Tracy,1996 Volume one of a two volume set containing essays on the history of Europe between 1400 and 1600 This volume focuses on the people the lands and the religious and political structures that affected this historical period **Age of Renaissance and Reformation** Charles G. Nauert,1981-09-10 Originally published by Dryden Press in 1977 this volume examines the period from 1300 to the end of the Thirty Years War in 1648 an age of disorganization and turmoil though also one of high achievement It was an era that was somewhat grandiosely and quite inaccurately described as a rebirth of civilization a Renaissance and in religious matters a Reformation Continuity and Change Robert James Bast,Andrew Colin Gow,Heiko Augustinus Oberman,2000 Offered here for the first time the essays represent the most recent formulations of a wide variety of specialists within their own areas of expertise while collectively contributing to the current historiographical debates about continuity and discontinuity between the Middle Ages and the Early Modern era **Renaissance and Reformation** William Roscoe Estep,1986 Readable and informative this major text in Reformation history is a detailed exploration of the many facets of the Reformation especially its relationship to the Renaissance Estep pays particular attention to key individuals of the period including Wycliffe Huss Erasmus Luther Zwingli and Calvin Illustrated with maps and pictures **Cultural Reformations** Brian Cummings,James Simpson,2010-06-24 The original essays in Oxford Twenty First Century Approaches to Literature mean to provoke rather than reassure to challenge rather than codify Instead of summarizing existing knowledge scholars working in the field aim at opening fresh discussion instead of emphasizing settled consensus

they direct their readers to areas of enlivened and unresolved debate The deepest periodic division in English literary history has been between the Medieval and the Early Modern not least because the cultural investments in maintaining that division are exceptionally powerful Narratives of national and religious identity and freedom of individual liberties of the history of education and scholarship of reading or the history of the book of the very possibility of persuasive historical consciousness itself each of these narratives and more is motivated by positing a powerful break around 1500 None of the claims for a profound historical and cultural break at the turn of the fifteenth into the sixteenth centuries is negligible The very habit of working within those periodic bounds either Medieval or Early Modern tends however simultaneously to affirm and to ignore the rupture It affirms the rupture by staying within standard periodic bounds but it ignores it by never examining the rupture itself The moment of profound change is either for medievalists just over an unexplored horizon or for Early Modernists a zero point behind which more penetrating examination is unnecessary That situation is now rapidly changing Scholars are building bridges that link previously insular areas Both periods are starting to look different in dialogue with each other The change underway has yet to find collected voices behind it Cultural Reformations volume aims to provide those voices It will give focus authority and drive to a new area Handbook of European History, 1400-1600: Structures and assertions v. 2.
