Parody Margaret A. Rose,1993-09-09 In this definitive work Margaret Rose presents an analysis and history of theories of parody from ancient to contemporary times Her earlier Parody Meta fiction 1979 was influential in broadening awareness of parody as a double coded device that could be used for more than mere ridicule In the present study she both expands and revises the introductory section of her 1979 text and adds substantial new sections on modern and postmodern theories and uses of parody and pastiche that analyze the work of theorists and writers including Bakhtin and Eco

Nostalgic Postmodernism Christian Gutleben,2021-10-18 Why do so many contemporary British novels revert to the Victorian tradition in order to find a new source of inspiration What does it mean from an ideological point of view to build a modern form of art by resurrecting and recycling an art of the past From a formal point of view what are the aesthetic priorities established by these postmodernist novels Those are the main questions tackled by this study intended for anybody interested in the aesthetic and ideological evolution of very recent fiction What this analysis ultimately proposes is a reevaluation and a redefinition of postmodernism such as it is illustrated by the British novels which paradoxically both praise and mock honour and debunk imitate and subvert their Victorian models Unashamedly opportunistic and deliberately exploiting the spirit of the time this late form of postmodernism cannibalizes and reshapes not only Victorianism but all the other previous aesthetic movements including early postmodernism

The Oxford Handbook of Eighteenth-Century Satire Paddy Bullard,2019-07-30 Eighteenth century Britain thought of itself as a polite sentimental enlightened place but often its literature belied this self image This was an age of satire and the century s novels poems plays and prints resound with mockery and laughter with cruelty and wit The street level invective of Grub Street pamphleteers is full of satire and the same accents of raillery echo through the high scepticism of the period s philosophers and poets many of whom were part time pamphleteers themselves The novel a genre that emerged during the eighteenth century was from the beginning shot through with satirical colours borrowed from popular romances and scandal sheets This Handbook is a guide to the different kinds of satire written in English during the long eighteenth century It focuses on texts that appeared

between the restoration of the Stuart monarchy in 1660 and the outbreak of the French Revolution in 1789. Outlier chapters extend the story back to the first decade of the seventeenth century and forward to the second decade of the nineteenth. The scope of the volume is not confined by genre; however, so prevalent was the satirical mode in writing of the age that this book serves as a broad and characteristic survey of its literature. The Oxford Handbook of Eighteenth Century Satire reflects developments in historical criticism of eighteenth century writing over the last two decades and provides a forum in which the widening diversity of literary, intellectual and socio-historical approaches to the period's texts can come together.

Proust, Pastiche, and the Postmodern or Why Style Matters James F. Austin, 2013-08-28. Proust Pastiche and the Postmodern or Why Style Matters argues against the traditional view that Marcel Proust wrote pastiches, that is, texts that imitate the style of another author to master his literary predecessors while sharpening his writerly quill. On the contrary, James F. Austin demonstrates that Proust's oeuvre and *In Search of Lost Time* in particular deploy pastiche to other ends. Proust's pastiches in fact do things with words to create powerful real-world effects. His works are indeed performative acts that forge social relationships, redefine our ideas of literature, and even work against oppressive political and economic discourses. Building on the speech act theory of J. L. Austin, Jacques Derrida, and J. Hillis Miller, and on the postmodern theory of Fredric Jameson, this book not only elucidates the performative nature of pastiche but also shows that the famous Goncourt pastiche from *In Search of Lost Time* has attracted so much attention because it already attained the postmodern: that is, it eliminated temporal depth and experience, transforming time itself into a nostalgic style of an era and into the sort of aestheticized surface that came to define postmodernism decades later. To reflect this transformation of pastiche, this work rearticulates its history in France around Proust, reconfiguring a scholastic, classically inspired pedagogical tradition based on imitation and breaking with the dominant satirical practice. Proust's work opened up possibilities in the twentieth century for a new kind of pastiche: playful and performative in the literary field and postmodern in a French cinema that, as with the Goncourt pastiche, represents time as the visual style of an era, whether unreflexively in heritage films such as Régis Wargnier's *Indochine* or discerningly in Eric Rohmer's *Lady and the Duke*, which uses period pictorial and painterly conventions to illustrate how the representation of history onscreen typically flattens time into style.

Plagiarizing the Victorian Novel Adam Abraham, 2019-08-22. Views the Victorian novel through the prism of literary imitations that it inspired.

Myth-Making in Aristophanes: Innovation and Evolution in Attic Comedy Effie Zagari, 2024-10-01. This book focuses on the development of Attic comedy as it is evinced in four fragmentary plays by Aristophanes: *Polyidos*, *Daedalus*, *Aeolosicon*, and *Cocalus*. The significance of these plays lies in the fact that they present characteristics which are not prominent in the extant plays. They are mythological comedies that Aristophanes might have composed as parodies of tragedies. The four dramas exhibit elements largely present in Middle and New Comedy, such as the use and re-use of myths, the production of large-scale burlesque, domestic plots unfolded outside Attica. This is a book directed to the wider audience.

to all enthusiasts of Classics It facilitates the understanding of an aspect of Aristophanes work discernible only within his fragmentary dramas This study thus revisits Old Comedy and enriches the scholarship with new insights and new discoveries regarding Aristophanes his literary interactions as well as his innovating and influential work

The Victorian Comic Spirit Jennifer Wagner-Lawlor, 2017-11-22 This title was first published in 2000 Comedy and humour are not words most associate with the Victorian period yet their culture was rife with laughter and irony The 12 essays in this volume reanimate this comic spirit by exploring the humour in its social context While previous studies of humour in the period focus on the age's own ongoing interest in the old distinction in comic theory between wit and humour this volume aims to show how inadequate this distinction is in accounting for the many types of Victorian comic representation The essays turn from linguistic or psychological analyses of humour towards the social production of humour and the cultural dynamics which underlie it

