Peoples of the River Valleys Amy C. Schutt, 2013-03-01 Seventeenth century Indians from the Delaware and lower Hudson valleys organized their lives around small scale groupings of kin and communities Living through epidemics warfare economic change and physical dispossession survivors from these peoples came together in new locations especially the eighteenth century Susquehanna and Ohio River valleys In the process they did not abandon kin and community orientations but they increasingly defined a role for themselves as Delaware Indians in early American society *Peoples of the River Valleys* offers a fresh interpretation of the history of the Delaware or Lenape Indians in the context of events in the mid Atlantic region and the Ohio Valley It focuses on a broad and significant period 1609 1783 including the years of Dutch Swedish and English colonization and the American Revolution An epilogue takes the Delawares story into the mid nineteenth century Amy C Schutt examines important themes in Native American history mediation and alliance formation and shows their crucial role in the development of the Delawares as a people She goes beyond familiar questions about Indian European relations and examines how Indian Indian associations were a major factor in the history of the Delawares Drawing extensively upon primary sources including treaty minutes deeds and Moravian mission records Schutt reveals that Delawares approached alliances as a tool for survival at a time when Euro Americans were encroaching on Native lands As relations with colonists were frequently troubled Delawares often turned instead to form alliances with other Delawares and non Delaware Indians with whom they shared territories and resources In vivid detail *Peoples of the River Valleys* shows the link between the Delawares approaches to land and the relationships they constructed on the land **On the Mode of Formation of Some of the River-valleys in the South of Ireland** Joseph Beete Jukes, 1862 **Antiquities of the Upper Gila and Salt River Valleys in Arizona and New Mexico** Walter Hough, 1907 **On the Mode of Formation of Some of the River-valleys in the South of Ireland** Jukes, 1862 **Meandering Valleys and Underfit Rivers** William Morris Davis, 1914 **Antiquities of the Upper Gila and Salt River Valleys in Arizona and New Mexico** W. Minnesota's St. Croix River Valley and the Anoka Sandplain Daniel S. Wovcha, We tend to take the landscape around us for granted believing that the land has looked smelled and sounded as it does now for as far back in time as we can imagine from the book Just 150 years after the first Euro American settlers moved into the region now known as the St Croix River Valley and Anoka Sandplain only small fragments of the native landscape remain For example only about 6 percent of

the forests present 150 years ago are left and a mere 1 percent of the prairies remain Minnesota's St Croix River Valley and Anoka Sandplain offers a fascinating landscape history of this six county region in east central Minnesota including detailed descriptions of thirty nine varieties of native habitats that still exist there The region includes the counties of Anoka Chisago Isanti Ramsey Sherburne and Washington Much of the data presented in Minnesota's St Croix River Valley and Anoka Sandplain was recently gathered by the Minnesota County Biological Survey and is appearing in print for the first time All of the data is summarized and interpreted to provide a convenient guide for anyone interested in the natural history of the region including landowners seeking more information on a forest or prairie on their land persons interested in visiting native habitats in the region government planners and resource managers and high school biology classes For each native habitat the authors include descriptive text photographs line drawings distribution maps and lists of associated plants and animals The book also contains a guide providing directions to and interpretation of 35 sites accessible to the public where these native habitats can be explored No other single book gives such a thorough and integrated treatment of the native habitats and landscape of the area A set of companion color wall maps is also available Minnesota's St Croix River Valley and Anoka Sandplain Maps of Native Habitats These document the location of the remaining native habitats along with rare plants and animals
