Masters Of The Universe Natos Balkan Crusade:

Masters of the Universe? Tariq Ali, 2000 A number of distinguished dissidents voice their opinions on the intervention by NATO in the former Yugoslavia The collection also provides background historical information on the conflict in the Balkans

NATO and the Western Balkans Niall Mulchinock, 2017-03-28 This book provides a critical examination of NATO's evolving strategic and operational roles in the Western Balkans since the disintegration of Yugoslavia in 1991 with a particular focus on Bosnia Kosovo and the former Yugoslav Republic of Macedonia in both the conflict and post conflict phases While there is a myriad of literature available on the various conflicts that engulfed the former Yugoslavia after the collapse of communism less has been written on NATO's overall role in these conflicts This text therefore fills the gap offering a thematic study of NATO's roles and duties in this region from the early 1990s to the present day The levels of analysis introduced by Mulchinock provide a new framework for examining NATO's response to the Yugoslav wars of secession focusing on the role of key NATO member states and the role of different NATO Secretaries General along with the impact of inter institutional cooperation and conflict with other international organisations

The People Want Gilbert Achcar, 2013-09-03 The sponsoring of the Muslim Brotherhood by the Emirate of Qatar and its influential satellite channel Al Jazeera contributed to shaping the prelude to the uprising But the explosion's deep roots asserts Achcar mean that what happened until now is but the beginning of a revolutionary process likely to extend for many more years to come The author identifies the actors and dynamics of the revolutionary process the role of various social and political movements the emergence of young actors making intensive use of new information and communication technologies and the nature of power elites and existing state apparatuses that determine different conditions for regime overthrow in each case Drawing a balance sheet of the uprising in the countries that have been most affected by it until now i.e. Tunisia Egypt Yemen Bahrain Libya and Syria Achcar sheds special light on the nature and role of the movements that use Islam as a political banner

The Politics of Genocide Edward S. Herman, David Peterson, 2010-04-01 In this impressive book Edward S Herman and David Peterson examine the uses and abuses of the word genocide They argue persuasively that the label is highly politicized and that in the United States it is used by the government journalists and academics to brand as evil those nations and political movements that in one way or another interfere with the imperial interests of U S capitalism Thus the word genocide is seldom applied when the perpetrators are U S allies or even the United States itself while it is used almost indiscriminately when murders are committed or are alleged to have been committed by enemies of the United States and U S business interests One set of rules applies to cases such as U S aggression in Vietnam Israeli oppression of Palestinians Indonesian slaughter of so called communists and the people of East Timor U S bombings in Serbia and Kosovo the U S war of liberation in Iraq and mass murders committed by U S allies in Rwanda and the Republic of Congo Another set applies to cases such as Serbian aggression in Kosovo and Bosnia killings carried out by U S enemies in Rwanda and Darfur Saddam Hussein any and all actions by Iran and a host of others With its careful and voluminous documentation close reading of the U S media and political and scholarly writing on the subject and clear and incisive charts *The Politics of Genocide* is both a damning condemnation and stunning exposé of a deeply rooted and effective system of propaganda aimed at deceiving the population while promoting the expansion of a cruel and heartless imperial system

Insurrection and Intervention Ned Dobos, 2011-10-27 Domestic sovereignty the right of a government not to be resisted by its people and international sovereignty the moral immunity from outside intervention have both been eroded in recent years but the former to a much greater extent than the latter An oppressed people's right to fight for liberal democratic reforms in their own country is treated as axiomatic as the international responses to the revolutions in Tunisia Egypt and Libya illustrate But there is a reluctance to accept that foreign intervention is always justified in the same circumstances Ned Dobos assesses the moral cogency of this double standard and asks whether intervention can be consistently and coherently opposed given our attitudes towards other kinds of political violence His thought provoking book will interest a wide range of readers in political philosophy and international relations

From Kosovo to Darfur Sidita Kushi, 2025-07-07 Why are some violent crises more likely to prompt humanitarian military interventions than others Conventional wisdom says that humanitarian military interventions occur due to national interests shared values and norms or economic benefits for the interveners Yet neither of these factors can fully explain the selectivity of such interventions The international community continues to ignore

the decades long suffering in Darfur often dismisses the genocidal policies within Myanmar and even perpetuates the suffering in contemporary Yemen while undertaking humanitarian laden missions in Libya Syria and the Balkans Using in depth case studies and new data on all post Cold War internal armed conflicts matched to third party responses From Kosovo to Darfur offers the first regionally sensitive analysis of humanitarian military intervention since the end of the Cold War It shows that international military interventions in the context of acute humanitarian crises are driven by different pathways within the Western versus the non Western world and fueled by elite perceptions of the crisis making interventions closer to the geographic and cultural West most probable and most intense As our international community becomes increasingly interdependent and aware of human suffering across borders From Kosovo to Darfur points to new pathways of conflict trajectories and reveals vital implications for leaders scholars and nongovernmental actors advocating for or against international military intervention as a policy choice

Kosovo and International Society Alex J. Bellamy, 2002-08-11 This book explains the international engagement with the Kosovo conflict from the dissolution of Yugoslavia to Operation Allied Force It shows how Kosovo was deliberately excluded from the search for peace in Yugoslavia before going on to demonstrate how a shaky international consensus was forged to support air strikes in 1999 In doing so it exposes many of the myths and conspiracy theories that have developed about the war and explains the dilemmas facing actors in this unfolding drama

