celebrates the great Japanese short story from its modern origins in the nineteenth century to the remarkable works being written today. Short story writers already well known to English language readers are all included here: Tanizaki, Akutagawa, Murakami, Mishima, Kawabata, but also many surprising new finds. From Yuko Tsushima's *Flames* to Yuten Sawanishi's *Filling Up with Sugar* from Shin-ichi Hoshi's *Shoulder Top Secretary* to Banana Yoshimoto's *Bee Honey*. The Penguin Book of Japanese Short Stories is filled with fear, charm, beauty, and comedy. Curated by Jay Rubin, who has himself freshly translated several of the stories and introduced by Haruki Murakami, this book will be a revelation to its readers. **The Urban**

Planetary and Tokyo Modernity Christophe Thouny, 2023-12-15. *The Urban Planetary and Tokyo Modernity*. Dwelling in Passing analyzes everyday experiences in Tokyo during the 1910s and 1920s, showing how urban literature and urban ethnography both tried to come to terms with an emerging planetary situation defined by both ongoing movement and an intensification of local experiences. This book argues that modern urban experiences are not primarily a question of alienation, consumerism, or national life, but first one of dwelling, and in particular a dwelling in passing. Looking at the work of the Japanese urban ethnographer Kon Wajiro in relation to early 20th century literary mappings of Tokyo in Japanese literature, such as Mori Ogai's 1912 novel *Youth* to Tayama Katai's 1916 *The Tokyo Near Suburb*, Christophe Thouny argues for the need to reconsider these texts in terms of a speculative genealogy of local answers to an insistent planetary situation.

Writing Technology in Meiji Japan Seth Jacobowitz, 2020-05-11. *Writing Technology in Meiji Japan* boldly rethinks the origins of modern Japanese language, literature, and visual culture from the perspective of media history. Drawing upon methodological insights by Friedrich Kittler and extensive archival research, Seth Jacobowitz investigates a range of epistemic transformations in the Meiji era, 1868-1912, from the rise of communication networks such as telegraph and post to debates over national language and script reform. He documents the changing discursive practices and conceptual constellations that reshaped the verbal, visual, and literary regimes from the Tokugawa era. These changes culminate in the discovery of a new vernacular literary style from the shorthand transcriptions of theatrical storytelling (*rakugo*) that was subsequently championed by major writers such as Masaoka Shiki and Natsume Soseki as the basis for a new mode of transparently objective, transcriptive realism. The birth of modern Japanese literature is thus located not only in shorthand alone but within the emergent multimedia channels that were arriving from the West. This book represents the first systematic study of the ways in which media and inscriptive technologies available in Japan at its threshold of modernization in the late nineteenth to early twentieth century shaped and brought into being modern Japanese literature. [The Columbia Anthology of Modern Japanese Literature](#) J. Thomas Rimer, 2011-11-15. Featuring choice selections from the core anthologies *The Columbia Anthology of Modern Japanese Literature: From Restoration to Occupation, 1868-1945* and *The Columbia Anthology of Modern Japanese Literature: From 1945 to the Present*, this collection offers a concise yet remarkably rich introduction to the fiction, poetry, drama, and essays of Japan's modern encounter with the West. Spanning a period of

exceptional invention and transition this volume is not only a critical companion to courses on Japanese literary and intellectual development but also an essential reference for scholarship on Japanese history culture and interactions with the East and West The first half covers the three major styles of literary expression that informed Japanese writing and performance in the late nineteenth and early twentieth centuries classical Japanese fiction and drama Chinese poetry and Western literary representation and cultural critique Their juxtaposition brilliantly captures the social intellectual and political challenges shaping Japan during this period particularly the rise of nationalism the complex interaction between traditional and modern forces and the encroachment of Western ideas and writing The second half conveys the changes that have transformed Japan since the end of the Pacific War such as the heady transition from poverty to prosperity the friction between conflicting ideologies and political beliefs and the growing influence of popular culture on the country's artistic and intellectual traditions Featuring sensitive translations of works by Nagai Kafu Natsume Soseki Oe Kenzaburo Kawabata Yasunari Mishima Yukio and many others this anthology relates an essential portrait of Japan's dynamic modernization

God's Own Land Shaukat Siddiqi, 1991 **Historical Dictionary of Modern Japanese Literature and Theater** J. Scott Miller, 2021-06-05 With the Meiji Restoration in 1868 Japan opened its doors to the West and underwent remarkable changes as it sought to become a modern nation Accompanying the political changes that Western trade ushered in were widespread social and cultural changes Newspapers novels poems and plays from the Western world were soon adapted and translated into Japanese The combination of the rich storytelling tradition of Japan with the realism and modernism of the West produced some of the greatest literature of the modern age Historical Dictionary of Modern Japanese Literature and Theater Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries authors literary and historical developments trends genres and concepts that played a central role in the evolution of modern Japanese literature **Running Mother and Other Stories** Songfen Guo, 2008-10-24 Guo Songfen's short stories are masterful psychological portraits that play with the echoes of history and the nature of identity One of the few modernists to truly capture the fallout from such events as the February 28th Incident and the White Terror Guo Songfen illuminates the quiet core of his characters through a spare and immediate style that is at once a symptom and an allegory of the trauma in which they live In Running Mother a man is torn between his fear of abandonment and his guilt over leaving his family and therefore his symbolic home behind Moon Seal follows a woman caught between traditional and modern worlds In Wailing Moon a wife learns a shocking secret after her husband's death realizing he was never the man she thought him to be Set in the United States and Taiwan Snow Blind is a multigenerational triptych that portrays the consequences of spiritual malaise and in Brightly Shines the Stars Tonight a general wrestles with issues of memory and self perception in the final moments before his execution Guo Songfen's stories play with the hazards of miscommunication the malevolence of human will the arbitrary nature of fate and the burden of historical circumstance As

