlooked the specifically political nature of these women s activism Moving beyond such culturalist accounts this book turns to the relations of power in regional and international politics to understand women s struggles for their rights Based on over a hundred extensive personal narratives from women of different generations in Egypt Jordan and Lebanon Nicola Pratt traces women s activism from national independence through to the Arab uprisings arguing that activist women are critical geopolitical actors Weaving together these personal accounts with the ongoing legacies of colonialism *Embodying Geopolitics* demonstrates how the production and regulation of gender is integrally bound up with the exercise and organization of geopolitical power with consequences for women s activism and its effects

Gender, Development, and the State in India Carole Spary,2019-02-21 This book explores the relationship between the state development policy and gender in equality in India It discusses the formation of state policy on gender and development in India in the post 1990 period through three key organising concepts of institutions discourse and agency The book pays particular attention to whether the international policy language of gender mainstreaming has been adopted by the Indian state and if so to what extent and with what results The author examines how these issues play out at multiple levels of

governance at both the national and the subnational state level in federal India This comparative aspect is particularly important in the context of increasing autonomy in development policymaking in India in the 1990s divergent development policy approaches and outcomes among states and the emerging importance of subnational state development policies and programmes for women in this period The author argues that the state is not a monolith but a heterogeneous internally differentiated collection of institutions which offers complex and varying opportunities and consequences for feminists engaging the state Demonstrating that the Indian empirical case is illuminating for studies of the gendered politics of development and international debates on gender mainstreaming the book highlights the politics of negotiating gender equality strategies in the contemporary context of neo liberal development and brings together complex issues of modernity postcolonialism identity politics federalism and equality within the broader context of the world s largest democracy This book will be of interest to scholars interested in the politics of gender equality state feminism and gender mainstreaming federalism and multi level governance and development studies and gender in South Asia *Gender, Violence and Security* Laura Shepherd, 2013-07-04 How do understandings of the relationships between gender violence security and the international inform policy and practice in which these notions are central What are the practical implications of basing policy on problematic discourses In this highly original poststructural feminist critique the author maps the discursive terrains of institutions both NGOs and the UN which formulate and implement resolutions and guides of practice that affect gender issues in the context of international policy practices The author investigates UN Security Council Resolution 1325 passed in 2000 to address gender issues in conflict areas in order to examine the discursive construction of security policy that takes gender seriously In doing so she argues that language is not merely descriptive of social political reality but rather constitutive of it Moving from concept to discourse and in turn to practice the author analyses the ways in which the resolution s discursive construction had an enormous influence over the practicalities of its implementation and how the resulting tensions and inconsistencies in its construction contributed to its failures The book argues for a re conceptualisation of gendered violence in conjunction with security in order to avoid partial and highly problematic understandings of their practical relationship Drawing together theoretical work on discourses of gender violence and international security sexualised violence in war gender and peace processes and the domestic international dichotomy with her own rigorous empirical investigation the author develops a compelling discourse theoretical analysis that promises to have far reaching impact in both academic and policy environments **Gender-Competent Legal Education** Dragica Vujadinović, Mareike Fröhlich, Thomas Giegerich, 2023-02-03 Male dominated law and legal knowledge essentially characterized the whole of pre modern history in that the patriarchy represented the axis of social relations in both the private and public spheres Indeed modern and even contemporary law still have embedded elements of patriarchal heritage even in the secular modern legal systems of Western developed countries either within the content of legislation or in terms

of its implementation and interpretation This is true to a greater or lesser extent across legal systems although the secular modern legal systems of the Western developed countries have made great advances in terms of gender equality The traditional understanding of law has always been self evidently dominated by men but modern law and its understanding have also been more or less malestreamed Therefore it has become necessary to overcome the given maskulinity of legal thought In contemporary legal and political orders gender mainstreaming of law has been of the utmost importance for overcoming deeply and persistently embedded power relations and gender based unequal social relations At the same time and equally importantly the gender mainstreaming of legal education to which this book aims to contribute can help to gradually eliminate this male dominance and accompanying power relations from legal education and higher education as a whole This open access textbook provides an overview of gender issues in all areas of law including sociological historical and methodological issues Written for students and teachers around the globe it is intended to provide both a general overview and in depth knowledge in the individual areas of law Relevant court decisions and case studies are supplied throughout the book

Rowley, 2013-05-13 This book uses the Anglophone Caribbean as its site of critique to explore two important questions within development studies First to what extent has the United Nations call to implement gender mainstreaming projects resulted in

Gender, Governance and Empowerment in India Sreevidya Kalaramadam,2016-03-22 Since the mid 1980s the presence of women in governance has become a major marker of successful democracy in global and national discourses on the democratization of society A diverse set of nation states have legislatively mandated gender quotas to ensure the presence of elected women representatives EWRs in various rungs of governance Since 1993 the Indian state has legislated a massive program of democratization and decentralization As a result more than 1 5 million EWRs have taken office within the lower rungs of governance or the Panchayati Raj Institutions PRI This book is an ethnography of the Indian state and its policy of legislated entry of women into political life It argues that political participation of women is necessary to change the political practices in society to make institutions more gender class and caste representative and to empower individual women to negotiate both formal and informal institutions Its locus is the everyday life contexts of EWRs in the southern Indian state of Karnataka who negotiate their own meanings of politics state society empowerment and political subjectivity Analysing three factors structural boundaries sociocultural divisions and conjunctural limitations imposed on the participation of EWRs by political parties the book demonstrates that the social embeddedness of PRIs within everyday practices and social relations of identity and power severely constrain and shape the political participation and empowerment of EWRs Providing a valuable insight into contemporary state and feminist praxis in India this book will be of interest to scholars of grass roots democracy gender studies and Asian politics
