Unell,2017-10-16 **Social Workers' Desk Reference** Albert R. Roberts,2009 This is a new edition of the wildly successful everyday reference for social workers Like the first edition it has been crafted with the help of an extensive needs assessment survey of educators and front line practitioners ensuring that it speaks directly to the daily realities of the profession It features 40% new material and a more explicit focus on evidence based practice Your A-Z on Mental Health David Musyimi Ndeti,2016-06-01 According to the World Health Organization mental disorders currently account for about 12 5% of the total burden of disease This is expected to rise to15% by 2020 Whereas the resource rich countries have the ability to address the problems posed by mental disorders this is not the case

with poor developing countries most of them in Africa For most countries South of Sahara and outside South Africa and with the exception of Kenya they have one psychiatrist for more than one million populations The Kenyan situation of one psychiatrist for about half million population is no solace at all Most of the psychiatrists just about 70 in May 2009 are to be found mostly in the main urban areas where many are not involved in day to day clinical work for the general public who cannot afford private treatment Similarly we have a gross deficiency of other health professionals with an interest in mental health The long and short of it is that many people in Africa with mental illness grope in the dark They have no access to appropriately trained mental health workers to turn to They do not even know when they have mental disorders except when they are grossly disturbed when friends and relatives go seeking for the hardly available services It is therefore necessary to impart some knowledge to the general public so that at least they can recognize the more subtle disorders in addition to the severe ones Through knowledge they can have increased awareness and seek help from friends More importantly they will understand themselves The book covers a wide range of topics It includes mental health disorders and how they are generally recognized and managed covering the whole spectrum of life It also includes description of subjects of interest in relation to mental disorders These include rights of people with mental disorders and the spiritual aspects of mental disorders to emphasize the fact there is nothing demonic about mental disorders any more than anything being demonic about malaria People also find themselves in special situations such as the prospects of death and dying either of a relative or friend People also have to deal with emotions as a result of the death of a relative or a friend Of special interest is the person who is facing imminent death of self and knows about it There are also those who actually think of taking away their lives Besides describing those common situations the book also addresses various approaches to the management of various mental health disorders and situations by mental health workers but most importantly what they can do for themselves in their homes and in mitigations against the costs and stigma of mental illness The book has given a chance to people with mental disorders to express themselves It is hoped this book will serve to demystify mental disorders and in the process significantly destigmatize people with mental disorders and in the process allow them together with their relatives to come forward and demand for equal treatment services and rights from the health professionals policy makers and medical insurers This book is a must read for everybody who cares for their mental well being and that of others **You Can be a Better Parent** Bruce Narramore,1979 **A Guide to Parenting in Society** Bogonko Achenchi,2016-12-09 The book aims at helping new parents navigate the maze of raising a family Information contained in the book is from personal experience and research Hopefully it will be valuable to the intended audience *Parenting* June Hunt,2013-05-01 Kids are a lot like kites struggling to become airborne yet need the stability of the string A kite is not designed to be possessively protected inside the home Though separation is painful God designed your role as a parent to prepare your kite for flight But how How can you raise well adjusted children who are confident happy and follow the Lord This Christian book shares biblical advice
