Mediterranean Cities Historical Perspectives:

Mediterranean Cities Robert L. Hohlfelder,Irad Malkin,2015-12-22 First published in 1988 This is a collection of works where the Mediterranean provides the context for all the cities which appear in this volume all are or have been port cities and as such their harbours played a significant role in shaping their histories In essence the question of interaction between man and sea is one of the influence of the maritime position on the human communities constituting the Mediterranean cities the connections between them and the link of each city with its hinterland as well as the influence of its position on the city s internal development and character

Mediterranean Cities Irad Malkin,Robert L. Hohlfelder,2016 *Harbours of Byzantium* Alkiviadis Ginalis,2024-07-25 Beyond general approaches to the study of Byzantine harbour archaeology contributions in this volume offer a representative picture of harbour activities across the historical and geographical boundaries of the Byzantine Empire providing the basis for future comparative research on a local regional and supra regional level

African Seaports and Maritime Economics in Historical Perspective Ayodeji Olukoju,Daniel Castillo Hidalgo,2020-07-14 This book updates African maritime economic history to analyse the influence of seaports and seaborne trade processes of urbanization and development and the impact of globalization on port evolution within the different regions of Africa It succeeds the seminal collection edited by Hoyle Hilling which was conceived during a phase of sustained economic growth on the African continent and builds on a similar trend where African economies have experienced processes of economic growth and the relative improvement of welfare conditions It provides valuable insights on port evolution and the way the maritime sector has impacted the hinterland and the regional economic structures of the affected countries including the several and varied agents involved in these activities *African Seaports and Maritime Economics in Historical Perspective* will be useful for economists historians and geographers interested in African and maritime issues as well as policy makers interested in path dependence and long term analysis

Comprehending Antisemitism through the Ages: A Historical Perspective Armin Lange,Kerstin Mayerhofer,Dina Porat,Lawrence H. Schiffman,2021-08-23 This volume traces the history of antisemitism from antiquity through contemporary manifestations of the discrimination of Jews It documents the religious sociological political and economic contexts in which antisemitism thrived and thrives and shows how such circumstances served as support and reinforcement for a curtailment of the Jews social status The volume sheds light on historical processes of discrimination and identifies them as a key factor in the contemporary and future fight against antisemitism

Venice, the Ottomans, and the Sea (1381-1517) Stefan K. Stantchev,2025-02-28 The later Middle Ages and the early modern period were important and overlapping historical moments for both Venice and the Ottoman Empire yet the two both the periods themselves and the Republic and Empire more generally have often been considered in isolation Seeking to understand better this interrelated transition *Venice the Ottomans and the Sea* offers for the first time an integrated view of trade and sea power that transcends the overworn paradigms of trade the Ottoman territories as a land of

opportunity and crusade the Ottomans as a military threat to uncover the complex interplay between economic structures and political decision making that shaped the period between the end of Venice's most devastating war with Genoa in 1381 and the Ottoman conquest of Mamluk Egypt in 1517 Drawing on the full range of available Venetian sources as well as Ottoman Genoese Florentine and papal materials the book clarifies the trajectory of Venice's trade with the Ottomans the evolution of Venetian defensive measures in the Balkans and of Venetian naval warfare Venice's attempt to aid the Byzantine Empire in 1453 the dynamics of the Venetian Ottoman war of 1463-79 and the interconnections between Venice's social and political structures and its Italian and Ottoman politics In so doing it offers a comprehensive analysis of Venetian Ottoman relations ranging from macro to micro scales and across matters of economic political and military history From a broader Mediterranean perspective this highlights the intersections of political social economic and technological factors behind accelerated historical change in the late medieval and early modern periods and offers a case study in the ways in which a Mediterranean elite maintained its privileged position over time

Jewish Travel in Antiquity Catherine Hezser, 2011 This book provides the first comprehensive study of Jewish travel and mobility in Hellenistic and Roman times based on a critical analysis of Jewish Graeco Roman and early Christian literary epigraphic and archaeological sources and a social historical evaluation of the material Catherine Hezser shows that certain segments of ancient Jewish society were quite mobile Mobility seems to have increased in the later Roman period when an extensive road system facilitated travel within the province of Syria Palestine and the neighbouring Middle Eastern regions Second Temple Judaism was centralized with Jerusalem as its central space and seat of priestly authority In post 70 rabbinic Judaism on the other hand connections between rabbis could be established through mutual visits and second and third degree contacts only Mobility formed the basis of the establishment of a decentralized rabbinic network in Palestine and Babylonia in late antiquity Numerous narrative and halakhic traditions indicate the importance of mobility for communication and the exchange of knowledge amongst rabbis It is argued that the rabbis who were most mobile sat at the nodal points of the rabbinic network and elicited the largest amount of influence They would have combined business travel with scholarly exchange Scholars journeys between Palestine and Babylonia are viewed within the wider context of Rome and Persia's economic and cultural exchange in which Jews just like Christians may have played the role of intermediaries

