The Latino Christ in Art, Literature, and Liberation Theology Michael R. Candelaria,2018-04-15
Salvador Dalí, nuclear mystical Christ, Fray Angelico Chavez, the Virgin of Port Lligat, Jos Clemente Orozco, Christ Prometheus, Miguel de Unamuno, the Quixotic Christ, Jorge Luis Borges, the fictional Christ, Richard Rojas, the invisible Christ, Liberation theology, Christ the liberator, The Mestizo Christ, Coda. The Publishers' Trade List Annual ,1980 **The Revolt of Unreason** Michael Candelaria,2012-01-01
This book examines solutions to the crisis of modernity proposed by the Spanish philosopher Miguel de Unamuno and the Mexican philosopher Antonio Caso. Acceptance of the objective claims of modern scientific rationality and the consequent rejection of the objective validity of artistic, moral, and religious claims generates the crisis of modernity. The problem is that of justifying artistic, moral, and religious claims. Miguel de Unamuno, in his classic work *The Tragic Sense of Life*, addresses the conflict between the belief in personal immortality and modern scientific rationality. Holding that there is no rational justification for the belief in immortality, Unamuno finds a solution in a saving scepticism: to act as if he deserved immortality. In his book *Existence as Economy as Art and Charity*, Caso attempts to create an *a posteriori* metaphysics based on the current results of science supplemented by the intuitions of art and morality. In doing so, Caso believes that he has enlarged the scope of the knowable to include objects of art, morality, and religion. Unamuno, by accepting the strict line of demarcation between faith and reason, has no other recourse but to turn to decisionism. By turning to intuitionism, Caso believes that he has blurred the line of demarcation. Decisionism and intuitionism therefore are worthy of further exploration. *The Masterwork in Music: Volume II, 1926* Heinrich Schenker,2014-10-13
Volume II of three volume set features an essay on Mozart's Symphony No. 40 in G Minor, studies of Bach keyboard and solo cello works, and theoretical writings on sonata form and fugue and Schenkerian theory. *Masterworks of Economics* Leonard Dalton Abbott,1973

Masterworks of Government Leonard Dalton Abbott,1973 *John Grote* Lauchlin D. MacDonald,2012-12-06
An objective of this book is to discuss some of the contributions made by John Grote to philosophy. This work is an extension of a dissertation written for the doctorate at Boston University. The author wishes to acknowledge the invaluable assistance in many places to Professor Peter A. Bertocci and the late Professor Edgar S. Brightman, both of whom read the entire

manuscript in its original form Also the author acknowledges the encouraging interest and support of his wife Helen whose many suggestions have improved the writing and without whose assistance this work would not have been accomplished The author assumes complete responsibility for whatever errors or deficiencies appear in the book All known writings of Grote are listed and the more important ones analyzed LAUCHLIN D MACDONALD CHAPTER I INTRODUCTION 1 JOHN GROTE S LIFE i Sketch of his life John Grote will remain best known by reason of the thought formu lated in the Exploratio Philosophica or Rough Notes on Modern I ntellectu al Science To the philosophical world of his own time he was well known as the teacher who ably held the chair of Moral Philosophy in the University of Cambridge from r855 until the year of his death r866 to the Knightbridge Professor William Whewell whose in succession Philosophy of Science is the subject of at least one chapter of the Exploratio Philosophica Grote s birthplace was Beckenham in Kent and the date May 5 r8r3

Concepts of Philosophy in Asia and the Islamic World Raji C. Steineck,Ralph Weber,Robert Gassmann,Elena Lange,2018-05-07 The contributions to Concepts of Philosophy in Asia and the Islamic World reflect upon the problems implied in the received notions of philosophy in the respective scholarly literatures They ask whether and for what reasons a text should be categorized as a philosophical text or excluded from the canon of philosophy and what this means for the concept of philosophy The focus on texts and textual corpora is central because it makes authors expose their claims and arguments in direct relation to specific sources and discourages generalized reflections on the characteristics of for example Japanese culture or the Indian mind The volume demonstrates that close and historically informed readings are the sine qua non in discussing what philosophy is in Asia and the Islamic world just as much as with regard to Western literature Contributors are Yoko Arisaka Wolfgang Behr Thomas Fr hlich Lisa Indraccolo Paulus Kaufmann Iso Kern Ralf M ller Gregor Paul Lisa Raphals Fabian Sch fer Ori Sela Rafael Suter Christian Uhl Viatcheslav Vetrov Yvonne Schulz Zinda and Nicholas Zufferey The Use and Abuse of Sport and Physical Activity Earle F. Zeigler,2011-07-14 I am not against sport and related physical activity What I am arguing is that employed properly and correctly exercise and sport as one of a number of vital social forces e g nationalism ecology could contribute to the improvement of the current situation in human health enormously Additionally in the case of related physical activity i e regular exercise or physical activity education in the developed world I believe humans are too often abusing it by first not understanding it and then by not using it more intelligently Ironically in the undeveloped world people often get too much exercise just to stay alive Moreover I believe that the active use of competitive sport worldwide to promote what have been called moral values traits or attributes leading to world peace and good will as opposed to so called socio instrumental values that often are overly self serving This would tend to create a social force of such strength and power that humankind might be helped as it confronts the social and physical devastation looming ahead At the very least I believe such active promotion would delay to a considerable degree the onset of what is increasingly becoming a destructive societal situation *What I Have Learned...* Earle F. I Have Learned or Nonagenarian Natterings Trafford 2012 might be considered a sequel to my Through the Eyes of a Concerned Liberal published in 2004 This sequel explains what I believe about various aspects of life and living i e why I believe what I do and what I sought to do about it all It could prove interesting to anyone facing the same or similar life problems in this crazy world that is becoming more scary as I write these words What I say here should be easily intelligible if not agreeable to any reasonably intelligent concerned member of North American society My historical interpretation laced with philosophical under girding led me to a belief that human civilization must be accepted as an adventure How could it be regarded otherwise As a young adult I entered the realm of life assessment by seeking a purpose for my life I accepted the philosophical stance known as pragmatism at this point while seeking to solidify my acceptance of political and social liberalism as guidance throughout my life I soon discovered the ever present need to make defensible ethical decisions based on a wise choice of values This matter was confounded by what I gradually saw as the ever increasing need to counteract Americas value orientation as the world moves along in the 21st century To do this I had to be sure that I was on the right track I did this by finding myself once again through self evaluation of my philosophic and socio political stances Hence I encourage all North Americans to re examine their values while embracing a modified form of postmodernism Finally I can only hope that America will come to its senses America must somehow live up to the values it so glibly espouses
