Making Words Sing Nineteenth And Twentieth Century Song:

Making Words Sing Jonathan Dunsby, 2004-06-10 What makes a classical song a song In a wideranging discussion covering such contrasting composers as Brahms and Berberian Schubert and Kurt g Jonathan Dunsby considers the nature of vocality in songs of the nineteenth and twentieth centuries The essence and scope of poetic and literary meaning in the Lied tradition is subject to close scrutiny against the backdrop of new musicological thinking and music theoretical orthodoxies The reader is thus offered the best insights available within an evidence based approach to musical discourse **Women**

and the Nineteenth-Century Lied Aisling Kenny, Susan Wollenberg, 2016-03-03 This book bridges a gap in existing scholarship by foregrounding the contribution of women to the nineteenth century Lied Building on the pioneering work of scholars in recent years it consolidates recent research on women s achievements in the genre and develops an alternative narrative of the Lied that embraces an understanding of the contributions of women and of the contexts of their engagement with German song and related genres Lieder composers including Fanny Hensel Clara Schumann Pauline Viardot Garcia and Josephine Lang are considered with a stimulating variety of analytical approaches In addition to the focus on composers associated with history and theory of the Lied the various chapters explore the cultural and sociological background to the Lied s musical environment as well as engaging with gender studies and discussing performance and pedagogical contexts The range of subject matter reflects the interdisciplinary nature of current research in the field and the energy it generates among scholars and performers *Women and the Nineteenth Century Lied* aims to widen readers perception of the genre and help promote awareness of women s contribution to nineteenth century musical life through critical appraisal of the cultural context of the Lied encouraging acquaintance with the voices of women composers and the variety of their contributions to the repertoire **German Lieder in the Nineteenth Century** Rufus Hallmark, 2009-09-10 German Lieder in the

Nineteenth Century provides a detailed introduction to the German lied Beginning with its origin in the literary and musical culture of Germany in the nineteenth century the book covers individual composers including Shubert Schumann Brahms Strauss Mahler and Wolf the literary sources of lieder the historical and conceptual issues of song cycles and issues of musical technique and style in performance practice Written by eminent music scholars in the field each chapter includes detailed musical examples and analysis The second edition has been revised and updated to include the most recent research of each composer and additional musical examples *Baudelaire in Song* Helen Abbott, 2017-10-27 Why do we find it hard

to explain what happens when words are set to music This study looks at the kind of language we use to describe word music relations both in the academic literature and in manuals for singers or programme notes prepared by professional musicians Helen Abbott s critique of word music relations interrogates overlaps emerging from a range of academic disciplines including translation theory adaptation theory word music theory as well as critical musicology m tricom trie and cognitive neuroscience It also draws on other resources whether adhesion science or financial modelling to inform a new approach to

analysing song in a model proposed here as the assemblage model The assemblage model has two key stages of analysis The first stage examines the bonds formed between the multiple layers that make up a song setting including metre prosody form structure sound repetition semantics and live performance options The second stage considers the overall outcome of each song in terms of the intensity or stability of the words and music present in a song accretion dilution Taking the work of the major nineteenth century French poet Charles Baudelaire 1821-67 as its main impetus the volume examines how Baudelaire's poetry has inspired composers of all genres across the globe from the 1860s to the present day The case studies focus on Baudelaire song sets by European composers between 1880 and 1930 specifically Maurice Rollinat Gustave Charpentier Alexander Gretchaninov Louis Vierne and Alban Berg Using this corpus it tests out the assemblage model to uncover what happens to Baudelaire's poetry when it is set to music It factors in the realities of song as a live performance genre and reveals which parameters of song emerge as standard for French text setting and where composers diverge in their approach

A Social History of Amateur Music-Making and Scottish National Identity: Scotland's Printed Music, 1880-1951 Karen E. McAulay,2024-10-30 Late Victorian Scotland had a flourishing music publishing trade evidenced by the survival of a plethora of vocal scores and dance tune books and whether informing us what people actually sang and played at home danced to or enjoyed in choirs or reminding us of the impact of emigration from Britain for both emigrants and their families left behind examining this neglected repertoire provides an insight into Scottish musical culture and is a valuable addition to the broader social history of Scotland The decline of the music trade by the mid twentieth century is attributable to various factors some external but others due to the conservative and perhaps somewhat parochial nature of the publishers output What survives bears witness to the importance of domestic and amateur music making in ordinary lives between 1880 and 1950 Much of the music is now little more than a historical artefact Nonetheless Karen E McAulay shows that the nature of the music the song and fiddle tune books contents the paratext around the collections its packaging marketing and dissemination all document the social history of an era whose everyday music has often been

dismissed as not significant or indeed properly old enough to merit consideration The book will be valuable for academics as well as folk musicians and those interested in the social and musical history of Scotland and the British Isles **The**
