Education ICMEs under the auspices of the International Commission on Mathematical Instruction are held every four years  
Previous Congresses have been held in France Lyons England Exeter the Federal Republic of Germany Karlsruhe and the  
United States of America Berkeley The Fifth International Congress on Mathematical Education ICME 5 was held in Adelaide  
Australia from August 24 30 1984 More than 1800 participants from over 70 countries participated in the Congress while  
some additional 200 people attended social functions and excursions The program for ICME 5 was planned and structured by  
an International Program Committee and implemented by the National Program Committee in Australia For the main body of  
the program Chief Organisers assisted by Australian Coordinators were invited to plan and prepare the individual  
components of the program which addressed a wide range of topics and interest areas Each of these teams involved many  
individuals from around the world in the detailed planning and preparation of the working sessions for their area of program  
responsibility For the actual working sessions at the Congress the smallest group had some 60 members while the largest  
had well over 300 In addition to the working sessions there were three major plenary addresses several specially invited  
presentations and over 420 individual papers in the form of short communications either as posters or brief talks      Striving

Maria Teresa Tatto, John Schille, Sharon L. Senk, 2012 TEDS M represents the first large scale international comparative  
study of the preparation of primary and lower secondary specifically mathematics teachers IEA considers TEDS M a  
landmark study in terms of its examination within both national and international contexts of country level policies relating to  
the preparation of future teachers of mathematics The authors of this report look closely at how these policies are played out  
in the participating countries varied teacher education programs and instructional practices and speculate on the  
implications of these programs and practices for student learning in schools They also suggest how TEDS M might contribute  
to ongoing research into teacher education      Books and Pamphlets, Including Serials and Contributions to Periodicals