Learning to Talk Shop Susan E. Phillips, 2025-08-12 A new account of premodern education that offered non elite readers lessons in navigating the premodern marketplace Learning to Talk Shop explores the phrasebooks and guides to conversations that flooded the marketplace in the fifteenth and sixteenth centuries making a virtual classroom available to an audience who could not afford or did not have access to formal education Privileging market share and mercantile savvy over moral instruction and linguistic mastery these mischievous little books offered readers lessons in the pragmatic and murky ethics of the premodern marketplace teaching them bargaining tactics insults pick up lines and strategies for welching on debts Revealing what happens when language learning itself undergoes a translation out of the classroom into the marketplace and further down the social ladder Susan E Phillips offers a new account of premodern education not through erudite tomes and schoolmaster sovereigns but through these practical books that enabled non elite readers to thrive in an environment not particularly conducive to their success Phillips asks what we learn and whom we can see when we look at premodern education from this humbler more mischievous perspective telling the tales of resourceful chambermaids savvy black stableboys and arithmetically adept barmaids as well as the story of a schoolgirl who compiled a textbook of her own and the narrative of a black schoolmaster teaching in Shakespeare's London In these stories Phillips finds the liberatory potential in a discourse that has previously been read as upholding traditional social hierarchies in the premodern period If we expand our archive beyond the Latin textbooks of the grammar school classroom to include these bestselling bi and multilingual vernacular textbooks Phillips contends we can see a radically different set of possibilities a premodern pedagogy that is more expansive more flexible and more inclusive

Literary Intention, Literary Interpretations, and Readers John Maynard, 2009-04-17 This accessible personal and provocative study returns to the major subject in literary discussion before and during the relatively recent flourishing of literary theory that of literary intention Does the author's personal intention or historical site determine a correct interpretation of a literary work Probing the entire range of issues connected with this many faceted and knotty concept this book engages with interpretation on both theoretical and practical levels It argues that

the hard questions about interpretation connected to issues of intention cannot be sidestepped or ignored It does not argue for conservative concepts of literature itself nor against the major historical engagements of critics in our time But in addressing those who continue to read or teach literature it does insist on a level of sophistication in issues of literary interpretation that cannot be assured by historical research and knowledge of the social and cultural connections to literary works The overall aim of the work is to recall readers to the great complexity pleasure and interest of literary interpretation

Wang, 2013-12-04 When will American poetry and poetics stop viewing poetry by racialized persons as a secondary subject within the field Dorothy J Wang makes an impassioned case that now is the time Thinking Its Presence calls for a radical rethinking of how American poetry is being read today offering its own reading as a roadmap While focusing on the work of five contemporary Asian American poets Li Young Lee Marilyn

Chin John Yau Mei mei Berssenbrugge and Pamela Lu the book contends that aesthetic forms are inseparable from social political and historical contexts in the writing and reception of all poetry Wang questions the tendency of critics and academics alike to occlude the role of race in their discussions of the American poetic tradition and casts a harsh light on the double standard they apply in reading poems by poets who are racial minorities This is the first sustained study of the formal properties in Asian American poetry across a range of aesthetic styles from traditional lyric to avant garde Wang argues with conviction that critics should read minority poetry with the same attention to language and form that they bring to their analyses of writing by white poets

Theorizing Composition Mary Kennedy, 1998-06-25 The last 25 years have witnessed extraordinary growth in the academic specialization variously described as composition studies or rhetoric and composition What was noticeable about the field in its infancy was a preoccupation with practice a lack of emphasis on theory and an exclusive reliance on the writing process As its disciplinary status has grown the field has become far more theoretical Composition studies has expanded its focus reconceptualized the writing process and embraced a wide range of critical perspectives The result of this change is that terms such as poststructuralism social construction gender and genre which were largely unknown in 1965 now dominate discussion This reference book is a guide to the multiplicity of theories that have emerged to form the disciplinary foundation of composition studies The volume consists of 66 entries each of which is written by an expert contributor and focuses on a particular theory or group of theories While the entries show how various individuals have contributed to theoretical movements very few concentrate on the work of a single theorist Each entry first provides a critical summary of a particular theory or group of theories including key elements basic concepts and claims and information about seminal or particularly influential works It then reviews the theory's critical reception in composition studies and discusses its significance in the field The bibliography at the end of each entry lists primary texts and major scholarship related to the theory and provides additional suggestions for further reading The volume closes with a selected bibliography of important works

Cinematic TV Rashna Wadia Richards, 2021 For decades after its invention television was considered by many to be culturally deficient when compared to cinema as analyses rooted in communication studies and the social sciences tended to focus primarily on television's negative impact on consumers More recently however denigration has largely been replaced by serious critical consideration of what television represents in the post network era Once derided as a media wasteland TV is now praised for its visual density and complexity In the last two decades media scholars have often suggested that television has become cinematic Serial dramas in particular are acclaimed for their imitations of cinema's formally innovative and narratively challenging conventions But what exactly does cinematic TV mean In *Cinematic TV* author Rashna Wadia Richards takes up this question comprehensively arguing that TV dramas quote copy and appropriate primarily American cinema in multiple ways and toward multiple ends Constructing an innovative theoretical framework by combining intertextuality and memory studies *Cinematic TV* focuses on four modalities of intermedial

borrowings homage evocation genre and parody Through close readings of such exemplary shows as *Stranger Things* *Mad Men* *Damages* and *Dear White People* the book demonstrates how serial dramas reproduce and rework undermine and idolize and in some cases compete with and outdo cinema Reader's Guide to Literature in English Mark