Kosovo Mary Buckley, Sally Cummings, 2001-01-01 Nato intervention in Kosovo marked a major turning point in post cold war international relations While some western commentators argued that it was the first war to be fought on purely moral grounds Serbian Russian and Chinese assessments were sharply different This highly original addition to the literature on Kosovo highlights the importance of perspective to an understanding of both the causes and consequences of war It makes clear that the conceptual lenses paradigms or frameworks through which political actors view reality in turn affect their understanding of the behaviour of others and their reactions to it The authors a team of regional experts on the countries covered examine the way the war has been understood in countries involved in and peripheral to the conflict Their aim is to provide a broad yet highly nuanced picture of this focal point of Balkan unrest The book opens with an introduction to the historical and regional context of the conflict The authors go on to present twelve case studies ranging from Serbia and the other former Yugoslav republics to the USA and to China These detailed regional studies highlight the considerable variation in the key states perceptions of their national interest and their perceptions of what constitutes legality or legitimacy In each case domestic constraints are explored and the ways in which differing perspectives of political and military leadership fed into the crisis are examined Further thematic chapters determine the war s consequences and the lessons to be drawn in terms of the wider issues of refugees humanitarian intervention European security and geopolitics

Fontaine, 2001 The book cuts through the excuses and uncovers the causes of Washington s pattern of failure *Europe and the Post-Yugoslav Space* Branislav Radeljic, 2016-04-22 Charting the path from intervention to integration Europe and the Post Yugoslav Space examines the role of Europeanization on the development of the countries of the former Yugoslavia Slovenia Croatia Macedonia Montenegro Serbia Bosnia and Herzegovina and Kosovo may have a shared history but their experiences views and attitudes to European integration vary dramatically Opinion within each state is often equally as keenly divided as to the benefits of active membership The debate within each country and their comparative differences in approach provide fascinating case studies on the importance and relevance of the EU and the effectiveness of Europeanization A wide range of contributors with significant experience gained within the EU as well as their country of origin use their expert understanding of the language and cultures of the countries concerned to provide detailed and rich insights into the troubled history and potential of the post Yugoslav space **Uncertain Europe**

Martin Smith, Graham Timmins, 2002-04-12 This timely book considers the topical issue of the enlargement processes of the European Union and NATO This book is an essential resource for those academics interested in the development of the European Union **Zones of Conflict** Vassilis K. Fouskas, 2003-02-20 The US has major interests in the Balkans the Greater Middle East and the Eurasian zone which determine its political and military strategies in the region What are these interests and what strategies are used to ensure that they are maintained Examining the balance of power between the US the EU and key EU states Vassilis Fouskas offers a critique of US foreign policy and its underlying motivations Fouskas argues that the major US objectives include control over gas and oil producing zones safe transportation of energy to Western markets at stable prices and the elimination but not destruction of America s Eurasian competitors He asserts that US foreign policy is therefore driven by the desire to maintain a strategic partnership with key EU states while preventing the emergence of an alternative coalition in Eurasia capable of challenging US supremacy How does the US manage its interests in Eurasia and what are the particular strategies the EU has elaborated so far to deal with America s supremacy Has US foreign policy undergone a dramatic U turn after the end of the Cold War or for that matter after September 11th What are the roles of Germany France Britain and Turkey and how do EU Cyprus relations affect the balance of power This

book tackles these questions and argues that the emergence of a social democratic administration in Eurasia is a feasible alternative to American unilateralism Multidisciplinary Perspectives on Peace and Conflict Research Francisco Ferrándiz, Antonius C. You Can't Please All Tariq Ali, 2024-11-05 The revolutionary upsurge of 1968 1975 jump hopped continents with ease but finally petered out What happened after is the subject of You Can't Please All Tariq Ali recounts a life committed to writing and cultural interventions An eyewitness in Moscow to the fall of the Soviet Union he was caught up in the intellectual excitement that had gripped the country In Porto Alegre Hugo Chavez invited him to visit Caracas and the two men developed a striking friendship Post 2001 as a founding member of the Stop the War Coalition he became a fierce critic of the War on Terror visiting many US cities with surprising regularity to engage in debate and discussion inaugurating a new phase of political activism Evident in his work is the integral part politics plays in his life He is one of the most sought after socialist and anti imperialist public intellectuals on most continents Underlying the narrative is a chain of anecdotes reflections jottings and storytelling The book explores his work for the theatre and film as well as his fiction including the acclaimed Islam Quintet There are pen portraits of friends and comrades such as Edward Said Derek Jarman Richard Ingrams Benazir Bhutto Mary Kay Wilmers and the intellectuals who founded and relaunched New Left Review E P Thompson Perry Anderson and Robin Blackburn The book also contains a moving family portrait describing how his parents met and lived during the early years of Pakistan

Challenges for Humanitarian Intervention C. A. J. Coady, Ned Dobos, Sagar Sanyal, 2018-05-10 Ten new essays critique the practice armed humanitarian intervention and the Responsibility to Protect doctrine that advocates its use under certain circumstances The contributors investigate the causes and consequences as well as the uses and abuses of armed humanitarian intervention One enduring concern is that such interventions are liable to be employed as a foreign policy instrument by powerful states pursuing geo political interests Some of the chapters interrogate how the presence of ulterior motives impact on the moral credentials of armed humanitarian intervention Others shine a light on the potential adverse effects of such interventions even where they are motivated primarily by humanitarian concern The volume also tracks the evolution of the R2P norm and draws attention to how it has evolved for better or for worse since UN member states unanimously accepted it over a decade ago In some respects the norm has been distorted to yield prescriptions and to impose constraints fundamentally at odds with the spirit of the R2P idea This gives us all the more reason to be cautious of unwarranted optimism about humanitarian intervention and the Responsibility to Protect
