## **Material Remains Of The Megiddo Cult:**

**Material Remains of the Megiddo Cult** Herbert Gordon May, Robert Martin Engberg, 1935 *A Primer of Old Testament Archaeology* Hendricus Jacobus Franken, C. A. Franken-Battershill, **The Fabric of History** Diana Vikander Edelman, 1991-09-01 Six scholars explore the nature of history and historical reconstruction and the place of history within biblical studies The uncritical use of both text and artifact that continues to dominate histories of Israel and Judah testifies to the need for a wider grassroots awareness of the basic issues involved in doing history as a biblical scholar A growing number of scholars are questioning the theoretical underpinnings of the main schools of research and are calling for an approach that makes a more critical evaluation of both textual and artifactual material before using it in historical reconstruction These essays were first presented at the annual SBL ASOR meeting in 1989 in a symposium entitled The Role of History and Archaeology in Biblical Studies **The Archaeology of Israelite Samaria. Volume 1: Early Iron Age through the Ninth Century BCE** Ron E. Tappy, 2018-08-14 Preliminary Material Introduction Pottery Period 1 Traces of The Earliest Iron age Occupation Pottery Period 2 Evidence for a Distinct Historical Period Pottery Period 3 Filling The Gap Material Remains From the House of Omri and the Reign of Jehu Conclusions Excursus I A Cistern Deposit Assigned to Pottery Period 1 at Samaria Excursus II Comparative Stratigraphy and Loci Establishing a Ceramic Control Group Appendices Bibliography General Index **The Cult of Asherah in Ancient Israel and Judah** Judith M. Hadley, 2000-06-09 Recent archaeological discoveries have encouraged scholars to reinvestigate the Israelite religion In this book Judith Hadley uses these discoveries alongside biblical material and non biblical inscriptions to examine the evidence for the worship of Asherah as the partner of God in the Bible By investigating the Khirbet al Qom and Kuntillet Ajrud inscriptions for example where the phrase Yahweh and his Asherah is frequently in evidence the author asks what the ancient Israelites meant by this how they construed the relationship between Yahweh and Asherah and whether in fact the term actually referred to an object of worship rather than to a goddess The author also evaluates more recent scholarship to substantiate her conclusions This is a detailed and brilliant study which promises to make a significant contribution to the ongoing debate about the exact nature of Asherah and her significance in pre exilic Israel and Judah **The Good And Evil Serpent** James H. Charlesworth, 2010-01-01 The serpent of ancient times was more often associated with positive attributes like healing and eternal life than it was with negative meanings This groundbreaking book explores in plentiful detail the symbol of the serpent from 40 000 BCE to the present and from diverse regions in the world In doing so it emphasizes the creativity of the biblical authors use of symbols and argues that we must today reexamine our own archetypal conceptions with comparable creativity From publisher description **The Archaeology of Israelite Samaria. Volume 2: The Eighth Century BCE** Ron E. Tappy, 2018-08-14 In this comprehensive study Professor Tappy rounds out the study of the Iron Age strata at Samaria that he began with the first volume of this work published in 1992 The Early Iron Age through the Ninth

Century HSS 44 Tappy's goal is to provide a thorough going analysis of prior archaeologists work at this important north Israelite site with a view to providing a complete reconstruction of the depositional history of the site during the Iron Age The two volumes together are important not only for the history of the city of Samaria but for the archaeological sequences of the Iron Age in northern Israel **DAN IV - The Iron Age I Settlement** David Ilan,2020-04-25 In this comprehensive final report David Ilan and 12 other contributing authors present the rich finds from the Iron Age I circa 1200-950 BCE levels at Tel Dan gleaned in the course of Avraham Biran's 1966-1999 excavations at the site The architecture ceramics metal flint bone and ground stone objects and ecofacts all contribute to the portrayal of a cosmopolitan society that thrived initially under Egyptian imperial rule subsequently forging its own way with the departure of Egyptian hegemony The early Iron Age levels at Tel Dan show material evidence for the presence of local peoples Egyptians Cypriots Aegeans and Syrians who together negotiated a new identity as Danites *Mekal, the God of Beth-Shan* Thomas L. Thompson,2024-09-16

**Ägyptisches Kulturgut im phönikischen und punischen Sardinien (2 vols.)** Günther Hölbl,2015-08-27 From the early part of the first century BC Egyptian cultural artefacts spread to an increasing degree into Palestine and Syria and via the Greeks and Phoenicians into the Greek Italian and Western Phoenician spheres Following a presentation of the Near Eastern background and a survey of Sardinian findspots this work lists the types of monument found on Sardinia from the 8th c to the Roman period In the case of both amulets gods in human and animal form and scarabs made of steatite and faience an attempt is made using a carefully developed typology both of material and form and other statistical criteria to derive a characterisation of groups of differing origin Egyptian Eastern Phoenician Punic These objects reflect the expansion and adaptation of popular Egyptian magic Even the Egyptian motifs on hard stone Punic scarabs and precious metal artefacts have a religious significance which is very closely related to Egyptian concepts In the same way the Egyptian elements on Punic steles and portions of architecture underline their sacral character This study pursues methodological goals using evidence from the whole of Mediterranean area *Iron Age Terracotta Figurines from the Southern Levant in Context* Erin D. Darby,Izaak J. de Hulster,2021-10-25 This interdisciplinary volume is a one stop location for the most up to date scholarship on Southern Levantine figurines in the Iron Age The essays address terracotta figurines attested in the Southern Levant from the Iron Age through the Persian Period 1200-333 BCE The volume deals with the iconography typology and find context of female male animal and furniture figurines and discusses their production appearance and provenance including their identification and religious functions While giving priority to figurines originating from Phoenicia Philistia Jordan and Israel Palestine the volume explores the influences of Egyptian Anatolian Mesopotamian and Mediterranean particularly Cypriot iconography on Levantine pictorial material **Jaredites & Manassites** Robert F. Smith,2022-12-28 This book explores the literate and advanced cultures of two very separate groups in the Book of Mormon 1 the Jaredites described in the book of Ether and 2 the members of tribal Manasseh who dominate the remainder of the Book of Mormon The first group

