Parents And Mentally Handicapped Children Paperback By Hannam E Hannam:

A Reader's Guide for Parents of Children with Mental, Physical, Or Emotional Disabilities Cory Moore, Kathryn Gorham Morton, Joni B. Mills, 1977 *Disabled Children* Anne Borsay, 2015-10-06 This volume of essays attempts to identify the shared experiences of disabled children and examine the key debates about their care and control The essays follow a chronological progression while focusing on the practices in a number of different countries **Working with Parents** Roy McConkey, 2025-08-05 In the 1980s working with parents in the education and care of their children was more often preached than practised by professionals However recent government committees and legislation both in the UK and USA at the time had repeatedly stressed the importance of parental participation This applied not only to children with special needs but to all children and indeed there was considerable evidence to suggest that parents wanted to be involved and that the child benefited as a result Originally published in 1985 Working with Parents aimed at professionals in training or newly qualified drew together for the first time many examples of how partnership with parents can evolve and be successful It not only gives detailed suggestions for working with parents on a one to one basis but also describes how to handle parent groups organise courses give effective talks and use video The author draws on his wide and well known experience to give specific instances such as his work on language with children with learning disabilities that illustrate general principles The book is written in a lively practical style and should still be of great value to teachers in both special and mainstream education and others such as speech therapists psychologists and community workers This book is a re issue originally published in 1985 The language used is a reflection of its era and no offence is meant by the Publishers to any reader by this re publication Current Catalog National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 *Toys and Play for the Handicapped Child* Barbara Riddick, 2005-08-04 Toys and Play for the Handicapped Child is written by a psychologist who ran the first professionally staffed Toy Library in the UK Her experience enables her to write in practical detail about the role of toys and play both in normal development and in the development of handicapped children It will be found equally useful by parents teachers and other professionals and by those concerned to promote productive play in handicapped and non handicapped children **Paperbacks in Print** , 1980 **Causing Death and Saving Lives** Jonathan Glover, 1990-06-28 The moral problems of abortion infanticide suicide euthanasia capital punishment war and other life or death choices *The Costs of Caring* Sally Baldwin, 2015-12-22 First published in 1985 this book considers the financial consequences of parents and other relatives caring for severely disabled children at home At the time of publication little reliable information was available on the costs incurred by informal carers which this book set to rectify The volume interweaves hard statistical material about money with the detailed personal responses of parents It examines the claim that disablement in a child reduces parents earnings while simultaneously creating an extra expense The author compares the incomes and expenditure patterns of more than 500 families with disabled children and 700 control families of the time

showing that the financial effects of disablement in a child can be far reaching and pervasive This book discusses contemporary policy implications of these findings in a chapter dealing with the rational for compensating families with disabled children and in the final chapter Although the book was original published in 1985 it references issues that are still important today and whilst its main concern is families with disabled children it will also be useful to anyone caring for other kinds of dependent people such as the elderly
