## **Matchbook Essays In Deconstruction Meridian:**

Matchbook David Wills, 2005 Matchbook consists of nine essays written around or in response to work published by Jacques Derrida since 1980 The focal point of the essays is the Envois which forms part of Derrida's Post Card Particular attention is paid to how that text articulates with the ethical and political emphases of Derrida's more recent work but also to its autobiographical conceit The incendiary reference of the book's title underscores deconstruction's engagement with questions of reading relations between slow reading and the speed of technology and the political effects of an internationalized deconstruction in a globalized culture It is in terms of what deconstruction can have us think about the speed of technology and technologies of reading that Derrida's work has made one of its most important contributions to philosophy and literary and cultural studies The book concentrates on that as proof of the continued relevance of such work

**Bibliographisch repertorium van de wijsbegeerte**, 2006      **Bibliografisch Repertorium Van de Wijsbegeerte**, 2006      **Penser la «pervertibilité»** Nicholas Cotton, 2023-02-06T00:00:00-05:00 Peut on seulement penser une thique de la perversion Tout est problématique dans cette question commencer par le mot perversion lui-même qui ouvre des lors qu'on évoque un espace sans manqué trouble aux frontières incertaines L'idée de pervertibilité relance ici dans le sillage du philosophe Jacques Derrida pourrait bien jouer ces quivoques Au confluent de la littérature de la philosophie et de la psychanalyse cet ouvrage s'attache à montrer l'importance de cette notion chez Jacques Derrida et retracer les moments qui en constituent une sorte d'impensé cette fin l'auteur entreprend une enquête au plus près des textes et de la pensée du philosophe soutenue par une approche pluridisciplinaire qui permet d'en cerner l'évolution dans la seconde moitié du xx<sup>e</sup> siècle tout en respectant l'exigence de complexité et d'inventivité de ce qu'on appelle deconstruction En mettant de l'avant une conception renouvelée du texte littéraire ce livre ne cherche pas faire l'apologie de pratiques prétendument subversives de la littérature mais il contribue ce que soient mieux compris des dispositifs pervers de la pensée philosophique et des gestes concrets d'écriture      *Not Half No End* Geoffrey Bennington, 2010-02-10 Gathers Bennington's essays since the death of his friend Jacques Derrida in 2004 These 16 continue the work of elucidating Derrida's difficult and complex thought often with reference to his persistent interrogation of the concepts of life and death mourning and melancholia and what he sometimes calls half mourning Bennington relates these to the core concepts in Derrida's work deconstruction and différance Derrida's suspension of the end in différance in death has wide ranging consequences for our thinking and how we attempt to categorise that thinking whether as epistemological ethical political aesthetic Not Half No End moves through Derrida's rich and varied corpus in a weave of styles from the expository and analytical to the autobiographical and confessional in the ongoing process of deconstruction      *Futures* Richard Rand, 2001      **Deconstruction: A Critique** A. Rajnath, 1989-06-18 This collection of essays examines a wide range of topics relating to deconstruction which emerged in France as a reaction to structuralism but

has found its greatest response in America where literary critics have built on its basic assumptions to create a new critical movement Deconstruction Is/in America Anselm Haverkamp, 1995 What impact has deconstruction had on the way we read American culture And how is American culture itself peculiarly deconstructive To address these questions this volume brings together some of the most provocative thinkers associated with deconstruction among them Jacques Derrida Judith Butler and Avital Ronnel Ranging across a wide field from the ethics of reading to the rhetoric of performance the contributors offer provocative insights into a new sense of the political The America of the volume's title turns out to be the place where the politics and poetics of responsibility meet It is also the place where we confront the tension between difference and profound otherness **Deconstruction** Gregory Jones-Katz, 2021-09-03 The basic story of the rise and fall of deconstruction as a literary and philosophical groundswell is well known among scholars In this intellectual history Gregory Jones Katz aims to transform the broader understanding of a movement that has been frequently misunderstood mischaracterized and left for dead even as its principles and influence transformed literary studies and a host of other fields in the humanities Deconstruction begins well before Jacques Derrida's initial American presentation of his deconstructive work in a famed lecture at Johns Hopkins University in 1966 and continues through several decades of theoretic growth and tumult While much of the subsequent story remains focused inevitably on Yale University and the personalities and curriculum that came to be lumped under the Yale school umbrella Deconstruction makes clear how crucial feminism queer theory and gender studies also were to the lifeblood of this mode of thought Ultimately Jones Katz shows that deconstruction in the United States so often caricatured as a French infection was truly an American phenomenon rooted in our preexisting political and intellectual tensions that eventually came to influence unexpected corners of scholarship politics and culture