flourished during the millennia before the arrival of the second group in a nearby area and became extinct as a civilization not long after the arrival of that second group Within the New World only one complex culture arose which was literate built great cities and had a large population namely the Olmec of southern Mexico the mother culture of the five subsequent advanced cultures of Mesoamerica This book demonstrates how the Mesopotamian Jaredites brought with them a Sumero Akkadian culture to the New World The linguistics of Sumero Akkadian are not only found systematically within the Jaredite onomasticon but a comparison of Sumero Akkadian with reconstructed ancient Olmec Proto Mixe Zoque strongly suggests the ultimate origin of that people in Mesopotamia at least 5 thousand years ago In the second section of the book an offshoot of tribal Manasseh Clan Lehi demonstrates its pervasive influence through an onomasticon almost exclusively showing derivation from Manassite names known from the Bible and archeology and which are collocated geographically with each other and with a set of names known biblically to be associated with transjordanian tribes and southern areas such as Midian where Clan Lehi first goes to make good its escape from Judah     *Mekal* Henry O. Thompson,1970     The Water System of Gibeon James Bennett Pritchard,1961-01-29 University Museum Monograph 22     **The Quarterly of the Department of Antiquities in Palestine** Palestine. Department of Antiquities,1935     *Drums, Women, and Goddesses* Sarit Paz,2007 Updated version of author s thesis master s Tel Aviv University 2003     **Interpreting Judean Pillar Figurines** Erin Darby,2014-09-11 Judean Pillar Figurines regularly appear in discussions about Israelite religion monotheism and female practice Erin Darby uses Near Eastern texts iconography the Hebrew Bible and the archeology of Jerusalem to explore figurine function the gender of figurine users and the relationship between Judean figurines and the Assyrian Empire Back cover     The Pillars of the First Temple (1 Kgs 7,15-22) Daniel Prokop,2020-04-27 In this work Daniel Prokop examines the description of the pillars in 1 Kgs 7 15 22 He analyzes extrabiblical parallels Greek and Hebrew textual witnesses as well as iconography and archaeological finds and asks about the symbolic meaning of the columns     The Wide Lens in Archaeology Allan Gilbert,Justin Lev-Tov,Paula Wapnish,2017-06-01 This book honors the memory of Brian Hesse a scholar of Near Eastern archaeology a writer of alliterative and punned publication titles and an accomplished amateur photographer Hesse specialized in zooarchaeology but he influenced a wider range of excavators and ancient historians with his broad interpretive reach He spent much of his career analyzing faunal materials from different countries in the Middle East including Iran Yemen and Israel and his publications covered themes particular to animal bone studies such as domestication ancient market economics as well as broader themes such as determining ethnicity in archaeology The essays in this volume reflect the breadth of his interests Most chapters share an Old World geographic setting focusing either on Europe or the Middle East The topics are diverse with the majority discussing animal bones as was Hesse s specialization but some take a nonfaunal perspective related to the problems with which Hesse grappled The volume is also broad in temporal scope ranging from Neolithic Iran to early Medieval England and it addresses theoretical matters as well as methodological

innovations including taphonomy and the history of computers in zooarchaeology Several of the essays are direct revisits to inspirations from or extensions of Hesse s own research All the contributions reflect his intense interest in social questions about antiquity the theme of social archaeology informed much of Brian Hesse s thinking and it is why his work made such an impact on those working outside his own disciplinary research      **The Religions of Ancient Israel** Ziony Zevit,2003-06-01

This is the most far reaching interdisciplinary investigation into the religion of ancient Israel ever attempted The author draws on textual readings archaeological and historical data and epigraphy to determine what is known about the Israelite religions during the Iron Age 1200 586 BCE The evidence is synthesized within the structure of an Israelite worldview and ethos involving kin tribes land traditional ways and places of worship and a national deity Professor Zevit has originated this interpretive matrix through insights ideas and models developed in the academic study of religion and history within the context of the humanities He is strikingly original for instance in his contention that much of the Psalter was composed in praise of deities other than Yahweh Through his book the author has set a precedent which should encourage dialogue and cooperative study between all ancient historians and archaeologists but particularly between Iron Age archaeologists and biblical scholars The work challenges many conclusions of previous scholarship about the nature of the Israelites religion
