Lessons from a Complex Child Ellen Woodbriar, 2020-09-21 At twenty nine months my son Jackson had met all of his developmental milestones He spoke in full sentences knew his ABCs and colors had well developed fine and gross motor skills was affectionate had perfect eye contact loved to talk and was extremely social Six months later just after Jackson s third birthday neurologists couldn t rule out that he might have a malignant form of epilepsy some form of neurodegenerative disorder have regressive encephalopathy be autistic or have a pervasive developmental disorder PDD What could possibly have caused the regression he experienced over a four month period the irritability he was exhibiting the sixty to eighty seizures he was enduring each day and the autistic like behaviors he had developed Although I m not a physician and don t work in the healthcare profession I have lived through the regression and recovery of my own child This experience has led me to form the opinion that potentially too many children are being put on the autism spectrum Some children like Jackson with ASD like symptoms are not autistic and therefore are not receiving the full breadth of intervention that could potentially help them recover Do I have proof of this No because from my experience and up until this point there has not been enough research that the medical profession recognizes as reliable made available to the public or to parents like me to identify the root cause of some symptoms The purpose of my telling this story is not to give anyone or any family false hope but with good reason to encourage you to leave no stone unturned in treating a medically complex child It takes passionate determination and tenacity to find underlying and seemingly hidden causes of complex illnesses and to see the journey through to recovery when possible

Stop Medicating, Start Parenting David B. Stein, 2004 Stein offers a powerful set of tools for parents of difficult teens employing cognitive behavioral and drug free solutions

The ADHD Book Beth Ann

Hill, James Van Haren, 2005-09-22 Many experts say that conservatively well over six million children have attention deficit hyperactivity disorder. With the mounting pressure placed on parents to pursue a diagnosis and medicate hyperactive children, the urgency of life-changing decisions can weigh heavily on the whole family. Conflicting advice bombards parents from all sides, often leaving families more confused and anxious than before. *The AD/HD Book* seeks to quell fears and rationally addresses nearly one hundred common questions and concerns to help parents make sense of the information chaos. Beth Ann Hill herself, a mother and educator of AD/HD children, clearly explains the basics of AD/HD and lays out its complexities. She logically takes parents from symptoms, diagnoses, and tests to medication, a treatment strategy designed to combine medical treatment and special parenting techniques to break through problem behaviors. Whether readers browse through the question and answer format or read from start to finish, they will come to understand the biological causes of AD/HD, get the facts on prescription drugs, cope with AD/HD's emotional impact on family and friends, find comfort in real-life examples of challenges and their solutions. With the help of pediatric AD/HD specialist Dr. James Van Haren, Hill also develops unique strategies for teaching social and coping skills to children and for having fun in the process. She includes worksheets, charts, daily planners, and more to help kids grow into adulthood with the tools to lead successful and productive lives.

Raising and Educating a Deaf Child Marc Marschark, 2009 The second edition of this guide offers a readable comprehensive summary of everything a parent or teacher would want to know about raising and educating a deaf child. It covers topics ranging from what it means to be deaf to the many ways that the environments of home and school can influence a deaf child's chances for success in academic and social circles. The new edition provides expanded coverage of cochlear implants, spoken language, mental health, and educational issues relating to deaf children enrolled in integrated and separate settings. Marschark makes sense of the most current educational and scientific literature and also talks to deaf children, their parents, and deaf adults about what is important to them. *Raising and Educating a Deaf Child* is not a how-to book or one with all the right answers for raising a deaf child; rather, it is a guide through the conflicting suggestions and programs for raising deaf children as well as the likely implications of taking one direction or the other. *Beyond ADHD* Jeff Emmerson, Robert Yehling, 2017-08-31 *Beyond ADHD* weaves Emmerson's personal story of his ADHD diagnosis, exploring along the way the latest medical, scientific, and societal explanations and tools for managing and living with the condition. Including interviews with a number of experts at the forefront of next-generation ADHD diagnostics and treatment, he questions the cookie-cutter way ADHD is commonly diagnosed and treated. Suggesting that the list of symptoms often used to identify ADHD can be attributed to many other disorders and conditions, he explores how and why ADHD diagnoses have increased by 50% in the last ten years. Emmerson advocates a different approach to ADHD, arguing that it should be a diagnosis of exclusion rather than the other way around and that we must look past the label, recognizing that individual symptoms vary and treatment plans should be better tailored to the individual. He examines mental and behavioral issues

from all sides including the possibility that nurturing rather than trying to alter or suppress the active 360 degree mind is a viable way for those diagnosed with ADHD to realize their gifts and lead purposeful lives *Assessment of Childhood Disorders, Fourth Edition* Eric J. Mash, Russell A. Barkley, 2009-12-23 This book has been replaced by *Assessment of Disorders in Childhood and Adolescence Fifth Edition* ISBN 978 1 4625 4363 2 *The Family ADHD Solution* Mark Bertin, 2011-02 The indispensable guide for parents to give their child with ADHD the tools to succeed Publisher description
