Material Culture Victor Buchli, 2004 Publisher description **Material culture : critical concepts in the social sciences. Vol. 3 : Pt. 1** Victor Buchli, 2004 Publisher description **Material Culture** Victor Buchli, Material culture : critical concepts in the social sciences. Vol. 1 : Pt. 2 Victor Buchli, 2004 Publisher description An Anthropology of Absence Mikkel Bille, Frida Hastrup, Tim Flohr Soerensen, 2010-03-24 In studying material culture anthropologists and archaeologists use meaningful physical objects from a culture to help understand the less tangible aspects of that culture such as societal structure rituals and values What happens when these objects are destroyed by war natural disaster or other historical events Through detailed explanations of eleven international case studies the contributions reveal that the absence of objects can be just as telling as their presence while the objects created to memorialize a loss also have important cultural implications Covering everything from organ donation to funerary rituals to prisoners of war The Archaeology of Absence is written at an important intersection of archaeological and anthropological study Divided into three sections this volume uses the presence of absence to compare cultural perceptions of material qualities and created memory the mind body connection temporality and death This rich text provides a strong theoretical framework for anthropologists and archaeologists studying material culture

The Social Life of Materials Adam Drazin, Susanne Küchler, 2020-06-08 Materials play a central role in society Beyond the physical and chemical properties of materials their cultural properties have often been overlooked in anthropological studies finished products have been perceived as social yet the materials which comprise them are considered raw or natural The Social Life of Materials proposes a new perspective in this interdisciplinary field Diverting attention from the consumption of objects the book looks towards the properties of materials and how these exist through many transformations in a variety of cultural contexts Human societies have always worked with materials However the customs and traditions surrounding this differ according to the place the time and the material itself Whether or not the material is man made materials are defined by social intervention Today these constitute one of the most exciting areas of global scientific research and innovation harboring the potential to act as key vehicles of change in the world But this materials revolution has complex social implications Smart materials are designed to anticipate our actions and needs yet we are increasingly unable to apprehend the composite materials which comprise new products Bringing together ethnographic studies of cultures from around the world this collection explores the significance of materials by moving beyond questions of what may be created from them Instead the text argues that the materials themselves represent a shifting ground around which relationships identities and powers are constantly formed and dissolved in the act of making and remaking

Material Culture: History and scope of material culture studies, 2004 *Material Culture* Victor Buchli, 2004 Publisher description **Buying into the World of Goods** Ann Smart Martin, 2010-08-01 Cowinner 2008 Fred Kniffen Book Award Pioneer America Society Association for the Preservation of Landscapes and Artifacts How did people living on

the early American frontier discover and then become a part of the market economy How do their purchases and their choices revise our understanding of the market revolution and the emerging consumer ethos Ann Smart Martin provides answers to these questions by examining the texture of trade on the edge of the upper Shenandoah Valley between 1760 and 1810 Reconstructing the world of one country merchant John Hook Martin reveals how the acquisition of consumer goods created and validated a set of ideas about taste fashion and lifestyle in a particular place at a particular time Her analysis of Hook s account ledger illuminates the everyday wants transactions and tensions recorded within and brings some of Hook s customers to life a planter looking for just the right clock a farmer in search of nails a young woman and her friends out shopping on their own and a slave woman choosing a looking glass This innovative approach melds fascinating narratives with sophisticated analysis of material culture to distill large abstract social and economic systems into intimate triangulations among merchants customers and objects Martin finds that objects not only reflect culture they are the means to create it

Contradictions of Archaeological Theory Sandra Wallace, 2012-01-30 Is current archaeological theory stuck at an impasse Sandra Wallace argues that archaeological theory has become mired as a result of logical and ontological contradictions By showing that these contradictions are a result of common underlying philosophical assumptions and fallacies this book is able to show how a fresh approach to this discipline is necessary to resolve them even if this requires re examining some of the tenants of orthodox archaeology This fresh approach is achieved by using Critical Realism as an under labourer to philosophically evaluate archaeological theory Starting by assessing the historical impact of philosophy on the discipline and then looking at the current relationship between archaeology and the ontology of the material this book facilitates the construction of discipline specific theory by archaeologists The result is an approach to archaeology that allows both students and practitioners to free themselves from endemic contradictions and re discover their approach to archaeological theory

Visuality/Materiality Divya P. Tolia-Kelly, 2016-02-11 Two of the key theoretical shifts over the past two decades of critical work have been the visual turn and the material turn This book argues that these hitherto distinct fields should be understood as in continual dialogue and co constitution and focuses on reconceptualising the visual as an embodied material and often politically charged realm This edited volume elaborates this conceptual argument through a series of contemporary case studies drawn from the disciplines of Architecture Sociology Media Studies Geography and Cultural Studies The case studies included are paired around four themes consumption translation practice and ethics As well as exploring the bringing together of visibility and materiality studies the contributors raise questions of social identity and social critique and also focus on the ethics of material visualities

Pumpkin Cindy Ott, 2012-12-01 Why do so many Americans drive for miles each autumn to buy a vegetable that they are unlikely to eat While most people around the world eat pumpkin throughout the year North Americans reserve it for holiday pies and other desserts that celebrate the harvest season and the rural past They decorate their houses with pumpkins every autumn and welcome Halloween trick or treaters with elaborately carved jack o lanterns Towns hold annual pumpkin festivals featuring giant pumpkins and carving contests even though few have any historic ties to the crop In this fascinating cultural and

natural history Cindy Ott tells the story of the pumpkin Beginning with the myth of the first Thanksgiving she shows how Americans have used the pumpkin to fulfill their desire to maintain connections to nature and to the family farm of lore and ironically how small farms and rural communities have been revitalized in the process And while the pumpkin has inspired American myths and traditions the pumpkin itself has changed because of the ways people have perceived valued and used it Pumpkin is a smart and lively study of the deep meanings hidden in common things and their power to make profound changes in the world around us
