### Comments:

1. This description of our standard workstation is representative of typical materials and processes.
2. Panel frames are painted using a powder coating process, which filters and re-uses up to 99% of the over spray.
3. Edge finish sample on worksurface is based on PVC.
4. Fabric sample on panel is based on 100% recycled polyester.
5. Product recyclability depends on local programs (manufacturing facility in Toronto, Ontario, Canada).
6. Packaging used is corrugated cardboard and biodegradable plastic bags.
7. Global Contract Inc. encourages the use of carts, blanket wrap and wood skids (made from in house wood scraps) to minimize packaging waste where appropriate.

## **Material Environmental Data Sheets:**

*Material Environmental Data Sheets* Karel Verschueren, 1996-09-25 *Material Environmental Data Sheets* responds to the needs of small enterprises who may lack the sophisticated systems needed to interpret raw data on chemicals but must acknowledge consumer pressures and government regulations with respect to the very limited materials they employ Karel Verschueren provides datasheets on 300 chemicals including volatiles in 3 ring binder format presenting some 80% of those common in industrial use Each year sheets on 100 new chemicals will be available as well as updates on the original chemical information

*Materials and the Environment* Michael F. Ashby, 2020-12-21 *Materials and the Environment* Third Edition discusses the history of our increasing dependence on materials and energy The book explains where materials come from and how they are used in a variety of industries along with their lifecycle and relationship to energy and carbon In addition it covers the controls and economic instruments that hinder the use of engineering materials considers sustainability from a materials perspective and highlights the importance of low carbon power and material efficiency Further sections cover the mechanical thermal and electrical properties of engineering metals polymers ceramics composites and natural materials and their relationship to environmental issues This book is intended for instructors and students of Engineering Materials Science and Industrial Product Design as well as for materials engineers and product designers who need to consider the environmental implications of materials in their designs Introduces methods and tools for thinking about and designing with materials within the context of their role in products and the environmental consequences Contains numerous case studies showing how the methods discussed in the book can be applied to real world situations Includes full color datasheets for dozens of the most widely used materials featuring such environmentally relevant information as their annual production and reserves embodied energy and process energies carbon footprints and recycling data

**Environmental Engineers' Handbook, Second Edition** David H.F. Liu, Bela G. Liptak, 1997-08-29 Protecting the global environment is a single minded goal for all of us Environmental engineers take this goal to task meeting the needs of society with technical innovations Revised expanded and fully updated to meet the needs of today's engineer working in industry or the public sector the *Environmental Engineers Handbook* Second Edition is a single source of current information It covers in depth the interrelated factors and principles that affect our environment and how we have dealt with them in the past are dealing with them today and how we will deal with them in the future This stellar reference addresses the ongoing global transition in cleaning up the remains of abandoned technology the prevention of pollution created by existing technology and the design of future zero emission technology B la G Liptak speaks on Post Oil Energy Technology on the AT T Tech Channel

**Environmental Engineers' Handbook on CD-ROM** David H.F. Liu, Bela G. Liptak, 1999-02-26 This CRCnetBASE version of the best selling *Environmental Engineers Handbook* contains all of the revised expanded and updated information of the second edition and more The fully searchable CD ROM offers virtually instant access to all of the interrelated factors

and principles affecting our environment as well as how the government and the industry must deal with it It addresses the ongoing global transition in cleaning up the remains of abandoned technology the prevention of pollution created by existing technology The Environmental Engineers Handbook on CD ROM provides daily problem solving tools and information on state of the art technologies for the future The technology and specific equipment used in environmental control and clean up is included for those professionals in need of detailed technical information Because analytical results are an essential part of any environmental study analytical methods used in environmental analysis are presented as well Data is clearly presented in tables and schematic diagrams that illustrate the technology and techniques used in different areas B la G Lipt k speaks on Post Oil Energy Technology on the AT T Tech Channel

*The National Toxicology Program's Chemical Database* Lawrence H. Keith, Douglas B. Walters, 1991-12-31 This database provides a vast amount of information about potentially toxic chemicals to regulatory and research agencies consultants academics and libraries The National Toxicology Program s Chemical Database consists of eight volumes containing 50 fields that present detailed information on 2 270 different chemicals The data is obtained from the literature or experimentally determined Each compound is listed in every volume even when there is no information available for it in some volumes Information in the NTP database was gathered and updated as compounds were used throughout a 12 year period from 1979 to 1991 Throughout the eight volumes the primary chemical name and the Chemical Abstracts Service Registry Number CAS No remain constant and all 2 270 chemicals are listed alphabetically in each volume The NTP database can be sold as a set or individually Each volume consists of one 3 1 2 and two 5 1 4 diskettes in addition to a 64 page manual that describes how to use the software Diskettes will run on IBM or IBM compatible equipment with DOS 2 0 and higher 640K internal memory RAM and a hard drive with at least 2 17MB of available disk space Use the eight volumes together to get the full benefit of the NTP Chemical Repository Database or select only those volumes that contain the information you need and use them as stand alone databases Each volume consists of one 3 1 2 and two 5 1 4 diskettes that will run on IBM or IBM compatible hardware

*Guide to Information Sources in Engineering* Charles Lord, 2000-08-15 The only source that focuses exclusively on engineering and technology this important guide maps the dynamic and changing field of information sources published for engineers in recent years Lord highlights basic perspectives access tools and English language resources directories encyclopedias yearbooks dictionaries databases indexes libraries buyer s guides Internet resources and more Substantial emphasis is placed on digital resources The author also discusses how engineers and scientists use information the culture and generation of scientific information different types of engineering information and the tools and resources you need to locate and access that material Other sections describe regulations standards and specifications government resources professional and trade associations and education and career resources Engineers scientists librarians and other information professionals working with engineering and technology information will welcome this research