Architectural Technicities Stavros Kousoulas, 2022-07-15 This book poses a simple question how is this architecture possible To respond it will embark on a captivating journey through many singular architectural concepts The entasis of Doric columns Ulysses and desert islands will outline an architectural act that moves beyond representation A ferryman who stutters will present two different types of architectural minds A stilus and a theory of signs will reconsider the ways architects can develop a particular kind of intuition while architectural technicities will bring forth a membranous and territorial understanding of architecture Finally as a melody that sings itself a larval architecture will be introduced bringing space and time together Assisting this endeavour the thought of philosophers

like Gilles Deleuze Felix Guattari Gilbert Simondon and Raymond Ruyer will meet the latest developments in fields like affect theory cognitive sciences environmental studies and neuroanthropology Eventually by the end of this book the readers from architecture students and researchers to academics and practitioners with an interest in theory will have been exposed to a comprehensive and original philosophy of architecture and the built environment **Uncommon Dominion** Sally

McKee,2010-11-24 From 1211 until its loss to the Ottomans in 1669 the Greek island we know as Crete was the Venetian colony of Candia Ruled by a paid civil service fully accountable to the Venetian Senate Candia was distinct from nearly every other colony of the medieval period for the unprecedented degree to which the colonial power was involved in its governance Yet for Sally McKee the importance of the Cretan colony only begins with the anomalous manner of the Venetian state's rule **Uncommon Dominion** tells the story of Venetian Crete the home of two recognizably distinct ethnic communities the Latins and the Greeks The application of Venetian law to the colony made it possible for the colonial power to create and maintain a fiction of ethnic distinctness The Greeks were subordinate to the Latins economically politically and juridically yet within a century of Venetian colonization the ethnic differences between Latin and Greek Cretans in daily material life were significantly blurred Members of the groups intermarried many of them learned each other's language and some even chose to worship by the rites of the other's church Holding up ample evidence of acculturation and miscegenation by the colony's inhabitants McKee uncovers the colonial forces that promoted the persistence of ethnic labeling despite the lack of any clear demarcation between the two predominant communities As McKee argues the concept of ethnic identity was largely determined by gender religion and social status especially by the Latin and Greek elites in their complex and frequently antagonistic social relationships Drawing expertly from notarial and court records as well as legislative and literary sources **Uncommon Dominion** offers a unique study of ethnicity in the medieval and early modern periods Students and scholars in medieval colonial and postcolonial studies will find much of use in studying this remarkable colonial experiment **Ancient**

Greece and Rome Keith Hopwood,1995 Sir Thomas Fairfax not Oliver Cromwell was creator and commander of Parliament's New Model Army from 1645 to 1650 Although Fairfax emerged as England's most successful commander of the 1640s this book challenges the orthodoxy that he was purely a military figure showing how he was not apolitical or disinterested in politics The book combines narrative and thematic approaches to explore the wider issues of popular allegiance puritan religion concepts of honour image reputation memory gender literature and Fairfax's relationship with Cromwell **Black Tom** delivers a groundbreaking examination of the transformative experience of the English revolution from the viewpoint of one of its leading yet most neglected participants It is the first modern academic study of Fairfax making it essential reading for university students as well as historians of the seventeenth century Its accessible style will appeal to a wider audience of those interested in the civil wars and interregnum more generally **Xenocracy** Sakis Gekas,2016-12-01 Of the many European territorial reconfigurations that followed the wars of the early nineteenth century the Ionian State remains among

the least understood Xenocracy offers a much needed account of the region during its half century as a Protectorate of Great Britain a period that embodied all of the contradictions of British colonialism A middle class of merchants lawyers and state officials embraced and promoted a liberal modernization project Yet despite the improvements experienced by many Ionians the deterioration of state finances led to divisions along class lines and presented a significant threat to social stability Sakis Gekas shows that the impasse engendered de pendency upon and ambivalence toward Western Europe anticipating the neocolonial condition with which the Greek nation struggles even today

Europe and Asia beyond East and West

Gerard Delanty,2006-10-03 This major new book tackles key questions on Europe in the context of shifting parameters of East and West The contributors sociologists anthropologists philosophers and historians show from a variety of different perspectives that the conventional equation of Europe with the West must be questioned Featuring four thematically organized chapters the book looks at a post Western world Asia in Europe encounters in history between Europe and Asia otherness in Europe and Asia Exploring new expressions of European self understanding in a way that challenges recent ideological notions of the clash of civilizations this outstanding work draws on recent scholarship that shows how Europe and Asia were mutually linked in history and in contemporary perspective It argues that as a result of current developments and the changing geopolitical context both Europe and Asia have much in common and that it is possible to speak of cosmopolitan links rather than clashes This book will be of great value to students and researchers in the fields of sociology European politics and history and cultural theory
