Rivals America And Russia Since World War II:

Rivals Adam Bruno Ulam, 1976 **The rivals** Adam Bruno Ulam, 1971 *Rivals* A. Ulam, *American-Soviet Relations* Peter G. Boyle, 2022-12-28 *American Soviet Relations* 1993 is a study of American policy towards the Soviet Union from 1917 to the fall of Communism. It attempts to understand what precisely were the roots of the Cold War and an analysis of the later relationship in the light of the Soviet Union's evolution since the Revolution. It argues that American policy was shaped not only by the external threat from the USSR but also by internal forces within American society: domestic politics, economic interests, emotional and psychological attitudes and images of the Soviet Union. *The History of American Foreign Policy from 1895* Jerald A. Combs, 2015-02-12 This important text offers a clear, concise and affordable narrative and analytical history of American foreign policy since the Spanish American War. The book narrates events and policies but goes further to emphasize the international setting and constraints within which American policy makers had to operate, the domestic pressures on those policy makers and the ideologies, preferences and personal idiosyncrasies of the leaders themselves. [Air university review, 1982](#), 1982 **"The" Rivals** Adam Bruno Ulam, 1973 *The Rivals* Adam Bruno Ulam, 1974 **The Presidency of Harry S. Truman** Donald R. McCoy, 1984 In this volume in the American Presidency Series McCoy recounts and evaluates the record of the Truman Administration and identifies its distinctiveness and relations to the past, its own time and the future. Focusing on the problems that faced the United States between 1945-1953, he explains how Truman's vigor in championing civil rights, health, labor, education and natural resource policies brought him immense unpopularity and how despite this Truman triumphed in 1948 winning bipartisan support for his foreign and military policies. The author depicts Truman as an honest, hard-working, capable and complex man and describes his relationships with his staff, Congress, foreign representatives, the judiciary, political parties, the press, the public and influential private citizens. ISBN 0 7006 0252 6 25 00 **Air University Review**, 1986-07 *America in Modern Times, Since 1941* Alan Brinkley, Ellen Frances Fitzpatrick, 1997 This history of post 1941 America draws on social history, women's history, history of ideas as well as traditional political and foreign policy history. Oral history and first-hand accounts are used to integrate the voices of ordinary Americans into the narrative. **Fighting with the Soviets** Mark J. Conversino, 1997 Conversino's story is as interesting as it is unfamiliar and succeeds in opening up America's many dimensions including the personal as well as the political, strategic and operational. His revelations regarding the interactions between American servicemen and Ukrainian Russians are especially valuable and underscore the immense difficulties of implementing alliances at the grass roots level. Dennis Showalter, author of *Tannenberg: Clash of Empires* **Presidential Greatness** Marc Karnis Landy, Sidney M. Milkis, 2000 Searching for common threads in these five presidencies, Landy and Milkis enable us to better understand both the possibilities and the limitations of the office. **BOOK JACKET** [Foreign Affairs Bibliography](#), 1962 *The Mainstream of Civilization* Joseph Reese Strayer, Hans Wilhelm Gatzke, 1979 Traces the history of the world's major civilizations, discussing

their special characteristics and contributions *Intellectual Digest* ,1971 **Newsletter of the European Association for American Studies** European Association for American Studies,1972 **The American Non-policy Towards Eastern Europe, 1943-1947** Geir Lundestad,1978 **Guide to American Foreign Relations Since 1700** Richard Dean Burns,1983 Designed to supplement the Guide to the Diplomatic History of the U S 1935 this bibliography has items arranged chronologically geographically and topically while indexes refer to authors subjects and individuals In addition to maps the book contains a list of major policy makers since 1781 and brief biographical sketches of U S secretaries of state ISBN 0 87436 323 3 87 50 **International Relations** Frederic S. Pearson,J. Martin Rochester,1998 This is a major revision of our successful introduction to International Relations The authors seek to bridge the gap between academic theory and applied concepts by continuing to develop the book s theme that the complex relationships between the world s state and non state players must be understood before one can make intelligent judgments about international affairs In this way the book readily appeals to students in many related majors In this edition Pearson and Rochester infuse the entire book with a post Cold War frame of reference The growing diffusion of power the growing fluidity of alignments all represent current key trends that are discussed in this edition
