Orientalism and the Reception of Powerful Women from the Ancient World Filippo Carlà-Uhink, Anja Wieber, 2020-02-06 Why is Cleopatra a descendent of Alexander the Great a Ptolemy from a Greek Macedonian family in popular imagination an Oriental woman True she assumed some aspects of pharaonic imagery in order to rule Egypt but her Orientalism mostly derives from ancient Roman and modern stereotypes both the Orient and the idea of a woman in power are signs in the Western tradition of otherness and in this sense they can easily overlap and interchange This volume investigates how ancient women and particularly powerful women such as queens and empresses have been re imagined in Western and not only Western arts highlights how this re imagination and re visualization is more often than not the product of Orientalist stereotypes even when dealing with women who had nothing to do with Eastern regions and

Hamburger, 2002-09-26 Throughout the Middle Ages John the Evangelist identified as the author of both the Book of Revelation and the most profound and theologically informed of the four Gospels provided monks and nuns with a figure of inspiration and an exemplar of vision and virginity Rather than the historical apostle this book's protagonist is a persona of the Evangelist established in theology the liturgy and devotional practice the model mystic who by virtue of his penetrating insight was seen as having become a mirror image of Christ In *St John the Divine* Jeffrey Hamburger identifies a remarkable set of images from the ninth to the fifteenth centuries that identify the inspired Evangelist so closely with the deity that he appears as his living image and embodiment Hamburger explores the ways these representations of St John in the guise of Christ elucidate the significance of images as such in medieval theology and mysticism Above all he shows how these artworks presented together for the first time epitomize the relationship

between the visible and the invisible between ideas however abstract and the concrete images that medieval Christians confronted face to face Publisher's description      Leonardo da Vinci's Paragone Claire Farago,1992-05-01 Leonardo da Vinci's arguments for the supremacy of painting over the arts of poetry music and sculpture address issues that have been relevant to debates over the nature of representation since the time Plato discussed imitation until today maintains Claire Farago in this wide ranging critical analysis of the first important modern contribution to the comparison of the arts This study systematically examines 46 passages compiled in the mid sixteenth century from eighteen of Leonardo's notebooks and their relationship to the artist's holograph writings on painting providing a critical transcription newly made from the Codex Vaticanus Urbinas 1270 and a new English translation with extensive notes that take into account Leonardo's scientific terminology the highly contrived form of his rhetorical argumentation and the role played by his original editors

**Rembrandt** Egbert Haverkamp-Begemann,2024-01-09 A landmark book that casts critical light on one of Rembrandt's most iconic paintings In *The Nightwatch* Rembrandt turns his portrayal of eighteen prominent Amsterdam citizens as members of a militia company into one of the world's most fascinating works of art one that evokes censure as well as praise The painting however was not an eccentric vision but a thoughtful reworking of a longstanding tradition of militia portraiture In this classic book Egbert Haverkamp-Begemann shows how Rembrandt chose motifs colors actions and setting to emphasize the historic role of the militia in Amsterdam and the social standing of the men portrayed and how contemporary viewers associated costumes and actions with events of the past and familiar circumstances of the period when the painting was made Meticulously reconstructing the artist's intentions and the viewer's response Haverkamp-Begemann sheds critical light on the startling young woman in gold and other visual elements of this remarkable work      *Montale, Debussy, and Modernism* Gian-Paolo Biasin,2014-07-14 Integrating the study of both music and art into an exploration of the early poetry of Eugenio Montale 1896-1982 this book situates Italy's premier poet of the twentieth century within the Modernist movement Gian Paolo Biasin finds in Montale's poetry broad resonances reverberations and comparisons that involve it in the European culture of its time and that invite the reading of poetry music and painting as texts in a cultural system This interdisciplinary approach expands our appreciation of Montale's work in a way not possible with literary analysis alone Biasin's study first shows the structural homology between some of Debussy's preludes for piano and certain poems in Montale's *Ossi di seppia* emphasizing the rhythmic qualities of the compositions This formal analysis leads to an understanding of the respective texts thematic symbolic and cultural meaning specifically antiheroism as a choice of life Similar methodology is then used to reveal the relationship between the poetry of Montale and Giorgio Morandi's etchings and between Montale's poetic persona Arsenio and the novelistic characters of Svevo and Pirandello Each of these comparisons brings to light a shared image that of the clown or antihero as a mocking self portrait of the modern artist Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make

available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