the general discovers life is a game of chess the outcome of which is never certain though it might be logically designed Showcasing the best of Taiwan s modernist style these stories are not only an indictment of the human condition but also a powerful comment on the experience of postretrocession Taiwan Origins of Modern Japanese Literature Kōjin Karatani,1993 Karatani Kojin is one of Japan s leading critics In his work as a theoretician he has described Modernity as have few others he has re evaluated the literature of the entire Meiji period and beyond As one critic has said Karatani s thought has had a profound effect on the way we formulate the questions we ask about modern literature and culture his argument is compelling moving even and in the end the reader comes away with a different understanding not only of modern Japanese literature but of modern Japan itself Among the many authors discussed are Soseki Natsume Doppo Kunikida Katai Tayama and Shoyo Tsubouchi *Bully Hayes, Buccaneer* Louis Becke,1913 Topographies of Japanese Modernism Seiji M. Lippit,2002 What happens when a critique of modernity a revolt against the traditions of the Western world is situated within a non European context where the concept of the modern has been inevitably tied to the image of the West Seiji M Lippit offers the first comprehensive study in English of Japanese modernist fiction of the 1920s and 1930s Through close readings of four leading figures of this movement Akutagawa Yokomitsu Kawabata and Hayashi Lippit aims to establish a theoretical and historical framework for the analysis of Japanese modernism The 1920s and 1930s witnessed a general sense of crisis surrounding the institution of literature marked by both the radical politicization of literary practice and the explosion of new forms of cultural production represented by mass culture Against this backdrop this study traces the heterogeneous literary topographies of modernist writings Through an engagement with questions of representation subjectivity and ideology it situates the disintegration of literary form in these texts within the writers exploration of the fluid borderlines of Japanese modernity **Literary Life in Tōkyō 1885-1915** Katai,2023-07-24 *Discourses of Seduction* Hosea Hirata,2020-03-17 If the postmodernist ethical onslaught has led to the demise of literature by exposing its political agenda if all literature is compromised by its entanglement with power why does literature s subterranean voice still seduce us into reading Why do the madness and the scandal of transgressive literature its power to force us to begin anew its evil escape the gaze of contemporary literary criticism Why do we dare not reject ethics and the ethical approach to literature If the primary task of literary criticism is to correct others ethical missteps should we not begin by confronting the seductiveness of ethics our desire for ethics the pleasure we take in being ethical And what is the relationship between ethics and history in the study of literature What would be the ethical consequences of an erasure of history from literary criticism In a series of essays on the writings of Kawabata Yasunari Murakami Haruki Karatani Kjin Furui Yoshikichi Mishima Yukio Oe Kenzaburo Natsume Soseki and Kobayashi Hideo Hosea Hirata visits the primal force of the scandalous in an effort to repeat in the Kierkegaardian sense the originary scene that initiates the obscure yet insistent poetry that is literature and to confront the questions raised **To Outlive Eternity and Other Stories** Poul Anderson,2007-03-01 From the aftermath of

World War III to a world inherited by robots where humans are unwelcome from a handful of human survivors on a starship desperately searching for other ships carrying survivors of the destruction of the entire Earth by an unknown enemy who may strike again at any time to another starship hurtling through the cosmos at a speed so close to that of light and unable to slow down that relativistic effects make millennia fly by for each tick of the clock onboard from a team striving to make Venus habitable for humans to a group of men who find the ominous secret behind a new quasi religious philosophy that is sweeping the world The wide ranging imagination and exciting storytelling of Poul Anderson brings many different worlds to vivid life in a great volume of his best stories that will thrill all fans of science fiction At the publisher s request this title is sold without DRM Digital Rights Management *Transformations of Sensibility* Hideo Kamei, 2020-06-01 First published in Japan in 1983 this book is now a classic in modern Japanese literary studies Covering an astonishing range of texts from the Meiji period 1868 1912 it presents sophisticated analyses of the ways that experiments in literary language produced multiple new and sometimes revolutionary forms of sensibility and subjectivity Along the way Kamei Hideo carries on an extended debate with Western theorists such as Saussure Bakhtin and Lotman as well as with such contemporary Japanese critics as Karatani K jin and Noguchi Takehiko *Transformations of Sensibility* deliberately challenges conventional wisdom about the rise of modern literature in Japan and offers highly original close readings of works by such writers as Futabatei Shimei Tsubouchi Sh y Higuchi Ichiy and Izumi Ky ka as well as writers previously ignored by most scholars It also provides a new critical theorization of the relationship between language and sensibility one that links the specificity of Meiji literature to broader concerns that transcend the field of Japanese literary studies Available in English translation for the first time it includes a new preface by the author and an introduction by the translation editor that explain the theoretical and historical contexts in which the work first appeared
