Partition Of Bengal And Assam Contour Of Freedom:

The Partition of Bengal and Assam, 1932-1947 Bidyut Chakrabarty, 2004-08-02 The fragmentation of Bengal and Assam in 1947 was a crucial moment in India's socio-political history as a nation state. Both the British Indian provinces were divided as much through the actions of the Muslim League as by those of Congress and the British colonial power. Attributing partition largely to Hindu communalists is therefore historically inaccurate and factually misleading. The Partition of Bengal and Assam provides a review of constitutional and party politics as well as of popular attitudes and perceptions. The primary aim of this book is to unravel the intricate socio-economic and political processes that led up to partition as Hindus and Muslims competed ferociously for the new power and privileges to be conferred on them with independence. As shown in the book well before they divorced at a political level, Hindus and Muslims had been cleaved apart by their socio-economic differences. Partition was probably inevitable. *Patriotism, Partition and the Persecuted* Debal K. Singha Roy, 2023-08-07 This book explores the theme of continuous wreaking of brutal persecution of a Hindu family on the one hand and the uncompromising efforts of Muslim friends and neighbours to protect this family on the other. It is set against the resultant and barbaric forces let loose after the propagation of the two-nation theory and the ultimate partition of India in 1947. Based on the social biography of a Hindu family that stayed back in East Pakistan, it traces their journey how they became other in the country of their birth and faced persecution. This being branded the other led to part of the family migrating to India away from their natal roots. The 1965 India-Pakistan war further brought prolonged separation and sufferings for these half-families living on both sides of the borders. Subjecting one to encounter helplessness, uncertainty and poverty in India and the other to state-sponsored apathy, coercion, arrests and physical tortures. The vicious atmosphere of violent communal aggression though did not stop their Muslim friends from protecting them. When the Muslim friend was killed by the religious fanatics in the newly liberated Bangladesh, the left-behind member of the Hindu family realized that it was time to leave their motherland for India where they died with the desire to go back to their motherland buried along with them. Despite prolonged violence and tragic separation thereafter, numerous memories of the self-sacrificing efforts of the compatriots served as recollection in collective living in the Indian subcontinent. *India-Bangladesh Border Disputes* Amit Ranjan, 2018-10-30 This book discusses the history of mental construction of the border between India and Bangladesh. It investigates how and when a border was constructed between the people and discusses how the mental construction preceded the physical construction. It also examines the perils faced by those forced to leave their homes as a result of the partition of India in 1947. Globally throughout history, the absence of borders made the movement of people from one place to another easier. The construction of borders and sovereign delimitation of territory restricted or even prevented seamless migration. The situation becomes more complex near borders that were previously open to the movement of people. One such border is between India and Bangladesh where in August 1947 suddenly people were told that the places they used to visit

on a daily basis were now a part of a different sovereign country This book argues that borders construct the identity of an individual or a group Those who cross to the other side of border for whatever reason are identified and categorized by the state and the people Sometimes these migrants face violence from the locals because they are considered a threat to the local working class The book also explains how after the liberation of Bangladesh in 1971 everyday encounter between people from India and Bangladesh have further embedded a feeling of us versus them In 2015 India and Bangladesh agreed to implement the India Bangladesh Land Boundary Agreement LBA This book assesses whether the implementation of this agreement will have impacts on border related problems like mobility migration and tensions It is a valuable resource for policymakers journalists researchers and students

Kashmir after 2019 Werner Menski,Muneeb Yousuf,2025-01-21 This interdisciplinary volume portrays India s

removal of Article 370 and of Jammu and Kashmir's special status in August 2019 as an effort to stop the suffering of its highly diverse people. While the state had been divided between the only two successor nations allowed in 1947, local people were subjected to prolonged violence by several competing external and internal stakeholders. Though the bold step of August 2019 signified acceptance by both India and Pakistan of the completion of the partition of 1947, evidence of continuing discontent and latent adherence to continuing dreams of freedom (*Azadi*) indicates that the current arrangement needs to be better and more widely understood as a viable peace-making effort. The book re-traces the history of the suffering of Kashmir's people and provides an intriguing new analysis of the conflict through the plurality-conscious kite model of law and life, suggesting important policy implications. It also challenges the negative implications of international and foreign meddling in the Kashmir problem. This book will be useful to scholars, students, and teachers of political science, sociology, governance, economics, and development studies. It will also be an indispensable companion to scholars and general readers interested in India, especially Jammu and Kashmir, as well as those engaging with South Asian Studies.

The Partition of India Daniela Rogobete, 2019-01-23. This volume offers a collection of essays focused upon the representation of one of the most traumatic events in the history of India: the 1947 Partition, in literature and cinematographic adaptations. The focus here is placed on various strategies of representation and different types of memory at work in the process of remembering/re-membering Partition. All these avoid the traditional Hindu vs. Muslim perspective and analyse other sides of the same story, seen from the perspective of marginal people belonging to other religious minorities whose stories have generally been ignored and silenced by the official historical discourse. The book also demonstrates that the multiple truths engendered by this crucial event in India's history lie along improbable lines, randomly generated between history, amnesia, and memory, between personal drama and collective trauma, loss and rupture, religion and nationalism, and longing and belonging.
