Paris And Its Provinces 1792 18:

The Civilization of Crime Eric Arthur Johnson, Eric H. Monkkonen, 1996 Along with most of the rest of Western culture has crime itself become more civilized This book exposes as myths the beliefs that society has become more violent than it has been in the past and that violence is more likely to occur in cities than in rural areas The product of years of study by scholars from North America and Europe The Civilization of Crime shows that however violent some large cities may be now both rural and urban communities in Sweden Holland England and other countries were far more violent during the late Middle Ages than any cities are today Contributors show that the dramatic change is due in part to the fact that violence was often tolerated or even accepted as a form of dispute settlement in village dominated premodern society Interpersonal violence declined in the seventeenth and eighteenth centuries as dispute resolution was taken over by courts and other state institutions and the church became increasingly intolerant of it The book also challenges a number of other historical sociological theories among them that contemporary organized crime is new and addresses continuing debate about the meaning and usefulness of crime statistics CONTRIBUTORS Esther Cohen Herman Diederiks Florike Egmond Eric A Johnson Michele Mancino Eric H Monkkonen Eva sterberg James A Sharpe Pieter Spierenburg Jan Sundin Barbara Weinberger

French Emigrants in Revolutionised Europe Laure Philip, Juliette Reboul, 2019-11-19 The French emigration was an exilic movement triggered by the 1789 French Revolution with long lasting social cultural and political impacts that continued well into the nineteenth century At times paradoxical the political and legal implications of being an migr are detangled in this edited collection thus bringing to light unexpected processes of tensions and compromises between the exiles and their host societies The refugee host contact points also fostered a series of cultural transfers This book argues that the French emigration ought to be seen within the broader context of an Age of Exile a notion that better encompasses the dynamics of migration that forced many to re imagine their relation to a nation and define their displaced identities Revisiting the historiography of the last twenty years from an interdisciplinary perspective this volume challenges pre existing beliefs on the journeys and re settlements in Europe and beyond of the French migr community

[With] Index of names and subjects Manchester publ. libr, 1864 Frenchmen Into Peasants Leslie Choquette, 1997-08 In considering the pattern of emigration in the context of migration history Choquette shows that in many ways the movement toward Canada occurred as a by product of other perennial movements such as the rural exodus or interurban labor migrations Overall emigrants to Canada belonged to an outwardly turned and mobile sector of French society and their migration took place during a phase of vigorous Atlantic expansion They crossed the ocean to establish a subsistence economy and peasant society traces of which lingered on into the twentieth century *The Jewish pedlar* Tony Kushner, 2025-05-20 An imaginative investigation into a historical crime that sheds new light on Jewish history In 1734 a pedlar turned smuggler named Jacob Harris slit the throats of three people in a pub in Sussex This triple murder for which he was hanged and gibbeted remains the most violent crime

ever committed by a British Jew Yet today it is all but forgotten In The Jewish pedlar Tony Kushner goes in search of the enigmatic Harris Digging into a remarkable range of sources from law records and newspaper reports to ballads and folktales he follows the traces of Harris s legend across three hundred years of British history In doing so he reconstructs the world of Jewish pedlars and criminals across many continents The lives these figures eked out at the margins of society paint a picture of persistent antisemitism but also of remarkable integration Intellectually bold and deeply humane The Jewish pedlar takes a new grassroots approach to the history of Jews in the modern world shedding light on everyday lives from the Enlightenment to the Holocaust and beyond **The National Union Catalog, Pre-1956 Imprints** Library of

National Union Catalog Subcommittee,1981 Choosing Terror Marisa Linton,2015-06-04 Choosing Terror Virtue Friendship and Authenticity in the French Revolution examines the leaders of the French Revolution Robespierre and his fellow Jacobins and particularly the gradual process whereby many of them came to choose terror These men led the Jacobin Club between 1789 and 1794 and were attempting to establish new democratic politics in France Exploring revolutionary politics through the eyes of these leaders and against a political backdrop of a series of traumatic events wars and betrayals Marisa Linton portrays the Jacobins as complex human beings who were influenced by emotions and personal loyalties as well as by their revolutionary ideology The Jacobin leaders entire political careers were constrained by their need to be seen by their supporters as men of virtue free from corruption and ambition and concerned only with the public good In the early stages of the Revolution being seen as men of virtue empowered the Jacobin leaders and aided them in their efforts to forge their political careers However with the onset of war there was a growing conviction that political leaders who feigned virtue were the enemy within secretly conspiring with France s external enemies By Year Two the year of the Terror the Jacobin identity had become a destructive force in order to demonstrate their own authenticity they had to be seen to act virtuously and be prepared if the public good demanded it to denounce and destroy their friends and even to sacrifice their own lives This desperate thinking resulted in the politicians terror one of the most ruthless of all forms of terror during the Revolution Choosing Terror seeks neither to cast blame nor to exonerate but to understand the process whereby such things can happen
