The Burden of Modernity Carlos J. Alonso, 1998-09-24
This book offers a provocative interpretation of cultural discourse in Spanish America. Alonso argues that Spanish American cultural production constituted itself through commitment to what he calls the narrative of futurity, that is, the uncompromising adoption of modernity. This commitment fueled a rhetorical crisis that followed the embracing of discourses regarded as modern in historical and economic circumstance that are themselves the negation of modernity. Through fresh readings of texts by Sarmiento, Mansilla, Quiroga, Vargas Llosa, Garcia Marquez, and others, Alonso tracks this textual dynamic in works from the nineteenth century to the present.

Au Naturel Lara Anderson, J. P. Spicer-Escalante, 2010-03-08
Literary naturalism within the Hispanic context has traditionally been read as a graphic realist school or movement linked predominantly to late nineteenth-century literary production. The essays in *Au Naturel: Re-Reading Hispanic Naturalism*, written by scholars from different generations, nationalities, and ideological backgrounds, propose a major revisionist contribution to the study of Hispanic naturalism. Based on a theoretical proposal that re-semanticizes *naturalismo* as a diachronic counter-metanarrative phenomenon that transcends the chronological and geographic limitations imposed by traditional criticism on naturalism, the collection provides new readings of traditional naturalist fare as well as re-readings of works that have not been read within the bounds of conventional criticism as

naturalist Re read within the proposed theoretical framework its essays demonstrate the countless ways in which Hispanic naturalist texts literary and more recently filmic continue to frankly engage the societal problematics that has impeded true social political economic and cultural progress from taking place in the Hispanic world from the turbulent fin de siècle period of the nineteenth century through the present day globalized context Au Naturel Re Reading Hispanic Naturalism is thus also an open invitation to the scholarly community to re consider other socio critical works within the Hispanic naturalist context that observe and reflection upon social issues that continue to plague Hispanic society today

The Monstered Self Eduardo González, 1992 Viewing stories and novels from an ethnographic perspective Eduardo González here explores the relationship between myth ritual and death in writings by Borges Vargas Llosa Cortázar and Roa Bastos He then weaves this analysis into a larger cultural fabric composed of the works of Chaucer Shakespeare Joyce Benjamin H G Wells Kafka Poe and others What interests González is the signature of authorial selfhood in narrative and performance which he finds willfully and temptingly disfigured in the works he examines horrific and erotic subservient and tyrannical charismatic and repellent Searching out the personal image and plot González uncovers two fundamental types of narrative one that strips character of moral choice and another in which characters' choices deprive them of personal autonomy and hold them in ritual bondage to a group Thus The Monstered Self becomes a study of the conflict between individual autonomy and the stereotypes of solidarity Written in a characteristically allusive elliptical style and drawing on psychoanalysis religion mythology and comparative literature The Monstered Self is in itself a remarkable performance one that will engage readers in anthropology psychology and cultural history as well as those specifically interested in Latin
