Bajpaee,2022-02-17 This book examines the role of China in driving and sustaining India's post Cold War engagement with Southeast Asia In doing so it provides a unique insight into the regional dimensions of the Sino Indian relationship India launched its Look East Policy in the early 1990s as part of a concerted effort to revive the importance of Southeast Asia in the country's foreign policy agenda This study assesses the role of the China factor defined here as China's regional role which has been interpreted through the prism of the Sino Indian relationship in the inception and evolution of the policy More specifically it establishes the extent to which China has been raised as a priority in discourses of India's Look East Policy and how this has varied over time from the origins of the policy through to the most recent phase of the renamed Act East Policy Addressing the distinction between what policymakers signal in their official statements and their true or underlying motivations the book alludes to the fact that government officials may not always reflect true intentions in their official statements and it is often what is not said that may reveal more about their real motivations This is particularly relevant in the context of the Sino Indian relationship where diplomatic rhetoric often masks more competitive and confrontational aspects of the bilateral relationship An important analysis of the interplay between India's relations with Southeast Asia and China this book will be of interest to academics policymakers and students in the fields of International Relations Asian Security Southeast Asian politics and in particular Indian foreign policy the Sino Indian relationship and India's Look East Act East Policy      **Indian Naval Strategy in the Twenty-first Century** James R. Holmes,Andrew C.

Winner,Toshi Yoshihara,2009-04-02 This is the first academic study of India's emerging maritime strategy and offers a systematic analysis of the interplay between Western military thought and Indian maritime traditions By a quirk of historical fate Europe embarked on its Age of Discovery just as the main Asian powers were renouncing the sea ushering in centuries of Western dominance In the 21st century however Asian states are once again resuming a naval focus with both China and India dedicating some of their new found wealth to building powerful navies and coast guards and drawing up maritime strategies to govern the use of these forces The United States like the British Empire before it is attempting to manage these rising sea powers while preserving its maritime primacy This book probes how India looks at the sea what kind of strategy and seagoing forces New Delhi may craft in the coming years and how Indian leaders may use these forces It examines the material dimension but its major premise is that navies represent a physical expression of a society's history philosophical traditions and culture This book then ventures a comprehensive appraisal of Indian maritime strategy This book will be of interest to students of sea power strategic studies Indian politics and Asian Studies in general James R Holmes is an Associate Professor of Strategy at the U S Naval War College and a former U S Navy surface warfare officer Toshi Yoshihara

P.

Vijayalakshmi, 2006 Proceedings of the National Workshop on Changing contours of Indo US Relations held at Bangalore during 9-10 February 2006      **Indo-US Nuclear Deal** P R Chari, 2014-04-30 This book interrogates the Indo US civil nuclear agreement from its inception in July 2005 to its conclusion in the latter part of 2008 through 12 articles each of which focuses on different aspects of the deal. They discuss the factors that facilitated the deal, the roadblocks that were encountered and the implications of the deal for the future of India's foreign policy, its energy security and the international non-proliferation regime. Together they address the internal political dynamics in India and the United States in order to present perspectives of both countries      *US Pivot toward India after 9/11* Masud Sarker, 2023-01-30 The book is a very timely and important work on US foreign policy toward India since the 9-11 terrorist attacks. Masud Sarker traces the trajectory of closer Indo US relations during the administrations of George W Bush and Barack Obama. The author applies a qualitative framework to describe these changes and explain the factors that clarify the strengthened bilateral relationship especially after decades of irritable relations between the two estranged democracies. The book compares two influences that shaped the rapprochement between India and the US: the 9-11 attacks and global structural changes after the Cold War and evaluates which of these influences best explains closer Indo US relations over the last two decades. The book should be a fascinating one that provides an excellent analysis of Indo US relations since India's independence to Obama administrations based on extensive use of key primary sources including interviewing the persons involved in US foreign policy making process. While the existing literature has mainly focused on the civil nuclear deal as a turning point for Indo US relations, this book presents an alternative story for improved Indo US relations in the 21st century and uncovers the ongoing puzzle. More interestingly, the author shows how the Indian diaspora as a 3rd party plays a role in strengthening Indo US relations.

**Nepal as a Federal State** V R Raghavan, 2013-01-01 Papers presented at the conference on Federalism in Nepal: Lessons from Indian Experience held during 30-31 August 2012      **Perspectives on Turkey's Multi-Regional Role in the 21st Century** Dr Mujib Alam, 2015-07-15 This book dwells upon the various aspects of the Turkish foreign policy in the different regions of the world especially with the dawn of the twenty-first century. Turkey has attracted international attention due to a marked transformation in the country's domestic and external realms which in turn has led to an increased activism in its foreign policy actions. Particularly, Turkey's economic rise has fuelled the country's ambition and quest for a more significant role in international affairs. These transformations have come about with the ascendance of the Adalet ve Kalkınma Partisi (AKP) or Justice Development Party (JDP) to power in 2002. Turkey under the AKP moved towards a new direction in the foreign policy and consequently endeavoured to play a larger role in West Asia, Middle East, the Balkans, southern Mediterranean, the Caucasus, Central Asia, Africa and Asia. The country has emerged as a multi-regional player having stakes and tractions on a range of issues in these regions. The several discernible aspects of Turkey's involvement are dealt with in the contributions to this volume.
