Masters Of Death the Einsatzgruppen And The Invention Of The Holocaust:

Masters of Death Richard Rhodes, 2003-08-12 In *Masters of Death* Pulitzer Prize winning author Rhodes gives full weight for the first time to the Einsatzgruppen's role in the Holocaust. These special task forces organized by Heinrich Himmler to follow the German army as it advanced into eastern Poland and Russia were the agents of the first phase of the Final Solution. They murdered more than 1.5 million men, women, and children between 1941 and 1943, often by shooting them into killing pits as at Babi Yar. These massive crimes have been generally overlooked or underestimated by Holocaust historians who have focused on the gas chambers. In this painstaking account, Pulitzer Prize winning author Richard Rhodes profiles the eastern campaign's architects as well as its ordinary soldiers and policemen and helps us understand how such men were conditioned to carry out mass murder. Marshaling a vast array of documents and the testimony of perpetrators and survivors, this book is an essential contribution to our understanding of the Holocaust and World War II. *Masters of Death*, 2004. In this narrative history of the Einsatzgruppen, killer task forces deployed in Poland and the Soviet Union early in World War II by Himmler's SS, Richard Rhodes argues that Hitler made two separate decisions to murder the Jews of Europe. The first, in July 1941, condemned the eastern European Jews to slaughter by the Einsatzgruppen, who would execute 1.5 million victims between 1941 and 1943 by shooting them into killing pits as at Babi Yar, crimes against humanity that have largely been overlooked or underemphasized by Holocaust historians. The second decision, in December 1941, condemned the Jews of western Europe. By then, Rhodes shows, direct killing had so brutalized the SS perpetrators that a shocked Himmler had ordered the development of less personal means of murder: the notorious gas chambers and crematoriums of the Holocaust's second wave. Rhodes demonstrates further that Hitler and Himmler intended the Jews to be only their first victims; their plan was to open up Russia to German colonization and to destroy more than 30 million Slavs and members of other ethnic groups. Drawing on newly available material, this is a book that is certain to generate debate and expand the understanding of the Holocaust.

The Holocaust Ryan Barrick, Abigail S. Gruber, David Misal, 2014-04-11 This book is a collection of seventeen scholarly articles which analyze Holocaust testimonies, photographs, documents, literature, and films as well as teaching methods in Holocaust education. methods of exterminating Jews The authors analyze the reliability of photographic evidence and eyewitness testimonies about the Holocaust The essays also describe the psychological impact of the Holocaust on survivors witnesses and perpetrators and upon Jewish identity in general after the Second World War The scholars explore the problems of the memorialization of the Holocaust in the Soviet Union and the description of the Holocaust in Russian literature Several essays are devoted to the representation of the Holocaust in film and trace the evolution of its depiction from the early Holocaust movies of the late 1940s early 1950s to modern Holocaust fantasy films They also show the influence of Holocaust cinema on feature films about the Armenian Genocide Lastly several authors propose innovative methods of teaching the Holocaust to college students The younger generation of students may see the Holocaust as an event of the distant past so new teaching methods are needed to explain its significance This collection of essays based on new multi disciplinary research and innovative methods of teaching opens many unknown aspects and provides new perspectives on the Holocaust

The Evil Within
Diane Jeske, 2018-08-01 Thomas Jefferson and Edward Coles were men of similar backgrounds yet they diverged on the central moral wrong of this country s history the former remained a self justified slave holder while the latter emancipated his slaves What led these men of the same era to choose such different paths They represent one of numerous examples in this work wherein examining the ways in which people who perform wrong and even evil actions attempt to justify those actions both to others and to themselves illuminates the mistakes that we ourselves make in moral reasoning How do we justify moral wrongdoing to ourselves Do we even notice when we are doing so The Evil Within demonstrates that the study of moral philosophy can help us to identify and correct for such mistakes In applying the tools of moral philosophy to case studies of Nazi death camp commandants American slave holders and a psychopathic serial killer Diane Jeske shows how we can become wiser moral deliberators A series of case studies serve as extended real life thought experiments of moral deliberation gone awry and show us how four impediments to effective moral deliberation cultural norms and pressures the complexity of the consequences of our actions emotions and self deception can be identified and overcome by the study and application of moral philosophy Jeske unsparingly examines the uncomfortable parallels between the moral deliberations of those who are transparently evil e g psychopaths Nazis and our own moral justifications The Evil Within ultimately argues for incorporating moral philosophy into moral education so that its tools can become common currency in moral deliberation discussion and debate

West Germans and the Nazi Legacy Caroline Sharples,2011-12-21 This book constitutes a new history of the complex memory cultures that persisted within post war West Germany examining the attitudes of ordinary people to the second wave of Nazi war crimes trials ushered in during the 1960s It explores responses to the prospect of continuing investigations the reception afforded to the defendants and the sheer resonance that such proceedings could generate within a local community Drawing upon case studies from across the Federal Republic it bridges a gap between the current historiography and localised

memory studies and analyses of war crimes trials Far from viewing the 1960s as an uncomplicated decade of change this book emphasises the range of voices that were competing to make themselves heard during this period whether they came from survivors groups crusading journalists and students or from former prisoners of war veterans organisations and the war widowed This diversity of opinion and experience enabled the persistence of silences distortions and mythologies that could afford some level of distance to be imposed between the perpetrators of the Nazi genocide and the ordinary West German population The process of coming to terms with the past was thus complicated and protracted