Signs of the Times David Lehman, 1991 Deconstructions Nicholas Royle, 2017-03-10 Deconstructions A User's Guide is a new and unusual kind of book At once a reference work and a series of inventive essays opening up new directions for deconstruction it is intended as an authoritative and indispensable guide With a helpful introduction and specially commissioned essays by leading figures in the field Deconstructions offers lucid and compelling accounts of deconstruction in relation to a wide range of topics and discourses Subjects range from the obvious feminism technology postcolonialism to the less so drugs film weaving Backed up by an unusually detailed index this User's Guide demonstrates the innumerable and altering contexts in which deconstructive thinking and practice are at work both within and beyond the academy both within and beyond what is called the West **Philosophy Beside Itself** Stephen W. Melville, 1986 Philosophy Beside Itself was first published in 1986 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions The writings of French philosopher Jacques Derrida have been the single most powerful influence on critical theory and practice in the United States over the past decade But with few exceptions American philosophers have taken little or no interest in Derrida's work and

the task of reception translation and commentary has been left to literary critics As a result Derrida has appeared as a figure already defined by essentially literary critical activities and interests Stephen Melville's aim in *Philosophy Beside Itself* is to insist upon and clarify the distinctions between philosophy and criticism He argues that until we grasp Derrida's philosophical project as such we remain fundamentally unable to see his significance for criticism In terms derived from Stanley Cavell's writings on modernism Melville develops a case for Derrida as a modernist philosopher working at once within and against that tradition and discipline Melville first places Derrida in a Hegelian context the structure of which he explores by examining the work of Heidegger Lacan and Bataille With this foundation he is able to reappraise the project of deconstructive criticism as developed in Paul de Man's *Blindness and Insight* and further articulated by other Yale critics Central to this critique is the ambivalent relationship between deconstructive criticism and Lacanian psychoanalysis Criticism radical self criticism is a central means through which the difficult facts of human community come to recognition and Melville argues for criticism as an activity intimately bound to the ways in which we do and do not belong in time and in community Derrida's achievement has been to find a new and necessary way to assert that the task of philosophy is criticism the task of literary criticism is to assume the burden of that achievement Stephen Melville is an assistant professor of English at Syracuse University and Donald Marshall is a professor of English at the University of Iowa

### **Chronicle of Separation**

Michal Ben-Naftali, 2015-05-01 A unique feminist approach to the legacy of Jacques Derrida *Chronicle of Separation* is a disparate yet beautifully interwoven series of distinct readings genres and themes offering a powerful reflection of love in and as deconstruction Looking especially at relationships between women Ben Naftali provides a wide ranging investigation of interpersonal relationships the love of a teacher the anxiety ridden bond between a mother and daughter as manifested in anorexia passion between two women love after separation and in mourning the tension between one's self and the internalized other Traversing each of these investigations *Chronicle of Separation* takes up Derrida's *Memoires for Paul de Man* and *The Post Card* Lillian Hellman's famed friendship with a woman named Julia and adaptations of the biblical *Book of Ruth* Above all it is a treatise on the love of theory in the name of poetry a passionate book on love and friendship

**Poetics of Deconstruction** Lynn Turner, 2020-10-15 In *Poetics of Deconstruction* Lynn Turner develops an intimate attention to independent films art and the psychoanalyses by which they might make sense other than under continued license of the subject that calls himself man Drawing extensively from Jacques Derrida's philosophy in precise dialogue with feminist thought animal studies and posthumanism this book explores the vulnerability of the living as rooted in non oppositional differences From abjection to mourning to the speculative and the performative it reposes concepts and buzzwords seemingly at home in feminist theory visual culture and the humanities more broadly Stepping away from the carno phallogocentric legacies of the signifier and the dialectic *Poetics of Deconstruction* asks you to welcome nonpower into politics always sexual but no longer anchored in sacrifice

*Chronicle of Separation* Michal Ben-Naftali, 2015 The book

Chronicle of Separation is an attempt to write on Derrida to Derrida and from Derrida on the basis of a pathetic experience which in various ways describes and enacts the pathetic experience of deconstruction itself The book tackles the weight of emotions that is at the heart of deconstructive reading     *Against Deconstruction* John Martin Ellis, 2018-06-05 The focus of any genuinely new piece of criticism or interpretation must be on the creative act of finding the new but deconstruction puts the matter the other way around its emphasis is on debunking the old But aside from the fact that this program is inherently uninteresting it is in fact not at all clear that it is possible The na vet of the crowd is deconstruction s very starting point and its subsequent move is as much an emotional as an intellectual leap to a position that feels different as much in the one way as the other From the book     *Deconstruction, Theory and Practice* Christopher Norris, 1982 In this third revised edition Norris builds upon his 1991 afterword with an entirely new postscript reflecting upon recent critical debate The postscript includes an extensive list of recommended reading complementing what was already one of the most useful bibliographies available     *Challenging Theory* Catherine Burgass, 1999 The author addresses the influence of poststructuralism on literary studies studies in Britain and America focusing on the theory of deconstruction as developed by Jacques Derrida The book redresses common misinterpretations and assesses arguments for the collapse of disciplinary boundaries

**Deconstruction After 9/11** Martin McQuillan, 2009 In this book Martin McQuillan brings Derrida s writing into the immediate vicinity of geo politics today from the Kosovan conflict to the war in Iraq The chapters in this book follow both Derrida s writing since *Specters of Marx* and the present political scene through the former Yugoslavia and Afghanistan to Palestine and Baghdad His textual activism is as impatient with the universal gestures of philosophy as it is with the complacency and reductionism of policy makers and activists alike This work records a response to the war on thinking that has marked western discourse since 9 11
