Of Captivity and Resistance Sharmila Purkayastha, 2023-09-21 *Of Captivity and Resistance* offers a historical and political study of women's experiences of dissent and detention in postcolonial India Primarily focusing on the Naxalite movement 1967-75 and on the pan Indian period of Emergency 1975-77 the study traces women's political participation in revolutionary movements and in dissident politics and attends to their experiences of torture and incarceration Simultaneously by drawing on the varied histories of women's incarceration before and after the long seventies the book provides an expanded terrain for evaluating the gendered dimensions of radical politics and of testimonial literature on carceral state violence and impunity The analysis focuses on women's transformation from marginal political participants to resistant detainees By studying the linkages between radical politics captivity and resistance the book offers a widened account of women's political participation contributes to contemporary debates on political incarceration and strengthens the resistant history of rights and of dissenting literature in India and in the Global South **Displaced Memories** M. Edurne Portela, 2009

Displaced Memories analyzes the representation of traumatic memories political imprisonment torture survival and exile in the literary works of Alicia Kozameh Alicia Partnoy and Nora Strejilevich survivors of Argentina's Dirty War 1976-1983 Beginning with an examination of the history of Argentina's last dictatorship the conditions that led the authors to exile and the contexts in which the texts were published Portela provides the theoretical tools for the understanding of narratives of trauma and displacement caused by political violence The author proposes a theory that critiques post structuralist paradigms of trauma which present trauma as an unclaimed experience impossible to apprehend as she argues for an analysis of the symbolic uses of language presenting trauma as a claimed experience that can be brought into representation and therefore create the conditions of possibility for working through

Disappearing Acts Diana Taylor, 1997 Taylor uses performance theory to explore how public spectacle both builds and dismantles a sense of national and gender identity Here nation is understood as a product of communal imaginings that are rehearsed written and staged and spectacle is the desiring machine at work in those imaginings Taylor argues that the founding scenario of Argentineness stages the struggle for national identity as a battle between men fought on over and through the feminine body of the Motherland She shows how the military's representations of itself as the model of national authenticity established the parameters of the conflict in the 70s and 80s

Kaminsky, 1999 Can an exiled writer ever really go home again What of the writers of Argentina Uruguay and Chile whose status as exiles in the 1970s and 1980s largely defined their identities and subject matter After Exile takes a critical look at these writers at the effect of exile on their work and at the complexities of homecoming a fraught possibility when democracy was restored to each of these countries Both famous and lesser known writers people this story of dislocation and relocation among them Jose Donoso Ana Vasquez Luisa Valenzuela Cristina Peri Rossi and Mario Benedetti In their work and their predicament Amy K Kaminsky considers the representation of both physical uprootedness and national identity or more precisely an individual s identity as a national subject Here national identity is not the double abstraction of identity and nation but a person s sense of being and belonging that derives from memories and experiences of a particular place Because language is crucial to this connection Kaminsky explores the linguistic isolation miscommunication and multilingualism that mark late exile and post exile writing She also examines how gender difference affects the themes and rhetoric of exile how for example traditional projections of femininity such as the idea of a mother country are used to allegorize exile Describing exile as a process sometimes of acculturation sometimes of alienation this work fosters a new understanding of how writers live and work in relation to space and place particularly the place called home Taking Risks Julie Shayne, 2014-01-01 Explores activist scholarship in relation to feminist and social movements in the Americas Taking Risks offers a creative interdisciplinary approach to narrating the stories of activist scholarship by women The essays are based on the textual analysis of interviews oral histories ethnography video storytelling and theater The contributors come from many disciplinary backgrounds including theater history literature sociology feminist studies and cultural studies The topics range from the underground library movement in Cuba femicide in Ju rez community radio in Venezuela video archives in Colombia exiled feminists in Canada memory activism in Argentina sex worker activists in Brazil rural feminists in Nicaragua to domestic violence organizations for Latina immigrants in Texas Each essay addresses two themes telling stories and taking risks The authors understand women activists across the Americas as storytellers who along with the authors themselves work to fill the Latin American and Caribbean studies archives with histories of resistance In addition to sharing the activists stories the contributors weave in discussions of scholarly risk taking to speak to the challenges and importance of elevating the storytellers and their histories Julie Shayne took a risk with this book and the result is impressive By challenging the activism research divide that US

academies so often sustain the authors in this collection challenge epistemological as well as national race class age and gender boundaries Taking Risks is a must read for researchers and students alike Amy Lind editor of Development Sexual Rights and Global Governance **Place and Politics in Latin American Digital Culture** Claire Taylor, 2014-05-09 This volume explores one of the central issues that has been debated in internet studies in recent years locality and the extent to which cultural production online can be embedded in a specific place The particular focus of the book is on the practices of net artists in Latin America and how their work interrogates some of the central place based concerns of Latin o American identity through their on and offline cultural practice Six particular works by artists of different countries in Latin America and within Latina o communities in the US are studied in detail with one each from Uruguay Chile Argentina Colombia the US Mexico border and the US Each chapter explores how each artist represents place in their works and in particular how traditional place based affiliations or notions of territorial identity end up reproduced re affirmed or even transformed online At the same time the book explores how these net artists make use of new media technologies to express alternative viewpoints about the locations they represent and use the internet as a space for the recuperation of cultural memory
