Sypher, William J. Bukoski, 2012-12-06 The history of drug abuse prevention campaigns suggests limitations in producing measurable changes in behavior In the past there was concern over the possibility of such publicity actually encouraging interest in drug use rather than discouraging such behavior Although little or no scientifically sound empirical evidence has been found to support such a view several social science textbooks still refer to this as something of which to be wary Reviews of early research appear to indicate inadequate methods and a lack of rigor in theory testing In recent years however research in communication and its uses in drug abuse prevention has become considerably more sophisticated and communication is being used far more effectively In this book the editors bring together some of the most successful drug abuse prevention researchers in the country along with other experts in this field or in persuasive communication to address use and effects of both mass media and interpersonal strategies This collection illustrates just how far the study of public influence through mass media has come especially regarding such a vital relevant issue as drug abuse prevention **Parents Peers and Pot II**. Marsha Manatt, 1983 **Texas Tough** Robert Perkinson, 2010-03-11 A vivid history of America's biggest baddest prison system and how it came to lead the nation's punitive revolution In the prison business all roads lead to Texas The most locked down state in the nation has led the way in criminal justice severity from assembly line executions to isolation supermaxes from prison privatization to sentencing juveniles as adults Texas Tough a sweeping history of American imprisonment from the days of slavery to the present shows how a plantation based penal system once dismissed as barbaric became the national template Drawing on convict accounts official records and interviews with prisoners guards and lawmakers historian Robert Perkinson reveals the Southern roots of our present day prison colossus While conventional histories emphasize the North's rehabilitative approach he shows how the retributive and profit driven regime of the South ultimately triumphed Most provocatively he argues that just as convict leasing and segregation emerged in response to Reconstruction so today's mass incarceration with its vast racial disparities must be seen as a backlash against civil rights Illuminating for the first time the origins of America's prison juggernaut Texas Tough points toward a more just and humane future Parents, Peers, and Pot II Marsha Keith Schuchard, 1983 This book does not gloss over the conflicts and argument that often surfaced when

antidrug parent groups formed across the country Rather it attempts to chronicle the real life stories the blunt speech energy of personality and resilient humor of parents and teenagers who eventually surmounted the obstacles learned to work out differences and made significant changes in their communities p v preface
