On peut préférer croire que connaître les mécanismes et les ressorts de la violence permet de lutter contre elle. En donnant la parole des sociologues de terrain des enseignants et des chercheurs le congrès de 2009 de l'Association française de sociologie s'est donc attelé à cette tâche et s'est lancé dans l'examen des diverses formes des violences contemporaines : violence dans les quartiers, conflits internationaux, racisme, pressions dans le monde de l'entreprise. Une démarche qui peut aider notre société à sortir de la peur et de l'incompréhension.

*The Codes of the Global in the Twenty-first Century* Anna Maria Guasch, 2017-12-22. At the start of the twenty-first century the contemporary implies a clear desire to affirm a type of art that is expanding across the globe, challenging old geographical borders and reclaiming narratives of place and displacement in other words, new cultural practices that transfigure the relationship between the global and the local and articulate the discourse of difference. Being in the place of here and now, working with others in simultaneous and specific practice and contemplating the production of work in the experience of connection means raising the value of the performative aspect of practice and displacing the reflective role of cultural production. In the new cartography of this multifarious global art, the author who combines theoretical and curatorial discourse with creative practice defines how global concepts circulate from the critical analysis of transnational contemporary art to the global.

**Dislocating Globality** Šarūnas Paunksnis, 2015-11-16. *Dislocating Globality: Deterritorialization, Difference and Resistance* offers a broad panorama of critical approaches to globalization, its effects, the critique of neoliberalism and discusses various forms of resistance to its monocultural raison d'être. The authors in this volume address these issues from a variety of perspectives, theoretical as well as geographically diverse case-based analyses ranging from South Asia, the Middle East, Latin America, Europe and Australia in attempt to show the diverse effects of globalization and varied forms of negotiating globalization on a local level. Contributors are Allie Biswas, Katherine Burrows, Jacob P. Chamberlain, Vytis Iubinskis, Maria Halouva, Jeanne Kay, Mara Matta, Gintautas Maikis, Dennis Mehmet, Beatriz Miranda Galarza, Mustafa Mustafa, Abhijeet Paul, Arnas Paunksnis and Naima Srouf.

*Visual Arts in Cameroon* Schemmel, Annette, 2016-02-27. Annette Schemmel provides a highly illuminating case study of the major actors, discourses and paradigm that shaped the history of visual arts in Cameroon during the second part of the 20th century. Her book meticulously reconstructs the multiple ways of artistic knowledge acquisition from the consolidation of the *Système des Grands Frères* in the 1970s to the emergence of more discursively oriented small artists' initiatives which responded to the growing NGO market of social practice art opportunities in the 2000s. Based on archival research, participant observation and in-depth interviews with art practitioners in Douala and Yaoundé, this study is a must-read for everyone who wants to better understand the vibrant artistic scenes in countries like Cameroon which until today lack a proper state-funded infrastructure in the arts.
